The Secretary to Government,

Educational Department.

Sir,

I have the honour to transfer to the Government of Madras the enclosed application from one Duraiswami for a Government Scholarship to England. The applicant appears to apply for a technical scholarship rather than for the University Scholarship.

I have the honour to be,

Sir,

Your most obedient servant,

Francis Dewsbury

Most honored Sir, I humbly beg to Submit
the following few lines to your honor's kind
Consideration and for favourable disposal:-

From the notifications under the heading of
'Government Scholarship to England' on page
12 of the Fort. St. George Gazette, Madras,
Tuesday evening January 9, 1912, I learn
applications are received from several
Candidates wishing to go to England,
and I humbly offer myself to be one
of them.

2. I am a native of Madras (S. I. R.), and belong to the Sourashtra Community, a community which rightly deserves all sorts of encouragement at the hands of the Government, being classed as backward in education.

This Community shares none-as yet in almost all kinds of industry and is thoroughly industrial. They now come the foremost in trade in Southern India next only to the Nattakottai Chetties. If therefore industrial education is freely imparted to a poor Scholar of this Community, he is sure to improve the present status of industry of his own people, who now form the bulk of the population of Madras, which is a great Centre of trade, and the people at large.

3. I humbly beg to Submit that I have a heartfelt desire to proceed to England or any other foreign Country, if only my financial status is helped by Government.

4. I am a Matriculate of the University of Madras and have studied up to the Senior H. A. class the term Certificates for which I hold; I beg leave to mention that I possess fair knowledge in English, requisite for the Course.

5. I beg also to point out that my Community has a greater inclination to an industrial life than to any other pursuit of life and the only great bar to any further development in industry is want of education in a great majority of the population and I ^{am} sure that the only way in which Government can help them is to give them chance though a little out of turn.

6. Under these circumstances, I most humbly beg to pray that your honours will be graciously pleased to recommend me to the Government for the scholarship in question and thus help the poor,

for which act of Charity and Kindness,
I shall, as my duty bound, ever pray your
honour's long life and prosperity.

SENATE HOUSE, 2 - APR 1912

FROM

Francis Dewsbury Esq., B.A., LL.B.,
Registrar, University of Madras,

TO

The Secretary to Government,
Educational Department.

Sir,

In continuation of my endorsement No.930 dated 20th March 1912 I have the honour to forward for disposal by Government the enclosed resolution of the Councillors of the Saurashtra Sabha, Madura, praying for the award of a Technical Scholarship to one Mr. M. Duraiswami.

I have the honour to be,

Sir,

Your most obedient servant,

Francis Dewsbury

Registrar.

No 366
Under rule 32 of the Memorandum and articles of association of the Sourashtra Sabha Madura.

THE RESOLUTION

OF THE COUNCILLORS OF THE SOURASHTRA SABHA,

MADURA.

Saturday the 30th day of March '12.

The Sourashtra Sabha which is incorporated under the Indian Company's Act and which is a representative assembly of the Sourashtra Community which forms nearly fifty percent of the whole population of the city of Madura and whose immigration from Cuze-rat (the ancient kingdom of Sourashtra) into this city was, as was observed by Lord Curzon, during his visit to this city of his-
toric fame as the viceroy of India, responsible for the propagation of the Industries of Weaving and Dyeing in Southern India, has resolved to forward for the benign consideration of the syndicate of the University of Madras, the following Resolutions passed at its meeting held on 30-3-'12.

1. The Sabha heartily thanks the Government for various measures adopted by them from time to time for the revival of the decaying industries of India and for the notification appearing in the Fort St. George Gazette on page 12 of the 9th January 1912 that a State Technical Scholarship will be awarded in this Presi-
dency during the current year.

2. This law-abiding and peaceful Community of weavers and dyers which received a severe shock from the competition of the machine-made fabrics is slowly bettering its industrial condition by the spread of English Education which several of its members were enabled to receive by means of scholarships bestowed upon them by the Government as members of a community classed as back-
ward in education.

3. The Sabha is convinced that the prosperity of the in-
dustrial population purely depends upon the fact that they should be educated in the improved methods of industries.

8. The Bureau is convinced that the prosperity of the industrial population purely depends upon the fact that they should be educated in the improved methods of industries.
