I have the honour to state under G.O., No. 164/Educational of 1887, dated 29th March 1887 and letter from the President, District Board, North Arcot to the Director of Public Instruction, No. 137, dated 1st March 1887 (a copy of which is enclosed, the management of the High School at Chittoor was transferred to the District Board, North Arcot, on condition that the Government should bear the net cost of the high and middle departments. I find that the statement of net cost furnished annually for the adjustment of the Government contribution does not include amounts spent by the Board from time to time on the repair, improvement and extension of the buildings and premises in which the school is located. This is presumably due to the fact

fact that the cost of such works is debited in the District Board's accounts to "PUBLIC WORKS." I have the honour to enquire whether under the terms on which the school was handed over to the District Board, the Government should not bear the cost of such items of expenditure except in so far as the primary school attached to the high school is concerned. The Primary school is in a separate building in another part of the town.

2. The question is of importance to the Board now, as the Inspector of Schools has recommended certain extensions ^{the} of buildings and premises for which the Board cannot find funds.

charge of the District Board. The terms on which the transfer of the building was effected were not specified either in that G.O. or separately. The Board has been hitherto meeting the cost of repairs to the buildings from its own funds. The D.P.I. observes that the Board should be expected to do so according to the usual conditions governing such cases. When Government buildings are transferred to ^{local or} private bodies for a particular use, the condition is almost invariably imposed that they should be maintained in good repair. Please compare the G.O.s. quoted in the margin. It does not also appear that the cost of repairs to buildings is included in the nett cost of ^{educational} institutions ^(under local bodies) where it is borne by Government. The ~~practice~~ practice hitherto followed by the North Arcot District Board of debiting the cost of repairs of the buildings to its own funds, and not recover it from Government as portion of the nett cost, is therefore right and the President may be informed accordingly.

2. As regards the cost of substantial improvements and additions to the buildings, the question seems different. The D.P.I. observes that it may be met from Provincial funds. In similar cases in which Government institutions have been transferred to local bodies, the nett cost being borne by Government, it has been held that the building belongs to Government and that they are only lent to the local bodies. Please compare the H.M.'s note, dated 6th May 1909 on page 3 of the notes with G.O. No. 891 W.,

dated 13th July 1911, and the D.P.I.'s endorsement dated 5th March 1909 on page 3 of the G.O. In cases of large improvements or additions to such buildings (e.g. the Kumool and Cuddapah municipal high school buildings) the cost was borne from Provincial funds. An additional reason why a similar course should be followed in the case of the Chittoor high school is that it is one of the institutions proposed to be taken over by Government as a model high school. If the North Arcot District Board had in the past met such expenditure from its own funds, it would have been due to the absence of application for Provincial subsidy for the purpose. The President may, it is submitted, be informed

that the question of defraying the cost of such improvements or portion of it from Provincial funds will be considered on applications made to Government when necessity therefor arises.

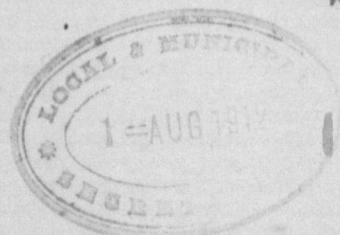

3. A draft order on these lines is submitted for approval. If approved it may be forwarded to the L. & M. and Financial Departments u.o. for acceptance.

This case relates to the question of the incidence of the charges on account of repairs to the buildings occupied by the Board High School at Chittoor which was transferred by Government to the Dt. Para. 7 Ed. Dept. note app 1-2 ante.

2. Repairs: In the Ed. Dept. notes ante the School buildings are referred to as transferred to the charge of the Dt. Board. From the Ex. Engineer's letter on p. 8 of C.F. it will however, be seen that the buildings are still borne on the P.W. Dept. registers. Hitherto the cost of repairs has been borne by the Local funds and this has not been taken into account in calculating the annual net charge payable by Govt. It is now proposed to inform the Dt. Board that they should continue to bear these charges. This course which is in accordance with the procedure followed in respect of other similar Govt buildings occupied by Local boards may, it is submitted, be accepted.

3. Additions and Improvements: This institution is one of those to be taken over by Govt when the Model Schools Scheme is sanctioned; and in such cases Govt have borne the cost of ^{large} improvements. The cost in the

In view of the fact that the buildings have been and will be maintained by local funds, it is for orders whether they may not be removed from the P.W. dept registers and whether the Dt. Board may not be informed that the buildings will be transferred to the Dt. Board subject to the usual conditions ~~of~~ liability of the Dt. Board for maintenance, the right of Govt to resume the building when required etc. This will be in accordance with ^{precedents} Subject to orders on this point the draft may, it is submitted, be accepted.

There seems to be no order of Govt transferring these buildings to the Dt. Bd., so that apparently the Dt. Bd. is merely a tenant at will of Govt & can be ousted at a month's notice. It is, however, not unreasonable that the tenant should pay ^{the} for upkeep of the building wh. it occupies free of rent & we may accept the draft.
