Local and Municipal Department.

Sir, (Through The Director of Public Instruction,
Madras)

Sir,

With reference to G.O. No 199-M. No. 210, dated
2.2.12, I have the honor to submit herewith
an estimate for Rs 4,000 together with a spe-
cification report & a plan for the extension
of Municipal High School buildings & to
request that the Government may be pleased
to sanction the grant from Provincial Funds.

2. The estimate and plan have been -
revised with reference to the oral instructions
received from Mr. Hodges, the then Inspector
of Schools, of the Circle at the time of his recent
inspection of the High School.

Application for a grant of Rs 4000 from Provincial funds for the extension of the Municipal High School building, Sindgal

(Y)

Please see J.O. No 199 on d/ 21st Feb 1912 & the notes connected with it. In the order the Municipal Council was informed that its application for a grant of Rs 4000 from Provincial funds for the extension of the Municipal High School building could be considered only after the plans & estimates had been prepared & the approval of the Director obtained thereto.

The Chairman now submits the necessary plan & estimates amounting to Rs 4,000. ~~which has been approved by the~~ Director. The Director says that the proposed extension seems necessary.

new works + plague measures. But the budget for the current year is expected to close with ^{only} a balance of Rs 4,730 or 8.5 per cent of the ordinary receipts. As in these circumstances the Council cannot afford to meet the cost of the proposed extension (Rs 4000) from its funds, it is for consideration whether ~~within~~ the amount may be sanctioned from Provincial funds. As the funds for school building have to come from the Educational budget, that department may be consulted in the first instance whether it can spare the amount in the current year.

KKM

It is submitted that the plan and estimates do not appear to have been ~~submitted~~ submitted to the Superintending Engineer, Public Works Circle, and sanctioned by him as required in article 302 of the Municipal Account Code. The estimated cost may perhaps be materially affected by the technical scrutiny of the Sup. Engineer. It is therefore for consideration whether the Council may first be asked to obtain his approval and then renew its application for a Provincial grant.

he ought at (V) to have told the Council to obtain the S.E.'s approval as well as the D.P.I.'s. I do not think it desirable to send back the case now on that account. If P.W.D. sld. kindly advise whether the estimate is approximately correct, we might act on it for the present & in the future send order, say, "Subject to approval by the S.E. as required by Art. 302 of the Madras Act Code".

The estimate has been checked by C.A. who reports the rates provided agree very nearly with the P.W.D. schedule of 1911 which does not allow for cartage. He concludes by noting that "the estimate may be taken as approximately correct".

management. The application of the C.M.C, Dindigul, for a grant of Rs 4,000 towards the cost of extending the local Municipal High School cannot therefore be dealt with under the rules of the grant-in-aid Code.

Any amount that may be given to the Municipality should ~~therefore~~ be given as a subsidy. It is for consideration whether the D.P.I may be requested to consider the claims of this Municipality in submitting proposals for the distribution of subsidies to Municipalities for the next year. For L.M.

1. The grant of Rs.4,000 to the Dindigul Municipality on account of the proposed extensions to the Municipal High School buildings is applied for on the ground of ~~impecuniosity~~ of the Municipality and is recommended by the Director of Public Instruction and Educational Dept., to be payable in two equal instalments in 1912-1913 and 1913-1914.

2. The High School building formerly belonged to Government and was transferred to the Municipality in 1890 on the conditions - ~~that the building~~

(i) ~~that the building~~ is kept in repair by the Municipality and

(ii) that it is ~~xxx~~ retransferred to Government if the school ceases to exist or if the premises are required by Government.

The terms of the transfer do not, therefore, give ~~to the Municipality~~ a claim ~~for the~~ grant. In the past the Municipality has borne itself the cost of extensions amounting to about Rs.7,700.

3. It has been also the general principle of Government in transferring Government buildings in similar cases that the transferees should bear all cost of extensions to the buildings without any claim for reimbursement of the outlay incurred by them in the event of Government resuming the buildings. Please see the following instances:-

(1) G.O.No.314, Educational, dated 24-4-1895.

(2) G.O.No.2562-W, dated 16-9-1897

(3) Government school buildings at Dharmapuri, Hosur, Sholinghur, Chittoor, Mypad, Pattukottai.

In the case of the Municipal High School at Kurnool which is Government building lent to the Municipality, Government have, however, recently decided to bear the whole cost of extension (Rs.20,800) in view of the fact that the school is

is shortly to be taken over by Government under the model schools scheme—a consideration which does not apply in the present case.

4. As regards the ground of inpecunious condition of the Dindigul Municipality on which the grant of Rs.4,000 is applied for, the average annual surplus of ordinary receipts over ordinary expenditure for the three years ending with 1910-1911 was Rs.8,567 and the Municipality is expected to close the year 1912-1913 with a balance of Rs.4,730. It seems that even on the ~~score~~ of poor finances the Municipality is not entitled to the grant of Rs.4000. Perhaps, as a special case, a moiety (Rs.2,000) may be given as a Provincial grant, the other moiety being met from the Municipal funds.

The question of making a grant to the Dindigul municipality is based only on the financial position of the municipality. For this purpose, it does not seem to be advisable to take into consideration the annual surplus of previous years. The funds at the disposal of the municipality at present seem to be the ~~main~~ ^{only} criterion in deciding the question. There seems to be no doubt that the work proposed is "absolutely necessary". In making the original application in January last, the Chairman stated that it was found very difficult to make even a small provision for this work in the budget estimate for 1912-13. The budget closes with a balance of ₹4,730, representing 8.5 per cent. of the estimated ordinary receipts under general funds. From para.1(3) of G.O.No.194 M., dated 2nd February 1912, it will be observed that even this balance was arrived at by cutting out ~~the~~ provision for several new works amounting in the aggregate to ₹2,400. At its special request, the Council has been permitted in para.2 of G.O.No.339 M., dated 26th February 1912 to restore the whole or any portion of the provision for the new works struck out, if it was found possible in the course of the year to effect any savings in the allotment for plague charges. The closing balance for 1912-13 as revised with reference to the actual opening balance amounts to ₹5,861 or 10.6 per cent. of the estimated receipts. If the Council is to divert any portion of this balance towards the extension of the municipal
