From

THE SECRETARY TO THE GOVERNMENT OF MADRAS,

To

THE SECRETARY TO THE GOVERNMENT OF INDIA,
DEPARTMENT OF EDUCATION.

Dated Fort St. George, the 4th April 1912

SIR,

I am directed to acknowledge the receipt of your letter No. 378, dated the 13th February 1912, intimating the distribution of the Imperial grant of 50 lakhs designed to promote truly popular education which was announced at the Coronation Durbar and expressing the desire of the Government of India to have the benefit of the views of His Excellency the Governor in Council regarding the special needs of the Madras Presidency.

2. Some indication of the views of His Excellency in Council has already been given in my letter No. 853, dated 2nd December 1911, which dealt, however, solely with the topic of the improvement and extension of primary instruction. The proposals therein contained were necessarily of a tentative description and the entertainment of a special officer was contemplated for the purpose of working out practical details and supervising the actual introduction of the measures of expansion recommended.

3. Substantial Imperial grants have been sanctioned and no uncertain indication has been given that additional subsidies will be forthcoming in future years. The forward movement rendered possible by these favourable financial conditions will affect the entire educational field and in order to ensure the requisite degree of co-ordination and to make certain that educational progress shall follow sound lines and that good value shall be obtained for the money spent, it is, in the opinion of His Excellency the Governor in Council, essential that the present Director of Public Instruction who has held that office since November 1903 and has always devoted particular attention to elementary education, the expansion of which presents by far the most important part of the work before Government, should himself keep in close touch with the subject. It is not intended to remove Dr. Bourne from the general control of the department which he has so long administered and His Excellency in Council desires that he should continue to be the chief adviser of the Local Government in matters of educational policy. It is proposed, however, to assist him by the deputation of an officer whose seniority and capacity are such that Dr. Bourne

need have no hesitation about giving him full powers to deal finally with a considerable amount of his administrative work, or to depute to him such enquiries as he may think necessary and advisable in the matter of the improvement and extension of primary instruction.

4. Such an officer is fortunately forthcoming in the person of the Hon'ble Mr. J. H. Stone, who has on two occasions himself acted as Director of Public Instruction. He has no prospect of succession to the permanent charge of the department, being a year older than Dr. Bourne who joined the graded educational service some months before he did. He has just been granted furlough and being eligible to retire under the 55 years rule in 1913 would probably elect not to return to the department if, as is not unlikely, he succeeded in securing a remunerative employment in England, or if he succeeds, as it appears he may probably succeed, in obtaining employment elsewhere in India. In these circumstances it becomes necessary to guarantee a substantial improvement in his emoluments in order to compensate Mr. Stone for postponing his furlough and to secure his continuance on special duty for the requisite period of time. He is at present drawing a consolidated monthly salary of Rs. 1,500 and the deputation allowance ordinarily admissible under article 81 of the Civil Service Regulations, viz., Rs. 300 *per mensem*, would, in the opinion of His Excellency in Council, insufficiently remunerate him for the decided increase in work and responsibility which his duties would involve. For an officer of his standing and special fitness for the work a deputation allowance of Rs. 500 *per mensem*, would be by no means excessive and it is for emoluments on this scale that I am now to solicit the sanction of the Government of India under article 81 of the Civil Service Regulations.

5. In regard to the period of deputation contemplated, I am to say that Mr. Stone who is Principal of the Presidency College will be permitted to avail himself of the annual vacation, which will just allow him time to pay a rapid visit to England, returning on or about the 1st July. During the interval arrangements will be made to assist Dr. Bourne in order that he may commence the special investigations which are necessary. Mr. Stone's deputation will thus commence with effect from the beginning of July next and I am to ask that it may be sanctioned for two years.

6. The total additional expenditure which the arrangements proposed in this letter will involve would not exceed Rs. 1,200 *per mensem*, viz., the allowance proposed for Mr. Stone (Rs. 500) *plus* the pay of the junior officer of the Indian Educational Service who will form the lowest link in the chain of appointments consequent on Mr. Stone's deputation, *plus*, say Rs. 200 *per mensem*, for additional clerical establishment and travelling allowances. The expenditure in issue is thus very small as compared with the amount of extra funds which it is proposed to devote to educational progress and the value of the results which it is hoped may accrue from making an initial investigation of a really thorough character.

I have the honour to be,

Sir,

Your most obedient servant,

L. DAVIDSON,
for Secretary to Government.

In connection with G.O. No. 204, Educational, dated 2nd March 1912, asking you to submit proposals for the utilization of the Imperial grant and with reference to the impending discussions in the Legislative Council regarding educational expenditure, I am to ask you at your earliest convenience to furnish information in regard to the following matters:—

(i) The manner in which you propose to utilize the services of the special officer for whose entertainment a lump provision of Rs. 15,000 has been made under the detailed account head "22-B. INSPECTION ;"

(ii) the approximate cost of providing a suitable increase in the pay of trained or approved teachers in elementary schools under public management or in receipt of aid from public funds ;

(iii) the number and if possible, the geographical distribution of the new elementary schools opened during the current year ;

(iv) the expedience of retaining at least as a temporary measure some of the training schools which it has been proposed to abolish simultaneously with the introduction of the re-organization approved in G.O. No. 915, Educational, dated 22nd December 1911, and

(v) the reason why the provision made for building grants to European schools was raised from Rs. 20,000 in the revised estimate for 1911-12 to Rs. 45,000 in the budget estimate for 1912-13 (see detailed account No. 22-G. GRANTS-IN-AID), together with information as to the probable disposal of the further special grant of one lakh for building and equipment in the same class of school.

Demi-official—from the Hon'ble Mr. A. G. BOURNE, D.Sc., F.R.S., C.I.E., Director of Public Instruction.

To—the Hon'ble Mr. L. DAVIDSON, I.C.S., Acting Secretary to Government, Educational Department.

Dated—Madras, the 6th March 1912.

No.—40.

In reply to item (1) in your Demi-official No. 695-1, dated 4th March 1912, viz., the matter of the Special Officer (Elementary Education Improvement Scheme), I would suggest that I am perhaps the most suitable person for the work and that it would much simplify matters if I carried out the work as Director. If this be conceded, I would further suggest that an officer be appointed temporarily as Joint Director. This officer should have authority to deal with and dispose of all matters that I saw fit to delegate to him. This would practically mean almost all the work of the Director not directly or in some cases indirectly connected with elementary education. I should probably retain in my own hands such matters as alterations in the Grant-in-Aid Code or Educational Rules.

2. If such an arrangement could continue for a couple of years, I think, I could undertake to put elementary education upon a better footing than it is at present. Numberless problems by no means all connected with elementary education have arisen during the eight years that I have been Director which I have had to put aside for want of time to investigate and deal with them and this seems the psychological moment to make a serious attempt to grapple with them and in doing this I might expect to be assisted by the Joint Director.

3. I may point out in passing that this arrangement would simplify my going to Simla or visiting other Presidencies the state of things in which is so often quoted in disparagement of the state of things in Madras.

4. Perhaps Government would also consider the question as to whether I might not during this period perform also the functions of Joint Secretary to Government on the analogy of the Joint Secretary for Irrigation.

5. The officer obviously suitable to be Joint Director is Stone. Stone has been granted leave for the summer vacation of the Presidency College with furlough in continuation. The vacation commences on the 5th April, but much could be done before then if he could be authorized to do the work pending a final decision upon the whole question. He would be willing to forego the furlough and return at the end of the vacation but it should, I submit, be made worth his while to do so both by the amount of deputation allowance paid to him and by a prospect of this being continued for some considerable period. I suggest that it would be worth while to get the Government of India to sanction the arrangement for two years with a deputation allowance of Rs. 500. In the meantime the local Government may sanction Rs. 300 for six months. This period would cover the vacation period during which the work could be undertaken by Middlemast who would draw the Rs. 300 a month for the period and be allowed to do the work at Ootacamund at his own expense. Middlemast was Deputy Director for a considerable period and is quite competent to do the work.

6. The cost of the scheme would be the deputation allowance *plus* Rs. 500 a month being the pay of a temporary appointment in the Indian Educational Service for the officer replacing Stone (at present this is Mackintosh) *plus* a small amount entailed by placing an officer of the subordinate inspecting staff on special duty with me and the employment of a good drafting clerk and a type-writing clerk and two peons for my personal use. This would all be covered for 1912-13 by the provision of Rs. 15,000 made in the budget.

7. In conclusion, I would again suggest that I be authorized at once to delegate any of my present work to Stone in anticipation of formal sanction to the whole scheme as much has to be attended to without any delay if the budget provision for the ensuing year is to be utilized.

Honourable Member should see both replies at once, with the demi-official, before examination in the Secretariat.

Send him copies

L. DAVIDSON—7-3-12.

Copies of Dr. Bourne's Demi-officials Nos. 40 and 41, * dated 6th March 1912

and the Secretary's Demi-official to him No. 695-1, dated 4th March 1912, are submitted.

R. SUNDARAM AIYAR—7-3-12.

Submitted to the Honourable Member.

[Meanwhile the office will examine the Director of Public Instruction's proposal.]

L. DAVIDSON—7-3-12.

I think it would be well if Mr. Davidson brought these papers into Council, which I believe is to meet on Monday 11th instant. We can settle then whether the general line of this proposal should be accepted.

M. H[AMMICK]—8-3-12.

A perusal of Dr. Bourne's demi-official is solicited.

2. Reference is also solicited to the office-note (paragraph 6) and the Secretary's remarks at page 3 of the notes with G.O. No. 852, Educational, dated 2nd December 1911. The appointment of a special officer for carrying out the arrangements for the expansion of elementary education was suggested by this Government and a sum of Rs. 15,000 has accordingly been provided in the budget estimate for next year for this purpose.

3. Dr. Bourne's proposals contained in his demi-official seem to be best calculated to carry out the object in view.

4. If the proposals are approved, the question of the deputation allowance to be paid to Mr. Stone has to be decided. Under article 81 of the Civil Service Regulations, a deputation allowance in addition to pay may be given if the special duty involves a decided increase of work or responsibility. There is no doubt that as Joint Director Mr. Stone's work and responsibility will be increased and that a deputation allowance should be paid. Article 81 of the Civil Service Regulations quoted above states that, except with the special sanction of the Government of India, the deputation allowance should not exceed one-fifth of salary or Rs. 10 a day whichever is less. Mr. Stone's pay being Rs. 1,500, the deputation allowance should not exceed Rs. 300 *per mensem*; but it is open to the Government of India to sanction a larger allowance. Dr. Bourne recommends Rs. 500 a month for two years which is the maximum period for which, under article 79 (b), Civil Service Regulations, the Government of India may sanction the deputation. Orders are requested as to whether the Government of India may be addressed.

5. To immediately carry on the work, Dr. Bourne proposes that Mr. Stone be placed on deputation for six months with a deputation allowance of Rs. 300 *per mensem*. Mr. Stone's present special duty expires on the 31st instant and on that date he will have been on deputation 4 months and 28 days*. Under article 78 (b), Civil Service Regulations, a further deputation for six months cannot be sanctioned by this Government, as the Government's power is limited to six months. The Presidency College closes for the summer vacation from the 5th April 1912. If, until that date, Mr. Stone's present deputation is extended, he may avail himself of the vacation and on his return after the vacation may be again placed on deputation. In the meantime, the sanction of the Government of India may be obtained to his deputation for two years from 1st July 1912 (the date of the reopening of the college after the summer vacation) with whatever allowance is decided on.

G.O. Mis. No. 884, Educational, dated 14th December 1911.

* From 4th November 1911 to 31st March 1912.

6. For the period of the vacation, that is, from the 5th April to the 30th June 1912, Mr. Middlemast may, as suggested by Dr. Bourne, be placed on deputation with an allowance of Rs. 260 *per mensem* which is one-fifth of his pay. He cannot be allowed Rs. 300 *per mensem* as that would exceed the one-fifth limit—*vide* article 81, Civil Service Regulations.

7. If these proposals are approved, Dr. Bourne would have an officer of the subordinate inspecting staff placed on special duty with him and a good drafting clerk, a typewriting clerk and two peons sanctioned for his personal use. These seem necessary. But no information has been given as to what the salaries of these officers should be. He may be asked to report on the point. A sub-assistant on Rs. 75 (the pay of the last grade), a drafting clerk on Rs. 40 or Rs. 50, a typist on Rs. 20—1—25 and two peons on Rs. 8 would perhaps suffice.

The extra cost on account of the above proposals will be:—

	Rs.
(1) Mr. Mackintosh's pay at the Presidency College for 11 months from April 1912—Rs. 500 × 11	5,500
(2) Mr. Middlemast's deputation allowance for about 3 months—April, May and June 1912—Rs. 3 × 260	780
(3) Mr. Stone's deputation allowance for 8 months from 1st July at, say, Rs. 500	4,000
(4) Sub-assistant, clerk, typist and peons for 12 months—Rupees 12 × 161	1,932
Travelling allowance, etc. (roughly)	2,788
	15,000

Dr. Bourne states that the expenditure involved by his proposals would all be covered in 1912-1913 by the budget provision of Rs. 15,000.

8. From paragraph 7 of Dr. Bourne's demi-official it is not clear whether he suggests that Mr. Stone should be given a deputation allowance immediately. Even if this is done, the expenditure of Rs. 300 on this account can be met from the budget provision, the amount required for travelling allowance and contingencies being only a rough estimate.

9. In paragraph 4 of his demi-official, Dr. Bourne also suggests whether Government might not consider the question of the Director of Public Instruction being Joint Secretary to Government during the period he is working up the scheme for the improvement of elementary education. This matter was considered in 1909 at the instance of the Government of India but was given up as not worthy of adoption—please see the letter to the Government of India No. 573, dated 22nd October 1909, and pages 6, 7, 8 and 13 of the notes connected with it. It is for consideration now whether Dr. Bourne's suggestion may be accepted.

10. Reference is solicited to Honourable Member's remarks that the general line of Dr. Bourne's proposals may be discussed in Council on Monday.

11. Under paragraph 7 (vii) of interdepartmental reference rules, financial should be consulted before orders issue.

R. SUNDARAM AIYAR—9-3-12.

With reference to his note on page 2 *ante* Honourable Member may like to look at the references in this file before Council.

Dr. Bourne does not press the Joint Secretary proposal. What he is keen about is on setting to work at once. He would like Mr. Stone—now comparatively at leisure—to be invested with responsible powers *this week*. He would also particularly like to know *for what period of time* Government would be prepared to approve this arrangement—if it goes through, for upon the period depends the plan of action.

It is premature to discuss details as to staff, etc., at this stage. If the general plan is approved, Dr. Bourne will elaborate proposals.

There has not been time to consult Financial before Council.

L. DAVIDSON—10-3-12.

Please see the note is circulated as soon as possible with papers about the development of primary education. Finance need not be consulted at present.

M. H[AMMICK].

Papers put up.

L. DAVIDSON—14-3-12.

If Mr. Stone is to assist Dr. Bourne in the matter of working out a scheme for the development of Primary Education, the matter should be taken in hand at once.

We told India that we would provide for a special officer to supervise the development of primary instruction—and I think we are all agreed that an officer is necessary.

I have spoken to Dr. Bourne on the matter since last Council. It seems to me that the choice lies between taking a senior officer such as Mr. Stone, who would assist Dr. Bourne by directly relieving him of much of his daily work, leaving Dr. Bourne, if he desires specially to take up this question of primary instruction, more time to think over it and work it out, or taking a junior officer who would be selected not as having experience but merely for his general ability who would act as Dr. Bourne's assistant or secretary.

Mr. Stone would be much the better appointment. He would be able to relieve Dr. Bourne in a way that no junior officer could and his appointment would be very popular. He would be appointed on special duty in the Director of Public Instruction's office and it would be left to Dr. Bourne to arrange work as he pleased. I understand from Dr. Bourne that he apprehends no difficulty in being able to arrange work with Mr. Stone to their mutual satisfaction.

Dr. Bourne explained to me that he had no intention of trying to rid himself of responsibility; I told him he would have to use his own discretion as to the power he could and would delegate to the special officer.

The difficulty about Mr. Stone is that he wants to go on leave after the vacation and does not want to stay unless it is made worth his while to do so. We can of course refuse him leave and make him stay, but I do not think that would be advisable. Any officer, if he is to assist Dr. Bourne in the desired, must be a willing horse. Rather than keep Mr. Stone against his will, it would be better to take a more junior officer.

Mr. Stone is drawing Rs. 1,600+ personal allowance 500, Rs. 1,500 in all. We can place him on special duty for six months and give him the deputation allowance of Rs. 300 a month, but his deputation would only last for six months. The vacation of the Presidency College begins on the 5th April 1912 and lasts until the 1st July. If Mr. Stone took the vacation which he is very anxious to do (I suppose, he can do

Educational Superintendent—

Examine separately, I think it is all right.

L. DAVIDSON—14-3-12.

Yes, please.

R. SUNDARAM AIYAR—14-3-12.

Dr. Bourne during the vacation and place Mr. Stone on special duty *after the 1st July* when the vacation ends.

Meanwhile we can address India and ask sanction to keep Mr. Stone on special duty for a year or longer if necessary and ask India to allow him a special allowance to make up his salary to Rs. 2,000 a month while on special duty. If India would sanction this, Mr. Stone would be glad to continue on duty until this matter has been settled upon a proper basis.

We have a strong case upon which to go to India and looking to the importance they are likely to attach to working out a proper scheme now, and showing that we are in real earnest in this matter, I should not think they would object.

I regard it as of importance to get something started at once. This is the heaviest time of the year in the education office, and Dr. Bourne tells me he really has no time to do anything now but carry on the current duties of the office. He has to go out and see the head-quarters of the Inspectresses of Schools, who have work that requires his personal attention. He has to go to Bangalore to attend at the council of the Tata Institute there and he has his annual report on hand and other matters.

This question of the development of primary instruction, which looks simple enough involves as the debate yesterday showed us question of great difficulty. Not least is this question of free education which India tells us we must take up.

We have told India that Dr. Bourne will go to Simla in May to attend the conference there, and although I understand Bombay is not sending their Director of Public Instruction, I consider it most important that Dr. Bourne should go. I think it of great importance that India should know what we are doing, the lines upon which we are working, and on the other hand I think it of great importance that we should know exactly what India wants.

The conference will take Dr. Bourne away from Presidency for a fortnight or three weeks and this is another reason for putting on Mr. Middlemast to help Dr. Bourne during the vacation.

If my Honourable Colleagues agree to the proposals in this note, I will see that orders issue at once on the matter and that India is addressed as soon as possible.

M. H[AMMICK]—14-3-12.

(1) *Hon'ble Mr. Sivaswami Aiyar.*

(2) *Hon'ble Mr. Atkinson.*

(3) *Private Secretary to His Excellency the Governor.*

L. DAVIDSON—14-3-12.

I agree to the Hon'ble Sir Murray Hammick's proposals.

P. S. S[IVASWAMI AIYAR]—15-3-12.

I understand the proposals in Sir Murray Hammick's note to be—

(i) That Mr. Middlemast be placed on special duty under the Director of Public Instruction during the vacation, with an allowance of Rs. 300 *per mensem*.

(ii) That the sanction of India be sought to placing Mr. Stone on special duty under the Director of Public Instruction for one year in the first instance, but subject to extension, if necessary, with an allowance of Rs. 500 *per mensem*.

I agree to these proposals.

J. N. A[TKINSON]—15-3-12.

I agree.

C[ARMICHAEL]—16-3-12.

Under Honourable Member's instructions I have telephoned to Dr. Bourne that he is at liberty to utilize Mr. Stone's services from to-day until he goes on leave for the disposal of papers of all kinds—not merely the work for which he was originally placed on special duty. This should be formally confirmed by demi-official.

2. Then prepare a draft to India proposing Mr. Stone's deputation for one year from 1st July, and circulate to Financial before sending it to Honourable Member.

L. DAVIDSON—16-3-12.

A draft demi-official to Dr. Bourne is submitted for approval.

Orders are requested as to whether—

(1) Mr. Stone's deputation period may be extended to 4th April. Under G.O. No. 884, Educational, dated 14th December 1911, it expires on the 31st March and formal orders should issue extending it by four days. It is presumed that as hitherto he is to be given no deputation allowance.

(2) Mr. Middlemast's deputation may now be sanctioned from the 5th April to the 30th June: as stated at page 3 *ante* he can be given a deputation allowance of only Rs. 260 *per mensem*.

The letter to India will be drafted after the demi-official to Dr. Bourne has issued.

FINANCIAL DEPARTMENT.

It is proposed to address the Government of India to sanction the deputation of Mr. J. H. Stone, for a period of two years from about 1st July 1912, on total emoluments of Rs. 2,000 *per mensem* (Rs. 1,500 salary *plus* Rs. 500 deputation allowance), in connection with the Elementary Education Improvement Scheme.

2. In the budget estimate for 1912-13 a lump provision of Rs. 15,000 has been made under the head "22-B. EDUCATION—INSPECTION" on account of a special officer with establishment for the Elementary Education Improvement Scheme. A portion of this provision will be utilised for the deputation * of Mr. Middlemast proposed in the linked file, † and the remaining will not suffice for meeting the charges ‡ on account of Mr. Stone's deputation. The extra charge will therefore have to be met either from the special additional grant of four lakhs, or from the total savings under the Major head "22. Education."

* Total cost Rs. 4,948 excluding contingencies, etc.

† *Vide* G.O. No. 300, Educational, dated 4th April 1912.

‡ Debitable to "22-A. EDUCATION—DIRECTION."

C. REILLY—2-4-12.

Dr. Bourne is not to be on deputation and will continue as Director of Public Instruction. No "special officer" will be entertained, as suggested in paragraph 10 of Educational Letter No. 853, dated 2nd December 1911, for the purpose of supervising the introduction of the scheme for the improvement of primary education. The Director of Public Instruction will do that, and Mr. Stone will be on special duty in the Director of Public Instruction's office for two years as a sort of Deputy Director of a special kind. It seems to me that the *whole* of Mr. Stone's salary will be an extra charge in consequence of this arrangement. Is paragraph 6 of the draft right?

A. G. CARDEW—2-4-12.

Submitted that members of the Indian Educational service are subject to a *time-scale of pay* so that the absence on deputation of one of them will not lead to acting || arrangements. The net additional charge on account of the deputation of Mr. Stone will therefore only be—

|| The case will however be different in the case of a graded service like that of Deputy Collectors.

Per mensem.

RS.

(1) the deputation allowance to be granted to him, viz., and ... 500

(2) the cost of the additional incumbent filling up the vacancy caused by the deputation, which in the present case is ... 500

† A further Rs. 200 *per mensem* has been provided for clerical establishments and travelling allowances.

Total ... 1,000.

2. The salary and allowances of Mr. Stone while on deputation will be debitable to Page 134 of Budget estimate 1912-13. "22-A. EDUCATION DIRECTION—SALARIES," the expenditure under that head being thereby increased. But under "22-C. EDUCATION—GOVERNMENT COLLEGES—GENERAL" there will be a reduction since provision need be made for an officer on Rs. 500 *per mensem* only instead of one on Rs. 1,500 *per mensem*. Paragraph 6 of the draft letter is, it is submitted, thus correct.

I do not think the draft represents what was settled when this matter was discussed in Council, and it is quite unnecessary in any case to do more than ask the Government of India to sanction Mr. Stone's deputation. I am of opinion that the best arrangement would be to appoint Mr. Stone to deal with elementary education and nothing else, so that all his thought and energies may be concentrated on that one subject. In my judgment that would be the best arrangement and it would have the further advantage, in addition to concentration by Mr. Stone, of giving us Dr. Bourne's advice as well. The limping arrangement proposed in the letter seems to me to have nothing to commend it. The case will, I presume, be sent to His Excellency.

Department of Education.

Sir,

I am directed to acknowledge the receipt of your letter No.378 dated the 13th February, 1912 intimating the distribution of the Imperial grant of 50 lakhs -- designed to promote truly popular education which was announced at the coronation darbar and expressing the desire of the Government of India to have the benefit of the views of His Excellency the Governor in Council regarding the special needs of the Madras Presidency.

2. Some indication of the views of His Excellency in Council has already been given in my letter No.853, dated 2nd December 1911, which dealt, however, solely with the topic

of the improvement and extension of primary instruction. The proposals there contained were necessarily of a tentative description and the entertainment of a special officer was contemplated for the purpose of working out practical details and supervising the actual introduction of the measures of expansion recommended.

3. It was considered at the time that an officer of comparatively junior standing would meet all requirements, but subsequent developments have put a different complexion upon the case. Substantial Imperial grants have been sanctioned and no uncertain indication has been given that additional subsidies will be forthcoming in future years. The forward movement rendered possible by these favourable financial conditions will affect the entire educational field and in order to ensure the requisite degree of coordination and to make certain that educational progress shall follow sound lines and that good value shall be obtained for the money spent, the Governor in Council deems it essential to place the investigation in the hands of an officer whose experience and knowledge of the department are commensurate with the exceptional demands of the case. The officer plainly indicated as best fitted for this responsible duty is the Hon'ble Mr. A.G. Bourne, C.I.E., D.Sc., F.R.S., who has been Director of Public Instruction since November 1903 and has always devoted particular attention
