Dated 14th April 1912

Sir,

In Continuation of my letter dated 16-2-1912
I beg to state that after further enquiries I find that
Engineering, both Electrical & Mechanical, will be of
great help in starting or managing a works
in which Chemistry in some form or other plays
an important part. As some hours in the Engineering
Course are usually set apart for elementary Chemistry I
shall be able to devote those hours for the work
I have detailed in my previous letter. So I have to
request that a Scholarship may be granted to me
for 2 years for the study of Engineering.

Yours most obediently
J. Sadasivam
