the Correspondent P. E. Z. M. Girls' Boarding
School - Dotacammund.

To
The Director of Public Instruction

Sir
With reference to the No. 5936 of Jan 18-12-11

office. I have the honor to request that sanction
be given for the carrying out of certain
deviations to the sanctioned plan estimate
for the class rooms & dormitories now under
construction at Dammere. Dotacammund for
the Church of England Geneva Mission.
The items of work affected are as follows:
a) Reduction of depth of foundations due to
the extreme hardness of the soil.
b) Reduction of depth of concrete for the same
reason as given above in (a)
c) The substitution of cast-iron columns for
timber (ventiah) posts, and R. Steel beams
for brassummers in the ground floor
verandah. This is considered most desirable
owing to the want of durability of ventiah

owing to the want of durability of ventiah

4/3
 15/11/1915
 15/11/1915

Further when exposed to the varying climatic conditions of the Nilgiris.

d) The substitution of gable for hipped ends at the north & west ends of roofs of wings of the building. By doing this greater air space is provided to the dormitories concerned and the general appearance of the whole building is greatly improved. For the same reason the verandah ends instead of being closed up as per plan are advised by the health officer to be left open with enforced concrete arches to support the verandah roof instead of masonry end walls.

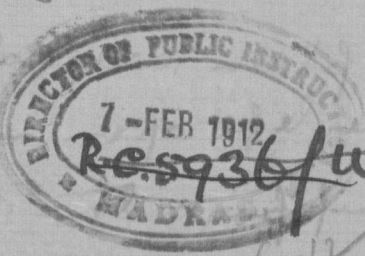

It is considered that the deviation referred to will not cause an excess of expenditure over the sanctioned amount of estimate & the engineers who are assisting me agree that these deviations are all to the advantage of the building.

I have the honor
 to be Sir
 Your obedient servant
 C. F. Ling.

Thro' the Executive Engineer Public Works Dept.
 Coimbatore

Class 16234 n/b (with 12/6-12 plans)

P.W.U.O. R No. 1367 Dated 13-6-12

Deputy Secretary

The proposals have been scrutinised. The following are the deviations from the sanctioned plans now proposed to be made: -

- (a) Reduction in the foundations
- (b) Substitution of cast iron columns for vertical verandah posts and Rolled Steel Brackets for timber in verandah
- (c) Substitution of "gabled" ends for hipped ends to roof of wings of main building
- (d) Leaving the verandah ends open and using "enforced concrete arches" instead of masonry ends.

(a). The deviations in the foundations may

may be accepted as the ^{proposed deviation} ~~proposed~~ on - ginally passed through the Exec. Engr. Coimbatore on.

(b) There is no objection to this, provided the Cast iron columns are made not less than 4 1/2" external diameter with metal 1" thick and the Rolled Steel beams ^(or brass runners) are made 12" x 5" x 32 lbs. If the metal in the columns is 3/4" thick, the external diameter should be not less than 5 inches.

(c) There is no objection

(d) This proposal is not clearly understood, but there is no objection to leaving Verandah end open. ² With the above remarks, the file may be returned to the Educational Deptt.
