From

The Rev. A. F. R. Bird,
M a n a g e r

To

The Director of Public Instruction,
M a d r a s.

S i r,

I have the honour to acknowledge a copy of your Proceedings R.C. No. 5936 dated December 18th 1911 forwarded by the Acting Inspector of Schools, Third Circle.

In connection with this I beg to say that Government has sanctioned Grants-in-aid for two new buildings here,

1. An addition to the High School, vide your Proceedings Dis. No. 3732 of 14th July 1911 quoting G.O. No. 425 Educational of 1st July 1911.
2. A Higher Elementary Training School, vide your Proceedings Dis. No. 6533 dated 11th October 1911 quoting G.O. No. 650 Educational of 15th September 1911.

I beg to state that I am making under the sanction of the Superintending Engineer, Third Circle, Bellary, the following minor alterations in the details of the plans of the two buildings as approved.

1. The approved plans provided pilasters for the corners of the buildings and these have now been converted into buttresses so that the new buildings may be in conformity with existing ones.
2. In the approved estimate for the High School extension provision is made for plastering the walls on the inside whereas in that for the Training School provision is made for pointing. The existing buildings are not plastered but only pointed and the Superintending Engineer who was on a visit here readily sanctioned my proposal to convert the plastering into pointing in the case of the first building. This change will result in a saving.

3
4
I also propose to make two other minor alterations. In the plans submitted to you for sanction a plinth course is provided for the basement but by an oversight it was left out in the estimates. I now propose to follow the plans.

In the original estimates masonry pillars were provided for the verandah but it is now found that it would be impossible to construct masonry pillars of the dimensions given and these I propose to replace by cut stones.

It is proposed to meet the extra cost that may be involved in these changes from the amounts sanctioned for contingencies.

A copy of the Superintending Engineer's letter sanctioning the first two changes is enclosed.

I beg that you will be good enough to approve these ^{devi}ations.

I have the honour to be,

S i r,

Your most obedient servant,

/Sd/ A. F. R. Bird

Bellary,

Dated the 6th December 1911.

Dear Mr. Bird,

Relative to your letter of the 24th November, I write to say that there is no objection whatsoever to your building the buttresses you wish to build on the school house instead of Pilasters. I notice that you have made such buttresses in the other buildings and if you alter the plan of the proposed building, it will conduce to uniformity in design.

I certainly approve of your pointing the

interior

interior of the work instead of plastering it as provided
in the estimate.

Believe me,

Yours sincerely,

/Sd/ P. Roscoe Allen

Superintending Engineer,

III Circle.

Ref. on Cur. No. 484 of 2nd February 1911.

Submitted to Government with reference to G.O's
Nos 425 Educational dated 1st July 1911, and 650 Educational
dated 15th September 1911 and recommended.
