R.C.No.257-D.B., dated 19th May 1912.

Endorsement of the Director of Public Instruction, Madras,
Ref.on Cur.No.3568, dated 7th June 1912.

ORDER:

The Government are pleased to sanction the retention
for another year, of the fifth form and the establish-
ments sanctioned in G.O.No.133 L., dated 1st February
1911, and No.1177 L., dated 7th September 1911 in the
secondary school at Kulittalai,

PP

2. With advertance to the remarks of the Director of Public Instruction in his endorsement No. 3668, dated 7th June 1912, the Government are further pleased to sanction tentatively for one year the proposals of the Taluk Board of Karur regarding the school which involve

- (a) the opening of a sixth form,
- (b) the employment of a headmaster on ₹60 per mensem,
- (c) the enhancement of the scale of pay of the last four assistant masters, and
- (d) the entertainment of an additional peon on ₹4 per mensem.

This sanction will remain in force until the 31st March 1913. The question of making the arrangements permanent should form the subject of a report to be submitted to Government not later than the 1st February 1913.

3. Separate orders will issue in the Educational Department regarding the request of the Taluk Board for a Provincial subsidy towards the construction of the school building.

(True Extract)

W. M. S. S. S.
Under Secretary to Government.

To the President, Taluk Board, Karur,
through the President, District Board, Trichinopoly.

Copy to the President, District Board, Trichinopoly.

" Director of Public Instruction.

" Educational Department. *(with notes)*

In submitting herewith an estimate for Rs.18,000 for constructing a school building for the secondary school at Kulitalai together with the plan, for favour of sanction under Article 459 of the Local Fund Code, 2nd edition, I have the honour to state that the present building is quite insufficient even for an incomplete secondary school and hence a monthly rent of Rs.14 is being paid for two buildings exclusive of the one belonging to the Board. It is therefore proposed to construct a building at a cost of Rs.18,000 as the present incomplete secondary school is also likely to be raised to the -- status of a complete secondary school in the course of three years, the fourth form having since been opened.

2. The site originally proposed was ~~xxx~~ abandoned and a new site has been selected. This site has also been approved by the District Medical and Sanitary Officer, Trichinopoly. I submit a copy of his opinion in the matter. Necessary steps are being taken for acquiring the land which costs the Board Rs.1,293-12-0.

3. An amount of Rs.4,000 has been provided in the expenditure side in the budget estimate for 1910-11, and it is proposed to allot a recurring grant of Rs.4,000 in each year; and credit has also been taken in the receipt side in the budget estimate for 1910-11 towards the 1/3 rd cost from the Provincial funds under the Grant-in-Aid Code.

4. I therefore beg to request that the sanction of Government may be kindly obtained for the estimate and for the grant of the contribution.

5. A copy of the resolution of the Board is submitted herewith.

2 4 5
Copy of letter from the Director of Public Instruction, Madras,
Ref. on Cur. 8404/10, dated 20th March 1911:--

With reference to the endorsement of the President, District Board, Trichinopoly, E.C.1186 of 10, dated 23rd December 1910, submitting plans and estimates for the construction of a school building for the Board secondary school, Kulitalai, I have the honour to submit herewith the enclosed copy of a letter from the Inspector of Schools, 6th Circle, No.375 Tr. of 11, dated 26th February 1911, together with the plans referred to therein and to suggest that before final orders are passed the Taluk Board, Musiri, be invited to reconsider their proposal in the light of the remarks offered by the Inspector. Unless the cost is considered excessive, the best thing would seem to me to be to adopt for this school the type design for high schools approved of in

Cost varies from Rs. 47,740 to Rs. 74,610 according to locality
- 1.3 of the G.O. - K -
K. G.O.No.1197 W., dated 4th November 1908, a copy of which has been communicated to each Inspector.

2. As regards the Provincial grant applied for by the Taluk Board, Musiri, I beg to invite the attention of Government to the remarks made in paragraph 2 of my endorsement R.C.No.1305/3 of 10, dated 20th January 1911.

(not in the file)

5
Copy of letter from the Inspector of Schools, Sixth Circle, to the Director of Public Instruction, Madras, No.375 Tr. of 1911, dated 26th February 1911:--

I have the honour to return herewith the file sent with your N.Ref.on Cur.No.8404/10, dated 3rd February 1911 for remarks.

I understand that the intention of the Taluk Board is to accommodate only part of the school in the new building, the one of the buildings at present used for the school still continuing to be used. Even if this is the case the two buildings taken together will be inadequate. A fifth form is to be opened this year and I suppose that means the opening of a sixth next year.

Now in the old building (that is to say the building which is the property of the Taluk Board - not the rented building) there is accommodation for seven classes and certainly not more-in the new there will be accommodation for six classes. This takes no account of office, common room and library.

I am of opinion that if this school is turned into a high school (which is in itself very desirable) there must be as many as 22 rooms. Judging from the present strength I calculate that 5 classes will have to be divided. This will necessitate 16 class rooms. Besides this it is absolutely necessary that there should be 3 rooms for science, a library room, a common room and an office room or headmaster's room. Besides this there should be a large hall divided by a screen for drawing and practical mathematics.

This makes 22 rooms and a hall. I conceive that this is the minimum.

xxx I would therefore suggest that the whole question be referred back to the Taluk Board for fresh consideration. I really do not think it is any good to take two bites at a cherry. It is necessary to look forward and see

what is absolutely needful.

If the question is referred back to the Taluk Board, I would suggest that a separate building be provided for science, whether science is taken as a special subject for the School Final or only under Group B. There must be adequate provision and accommodation. Indeed I am of opinion that for the subject under Group B, it is even more important than under C. Practical work by the boys themselves is absolutely necessary.

I would suggest rooms on one of the two plans submitted herewith (Appendix A and B) (rough plans) A for choice.

I make these suggestions because I am of the firm opinion that these are the rooms to be built first.- second in importance come the Hall, headmaster's room and common room, and lastly the ordinary class rooms.

If you do not think fit to refer the question back to the Taluk Board or if the Taluk Board is unable to do more than it has already proposed, I would suggest certain modifications in the present plans:-

1. The building might be turned round so as to present the open face of the square to the street. Otherwise the hall will be used as a passage.
2. The windows in the hall should be 6 feet above floor level. This will allow of the walls being prepared for drawing work. Indeed it would be a very good thing to have all the windows in all the rooms at this level.
3. I see no necessity for "Venetian" doors and shutters. They are costly, useless and insecure. I suggest plain doors and plain shutters.

I beg again to repeat my opinion that the whole question requires reconsideration. A high school cannot be run cheaply and well and I am sure that the Taluk Board will be saving themselves trouble in the future if they can make a big step in the present.

35
Copy of letter from the President of the Trichinopoly District Board, Dis.No.864/D.B. of 1911 dated 16th August 1911.

With reference to Government Memorandum No.1216-1 L., dated dated 11th April 1911 referring to the District Board for consideration and report the remarks of the Director of Public -- Instruction and of the Inspector of Schools, VI Circle, regarding the construction of a building for the incomplete secondary school at Kulitalai I have the honour to report that the District Board Engineer has prepared an estimate for ~~xxx~~ Rs.41,000 which provides for all the requirements of the school as detailed by the Inspector of Schools.

2. The Taluk Board of Karur has approved the estimate ~~xxx~~ but its finances do not admit of any capital outlay on buildings. It therefore requests that the District Board and Government will bear practically the entire cost of the building. The District Board is at present unable to say what help it can afford to the Taluk Board in the matter and it has therefore postponed the consideration of the subject till the next budget. I enclose a copy of its resolution.

3. The two sketches received from Government are returned herewith.

I have the honour to submit the report called for in G.O.,
Mis. No.133 L., dated 1st February 1911 and G.O., No.380 L.Mis., dated
6th March 1912 concerning the propriety of making the present ar-
rangements sanctioned for the Board Secondary school, Kulitalai,
permanent.

x x x x x

7. The Inspector of Schools, VI Circle, Tanjore, in his
endorsement ~~quoted~~ quoted in paragraph 2 supra points to two dif-
ficulties which the school labours under, viz., (1) want of suitable
accommodation (2) want of sufficient science apparatus and says
that unless these two difficulties are surmounted he cannot see his
way to recommending the continuance of the school as a high school.
He is of opinion that Science apparatus to the extent of Rs.1,500
or Rs.2,000 will be necessary to make the teaching efficient. Due
provision has been made in the budget for the purchase of a large
stock of science apparatus this year. As regards a suitable ~~school~~
building to accommodate all the classes of the school, plans and estimates for Rs.41,000 have been drawn up. The
Taluk Board with its very limited resources is not able to provide
for such a large capital outlay. ~~The~~ The District Board has not
been able to provide more than Rs.5,000 in the Budget for 1912-13
towards this object. The Inspector has stated it as his opinion
that the people who are benefited by the school should contribute
a portion of this capital expenditure, say ~~either~~ ⁸ to ten thousand
rupees. The President, District Board, in communicating G.O.,
No.380 L.Mis., dated 6th March 1912 to me intimated to the Taluk
Board that he would not be prepared to recommend its application
unless it was backed by the offer of subscriptions to the amount of
Rs.15,000 from the people. I thereupon made an appeal to the
leading mirasidars of both Kulitalai and Musiri taluks with results
which are most gratifying to the Taluk Board and which will show
to the District Board and Government how sensible the mirasidars
are

9A / 10

are of the advantages of secondary education and how willing and ready they are to help themselves in ^{its} ~~this~~ cause. The donations promised up to date amount to Rs.9,750. Other leading mirasidars have been approached and have promised to subscribe liberally but as their communications have not ^{yet} reached me I have refrained from taking credit for them. But I am sanguine that the expectations of the President, District Board, will be amply realised. The people have thus evinced their practical sympathy with the movement and their strong and earnest desire to have a high school at Kulitalai deserved fulfilment.

x x x x x

10. I have the honour to request that the Government will be pleased to accept this report and view the application of the Taluk Board to make the present arrangements permanent and to open a VI Form next June favourably and that having regard to the large -- measure of help which the locality is rendering it itself in the matter of the capital expenditure required to establish a high -- school on a permanent basis, Government will be pleased to subsidize the Taluk Board in the course of the next two or three years with the funds necessary for the construction of the new building.

x x x x

Copy of endorsement of the President, District Board,
Trichinopoly, R.C.No.257-D.B., dated 25th April 1912:--

Submitted to the Secretary to Government, Local and
Municipal Department, through the Director of Public
Instruction, Madras.

2. The District Board is in favour of the proposal
to open a sixth form and to convert the school into a
complete secondary school. A copy of its resolution
dated 15th April 1912 is enclosed.

3. As regards accommodation a suitable building will
soon be provided. About ₹15,000 will be raised by pri-
vate subscriptions. The District Board has provided
₹5,000 in the current year's budget and it may allot a
similar sum in the next budget. A Provincial subsidy not
exceeding one-third of the cost of the building is expected.
I am sending the estimate to the Superintending Engineer
for scrutiny.

4. I strongly recommend the proposal for sanction.

15,000
6,000
₹ 41,000 — 25,000
= ₹ 16,000

Copy of endorsement of the Director of Public Instruction,
Madras, N.Ref.on Cur.No.3668, dated 7th June 1912:--

Submitted to Government and recommended that the Board's proposals for the opening of a sixth form with a headmaster on Rs.80, for the raising of the scale of pay of the last four assistants and for the appointment of a second peon on Rs.4 per mensem be sanctioned tentatively for a year by which time the questions relative to the supply of the requisite science apparatus and the provision of the additional accommodation required will, it is hoped, have been settled.

2. The Provincial contribution applied for towards the cost of the building amounting to Rs.41,000/- may, I think, be granted by instalments in the special circumstances of the case.

3. It seems doubtful whether even the revised scale of salaries proposed for the staff is adequate for a complete secondary school.

4. I have, in anticipation of sanction to the employment of an additional teacher, authorized the opening of a sixth form in the school in view of the urgency of the case.

Local and Municipal Department
Through the Director of Public Instruction, Madras.

Sd,

I have the honour to report that in para 7 of

the Karur Taluk Board President's letter to Government R.C. 929 of 11
dated 15-4-12 it was stated that subscriptions promised up to that
date for constructing a building for the Secondary school at Kulitalai

amounted to Rs. 9,250 and that other leading Mirasdars were being approached.
The Taluk Board President Mr. Narayana Aiyar I. C. S., who has taken
a keen interest in the matter, now reports that further subscriptions
amounting to Rs. 4,000 have come forward and that the total subscriptions
promised

9250

NOTE FILE.

Extract from the notes connected with G.O.No. 988 L.Mis.
dated 9th July 1912.

Subject. Plans and estimates for the construction
of a building for the secondary school
at Kulitalai, Trichinopoly district.

x x x

4. As regards the construction of a building for the school and the source from which the expenditure on that account has to be met it has been reported that an estimate for Rs 41,000 has been prepared by the District Board Engineer with reference to the remarks of the Director of Public Instruction and the Inspector of Schools and is under transmission to the Superintending Engineer. But in regard to funds the Taluk Board President says that the Board with its very limited resources is not able to provide for such a large capital outlay and requests the District Board and the Government to contribute the necessary funds. The District Board has provided a sum of Rs 5,000 for the purpose in the current year's budget and the President reports that it may allot a similar sum next year. The Director of Public Instruction says that the provincial contribution applied for towards the cost of the building viz. Rs 41,000 may be granted by instalments in the special circumstances of the case. As this is a matter for the Educational Department to deal with, submitted that that Department may be consulted ~~xxx~~ u.o. before orders issue.
