Resolutions Nos. 2 and 18 which propose to augment the provision for "Teaching grants to secondary schools for non-European boys" by reducing the provision for "Model secondary schools" and for "Training schools for masters" may be dealt with together. In the budget estimate for 1912-13 a provision of 1.60 lakhs is made for "Teaching grants to secondary schools for non-European boys". This is only Rs. 5000 more than the ~~provision~~ ^{provision} in the current year's budget but the D.P.I. has in another connection reported that allotment for teaching grants to secondary schools might be raised by 50 lakhs and we have recently informed the Govt. of India that we could ~~usefully~~ ^{usefully} spend on improvement of aided secondary schools an additional sum of one lakh annually. There is thus scope for increasing our expenditure on aided secondary schools although such a large sum as 1.50 lakhs may not be required for teaching grant alone. It may be noted that in addition to the allotment for teaching grant, a special provision of 2 lakhs has been made in the budget for grant to secondary schools for equipment.

2. On the otherhand, the proposal to omit or reduce the lump allotments for the "Model high schools" and the "Training schools for masters" is open to great objection and should not be agreed to. The question of improving secondary education in this Presidency by the establishment of more Government secondary schools to serve as models for schools under private - - management was under the careful consideration of this Government for a long time and the

scheme formulated by them is now before the Secretary of State. In their last letter on the subject No .136 Edl., dated 15th February 1912, the Govt. have undertaken to increase the aid given to aided secondary schools and the only obstacle in the way being thus removed the scheme will, it may be hoped be soon sanctioned.

3. The annual cost of the scheme is 4.17 lakhs but only a sum of 1.50 lakhs has been provided for in the budget by Financial. This it will be seen is the cost of the scheme for about four months and cannot be further reduced or omitted altogether.

4. The question of the re-organization of the Govt. Training schools for masters was also under the consideration of Govt. for a long time and final proposals on the subject were submitted to the Govt. of India for sanction. with letter No.916 Edl., dated 22nd December 1911. As the development of elementary education is intimately connected with the improvement of the arrangements for the training of teachers the Govt. of India have been asked demi officially to pass early orders in the matter and they have promised to expedite the consideration of the scheme as far as possible. As the sanction of the Secretary of State is not required, the scheme may be introduced as soon as the Govt. of India have accorded their sanction or from July next. In view of these circumstances the proposal of the Hon'ble Mr. Krishnaswami Aiyangar to reduce the lump provision for training schools by Rs. 15,000 cannot be agreed to. The annual cost

of the scheme for the reorganization of the Training schools is Rs.84000 but only ~~six months~~ six months' provision has been made in the budget, namely Rs.40,000.

7.3.12 A proposal has also ~~been~~ ^{been} received from the D.P.O. for the retention of the six schools which would be abolished under the scheme for the reorganization of training schools for masters and this will require additional funds.

A.D.O. has also received today in which D. Kousar asked if an additional .50 [or .70 including ad to colleges] could not be found from some sources. That D.O. must be dealt with in consultation with Fin^l before this note can be completed. I marked it V.E.

2. The difficulty about large additions to secondary teaching grants, as I understand, is that they are virtually a promise of recurring aid. The ^{ordinary} expenditure of a school cannot be contracted at pleasure and additions to teaching grants are therefore limited by the extent of

The Resolution, it is submitted, should not be admitted, as it is opposed to Rule 13 (g). The L.C.M's proposal involves the elimination from the receipts side of the budget of one lakh taken as receipts due to the introduction of the Model H School scheme, since owing to the proposed entire diversion of the allotment of 1.50 for the scheme on the expenditure side for Grants-in-Aid the Model H. School scheme must be postponed and no fees can be levied. The Govt. of India have sanctioned expenditure up to the limit covered by receipts per contra, plus a specified sum. If any of the receipts are eliminated their rules require us to reduce a corresponding amount of expenditure. If it is thus not possible to admit the L.C.M's. Resolution, the financial effect of which he has not probably fully realized.

5-3-12.

The Hon'ble Member proposes to enter 1.50 lakhs in the Budget for grants-in-aid to non European secondary schools and to find this money by transferring the lump sum grant of 1.50 lakhs for Government model schools. The Registrar points out that this will not leave the financial equilibrium unaffected (which was no doubt the intention of rule 13 (g)) for we have an entry of 1 lakh on the Receipts side of the Budget for fees from these model schools. If, therefore, the Hon'ble member's Resolution were adopted, the Receipts estimate would be 1 lakh less than the amount sanctioned by the Government of India, while the Expenditure estimate would remain the same. This result, however, does not seem to me to violate rule 13 (g), and it is that rule alone at present with which we are concerned. I submit, therefore, that the Resolution must be admitted.

2. This case shows that rule 13 (g) requires amendment. What we want is something like the proviso to rule 6 (2). It might run as follows:-

"(g) It it would in itself have the effect of
"reducing the estimated closing balance of the
"Presidency as sanctioned by the Government of India,
it

"it must propose some counterbalancing reduction in
"expenditure so as to avoid such reduction of the
"closing balance."

11.3.12. With regard to para 2 of the Secy's remarks, it is for consideration whether ^{the} ~~any~~ additional grants proposed to be paid to secondary schools may not be given as

Supplemental grants, the managers being made distinctly to understand that no guarantee will be given of their continuance in succeeding years.

R₂ 11.3.12. I doubt if this would meet the case

unless the Grant in Aid Code were temporarily "scrapped", & the whole or $\frac{3}{4}$ - instead of half - the net cost met by teaching grants.

2 But there is no need to argue the point for a recurring Imperial grant of £20,000 has since been announced in the Chamber budget debates, & this will meet all that the D.P.1 wants. It will be useless to argue the matter without first ascertaining whether or not it could be spent.

3. This file will be wanted at the League Council tomorrow.
