To—the Secretary to the Government of Madras, Educational Department.
Dated—Simla, the 11th May 1912.
Nos.—1044-1052.

In continuation of my letter No. 618-625, dated the 15th March 1912, and subsequent correspondence, I am directed to say that the date of the conference on the education of the domiciled community has been fixed to commence on Monday, the 22nd July, at 11 o'clock A.M. in Gorton Castle, Simla, and may extend to six days.

2. I am further to enclose a copy of a form and to ask that, with the permission of the Governor in Council, the form may be filled up and returned to this office at an early date. The information is sought for European schools of all kinds within the Presidency and will be useful for the members of the conference; but if the collection of any items of this information is likely to give trouble or to cause serious delay, I am to suggest that such items may, unless they appear to be of extreme importance, be omitted.

3. Finally, I am to request that representatives selected for the conference may be asked to forward to this office any contributions, which they desire to be laid before the committee, at an early date in order that such papers may be printed up and circulated.

NOTES CONNECTED WITH G.O. Nos. 547, 548, EDUCATIONAL,
DATED 20TH JUNE 1912.

[SUBJECT.—Regarding conference at Simla on the education of the domiciled community.]

From the Government of India, No. 1044—1054, dated 11th May 1912.

Submitted that the Government of India's letter may be forwarded to the Director of Public Instruction u.o. (i) for furnishing, if possible, the information required about European schools, and (ii) for forwarding to the Government of India any contributions which he may desire to lay before the committee. The Revd. Mr. Walsh, the non-official representative, is being separately asked to forward his papers direct to the Government of India.

C. RAMANUJACHARI—21-5-12.

L. DAVIDSON—21-5-12.

To the Director of Public Instruction.

I return this paper. Owing to a misunderstanding the information was submitted direct by the special officer, and a copy sent to me to-day.

I have no written contribution to lay before the committee.

A. G. BOURNE—7-6-12.

To the Educational Department.

The statistics of European schools furnished by the Director of Public Instruction are for the year 1910-11 and relate to schools as they stood on the 31st March 1911. The statistics for 1911-12 are not yet available. The figures have been checked with the aid of the subsidiary tables for European schools given in volume II of the Public Instruction Report for 1910-11, and the following points are noted:—

(1) *Number of pupils.*—The figures given by the Director of Public Instruction in the sub-column headed "Number of Indians included in the total" do not include the number of Native Christian pupils in the schools and are therefore incorrect. This

mistake has been rectified and the correct figures have been entered in red ink.

(2) *Income exclusive of boarding fees.*—The figures given by the Director of Public Instruction in the sub-column headed "total" under this head agree with those entered under "total expenditure" in column 10 of the subsidiary tables (b). In column 10 (g) of this statement is shown the balance of expenditure on the institution met by the management itself after deducting the income of the institution from the several sources, which are given in columns 10 (a) to 10 (f). This amount is included by the Director of Public Instruction in the sub-column headed "other sources" of income. It is doubtful whether for the purposes of the statement the "expenditure" met by the management should be treated as "income." If it is decided to let the

figures given by the Director of Public Instruction stand, a footnote may be added saying that the figures include the

excess expenditure met by the management.

(3) The Government of India require statistics regarding European schools "of all kinds"; while the Director of Public Instruction has given information only with reference to schools for general education. There are according to the Public Instruction Report for 1910-11 two special schools for Europeans—one industrial and the other music. It seems to be necessary to include these schools also in the statement. It is not possible to fill in the statement in the Secretariat with reference to these schools, as information regarding the number of pupils by sex, the qualification of teachers and the expenditure on staff is not available. The Director of Public Instruction may be asked to complete the statement in this respect.

SIR,

IN continuation of my letter no. 618-625, dated the 15th March 1912, and subsequent correspondence, I am directed to say that the date of the Conference on the education of the domiciled community has been fixed to commence on Monday, the 22nd July, at 11 o'clock A.M. in Gorton Castle, Simla, and may extend to six days.

EDUCATIONAL DEPARTMENT.

The statistics of European schools furnished by the Director of Public Instruction are for the year 1910-11 and relate to schools as they stood on the 31st March 1911. The statistics for 1911-12 are not yet available. The figures have been checked with the aid of the subsidiary tables for European schools given in volume II of the Public Instruction Report for 1910-11, and the following points are noted:—

(1) *Number of pupils.*—The figures given by the Director of Public Instruction in the sub-column headed "Number of Indians included in the total" do not include the number of Native Christian pupils in the schools and are therefore incorrect. This mistake has been rectified and the correct figures have been entered in red ink.

This amount is included by the Director of Public Instruction in the sub-column headed "other sources" of income. It is doubtful whether for the purposes of the statement the "expenditure" met by the management should be treated as "income."
