NOTES CONNECTED WITH G.O. No. 857, EDUCATIONAL, DATED
26TH SEPTEMBER 1912.

[SUBJECT.—*Statement of educational expenditure.*]

In connection with the telegram from the Government of India calling for proposals for the distribution of the balance of the Imperial grant of 4.25 lakhs for popular education, His Excellency observed as follows :—

“I think it would be an advantage if we could lay on the table at the next meeting of Council a statement showing clearly the amounts we have sanctioned up to date to be carried out from the budget for education, showing as clearly as possible the ordinary expenditure on establishments, grants, etc., and then the additional expenditure which we have sanctioned this year.

“I want the Honourable Members to see clearly that we have fulfilled our promise to make all progress possible in the matter of elementary and female education and to show also that secondary schools and colleges have not been neglected.

“Of course we have communicated almost all our different schemes to the Press, but piecemeal, and people have not seen clearly what we are doing. A complete statement would show them. Can such a statement be prepared and printed?”

2. A statement showing the progress made in the appropriation of special allotments made in the Civil Budget Estimate for 1912-13 under 22. Education and Imperial grants for education sanctioned by the Government of India is submitted below in proof. It is, however, respectfully submitted that it is not possible to include in the statement the amounts sanctioned up to date from the allotments for the ordinary expenditure on establishments, grants, etc., as ordered by His Excellency. No information is available in the office to trace the expenditure from the usual allotments. Except in special cases the sanction of Government is neither required nor solicited for meeting ordinary expenditure. The statement therefore confines itself to the special allotments made in the budget over and above the ordinary expenditure.

3. The allotments under the following heads have not been included in the statements :—

- (i) The provision for dyeing expert.
- (ii) The allotment for the establishment of a leather expert.
- (iii) Imperial grants for the University.

The former two come under the category of ordinary expenditure though appreciable allotments have been made for that purpose for the first time in the budget. The grant for the University has been omitted, as the Government of India have since directed that the grants may be made over to the University to be invested, if necessary.

4. Most of the allotments made by Government have been included in the budget on the recommendation of the Finance Committee. But as the deliberations of the Committee are confidential, the information on this point with reference to the allotments has not been noted in the statement. The provision for the establishment of Government model schools has been included in the statement as special grants to colleges for equipment and subsidies to local bodies for the purchase of gardening tools for their schools have been met from this source.

5. A spare copy of the statement may be forwarded to the Director of Public Instruction for any remarks which he may desire to make. Another copy may be sent to the Financial Department for acceptance.

EDUCATIONAL DEPARTMENT.

The statement showing the progress made in the appropriation of special allotments made in the Civil Budget Estimate for 1912-13 under 22. Education and Imperial grants for education, which has been prepared under the orders of His Excellency to be placed on the Legislative Council table at its meeting, dated 27th September 1912, may, it is submitted, be forwarded to the Director of Public Instruction for any remarks which he may wish to offer.

C. RAMANUJACHARI—22-9-12.

L. DAVIDSON—23-9-12.

To the Director of Public Instruction.

OFFICE OF THE DIRECTOR OF PUBLIC INSTRUCTION.

Please see the marginal notes on the proof.

Item 2.—It would be convenient to both Mr. Stone and me if the public knew how the work was divided, hence the addition proposed.

Item 16 (iv).—Change proposed to make it clear that the attempt is to do something for teachers in aided schools as well as in those under public management.

His Excellency might perhaps wish specially to refer to this.

L. DAVIDSON—24-9-12.

many municipalities are at present disappointed.

It seems desirable to add—as I have proposed—something to indicate that the entire amount can be spent—particularly so to refer to municipal buildings as so

A. G. BOURNE—24-9-12.

FINANCIAL DEPARTMENT.

The statement sent by the Educational Department may, it is submitted, be perused and returned with thanks. The figures in the statement have been checked and are generally found correct.

2. As regards the remarks bracketed in pencil in the last column on pages 2 and 3 of the statement which indicate the sources from which the allotments have been met, it may be suggested to the Educational Department that it would be expedient to omit them. It is true that, when reappropriations follow close upon resummptions, for convenience sake the diversion of the amounts in question directly is allowed: but the indication of the source from which a grant is met by reappropriation is opposed to the principle that all resummptions are pooled and go into one common reserve fund which is under the control of this department and from which allotments are made as they are found necessary.

A.S.—24-9-12.

The suggestion contained in the office-note may be put to Educational. It is quite possible that such remarks might ultimately prove inexpedient.

C. REILLY—24-9-12.

The heading of column 7 is "Probable amount involved in the current year." I think most readers will take this to mean "Probable expenditure within the current year". If this were the meaning, the statement would indicate a probable lapse of many lakhs, but I understand from the Educational Superintendent (whom I sent for in the unavoidable absence of Mr. Davidson, and with Mr. Davidson's permission) that

no such lapse is expected to occur. Column 7 is meant to show merely the probable outlay within the year under sanctions *already given*. It takes no account of possible further sanctions, and seems to be to this extent misleading. I would alter heading of column 7 as follows:—

"Probable expenditure within current year under sanctions shown in columns 5 and 6."

Then in remarks column I would add, as far as possible, information as to what expenditure is likely to be incurred within the year over and above what is entered in column 7.

2. Under items Nos. 10 and 11 credit is taken for the expenditure of Rs. 1,66,300 for the 8-lakh grant, but credit seems to be also taken for the same sum under item 16, and it is thus counted twice over. It should, I think, be omitted under items 10 and 11.

3. Under item 18 the *allotment* is not 4.50 lakhs but 2.25 lakhs—*vide* remark in remarks column. I would put 2.25 lakhs in column 4 and say in Remarks that the grant is 4.50 lakhs and that 2.25 will probably be spent in the year.

4. In item 17 the Superintendent tells me that Rs. 80,000 should appear in column 7 as well as in column 4 and has been omitted by oversight.

5. I don't think there is any objection to the remarks taken exception to in paragraph 2 of the Financial office-note.

A. G. CARDEW—25-9-12.

To the Educational Department.

EDUCATIONAL DEPARTMENT.

The alterations rendered necessary with reference to the Chief Secretary's note above have been carried out and a revised proof has been obtained. The latter was shown to the Chief Secretary who approved it after glancing through. The alterations and additional remarks introduced into the statement have been marked in blue pencil and indicated by letters A, B, C, D and E.

(The suggestions made by the Director of Public Instruction have already been embodied.)

2. The Chief Secretary suggested that the * *order* should clearly state † that the amounts shown in column 7 of the statement represent only probable expenditure covered by sanctions already accorded and that further expenditure is anticipated.

* Cf. note at the bottom of the statement.

† To avoid any impression on the part of additional members that there would be lapses.

Subject to approval paragraph 2 has been added.

C. RAMANUJACHARI—25-9-12.

I have made one or two additions and alterations and have telephoned to the Chief Secretary and the Director of Public Instruction. It may be taken that we all three approve the final form.

This ‡ should now go to His Excellency with the file and a series of the proofs numbered 1st, 2nd, 3rd, etc., in case His Excellency wishes to trace the evolution.

‡ When received revised from the Press.

L. DAVIDSON—26-9-12.

H. E. the Governor—

With request that the file may be brought to Council. Attention is invited to the Director of Public Instruction's u.o. note at page 2 *supra*. I am striking off copies of the statement this afternoon.

L. DAVIDSON—26-9-12.

Seen; please return to office.
