Sir,

9.2.12
I have the honour to report that upon receipt of G.O.NO.112. Educational, I took steps to carry out the instructions contained therein.

As far as possible the necessary stores for the Dyeing Laboratory have been ordered in India, and are now arriving, but it is evident that in future it will be advisable to order the stores direct from Europe, for it appears that the catalogues of the firms here specify only what they could supply from Europe, in time, and not what they have actually in stock. Not only so, the style and quality of the apparatus do not approach the standard of that which is obtainable from the better class firms at home.

After Mr. Tressler's visit of the 16th—20th March, here, which by the way resulted in one direction in showing how extremely suspicious the people are (for the rumour got abroad that the visitors were trying to "steal" the Madura Dyeing Processes for the benefit of European firms), I had a note of the visit inserted in the local paper and called a meeting of the dyers, and others interested, to discuss the question of developments and to obtain a representative committee through which, and with which, it would be easy for me to work.

Unfortunately the convener chose a day which clashed with a local festival, and the attendance was so

4
meagre that it was decided to postpone the meeting to a
more convenient date.

I have made arrangements to convert three small
rooms in a shed behind the Institute into a dyehouse and
store rooms, and expect sl to be ready to make a few pre-
liminary dyeing trials during the present week.

I have the honour to be,

Sir,

Your most obedient servant,

Fred Marden

Tinctorial, Expert.

Note The report is for march alone
- the last month of ~~the~~ ^{the} first quarter.
Only quarterly reports were called
for in fo. 112. Ed. of 9.2.12. The next
report will apparently be for the quarter.
Except ordering for stones, nothing
of importance seems to have
been done in march.
