R. C. No. 6895/1912

Station Madras , Dated the 29th August 1912.

From (Name) The Hon'ble Mr. A.G. Bourne, D.Sc., F.R.S., C.I.E.

(Designation) Director of Public Instruction,

M a d r a s.

To the Secretary to the Government of Madras,
Educational Department.

DR

No.12.

Masulipatan,

14th August 1912.

From

Miss D. M. Barker,

Manager,

C. M. S. Sharkey Memorial

Girls' Boarding and High School,

M a s u l i p a t a m

To

The Inspectress of Girls' Schools,

Northern Circle.

Madam,

In forwarding herewith the site plan of the C. M. S. Sharkey Memorial Girls' Boarding and High School, buildings, I have the honour to state that I wish to make certain changes in the position both of the new school building and that of the extension to the dormitory. These buildings have already been sanctioned in the Proceedings of the Director of Public Instruction, Dis. No.342 of 12., dated 16th January 1912 and a grant has ~~been~~ also been promised for their erection on condition that the work is finished before the end of March 1913.

2. After due consideration I have come to the conclusion that the proposed changes are beneficial from a sanitary as well as from an educational point of view. My reasons for making the said alterations in the site of the buildings are as follows;---

1. For at least six months in a year the breeze is from the south, sometimes a little S. W. or S. E., but generally due south. According to the original plan this wind could only enter into one of the rooms.

ii. The sun will fall on the buildings all the morning and the afternoon on the long side.

iii. If the proposed new school room is far removed from the main building of the school it will, to a great extent, hinder effective supervision.

iv. Close proximity of class rooms, while giving compactness to the premises, will greatly facilitate the passing of classes from one class room to another in all kinds of weather.

Having considered all these points and having in view the requirements of the locality, I am inclined to believe that the alterations which are marked on the plan in pencil will be much more conducive to the requirements of the school than the original proposals of building a school far removed from the main building. The new school building will be in a line with, and about 10 feet from, the main building on the eastern side. The present cook room will be pulled down and erected somewhere else.

Standing in this position the new school house will answer all the points noted above and will get the largest amount of air possible and afford sufficient scope for effective supervision.

3. Even in the case of ^{the} dormitory ^{or} the new proposal of building a detached wing rather than an extension at right angles to the present dormitory will be of immense value from a sanitary point of view. There is already one room which is used by the resident governess between the breeze and the girls' dormitory. The original proposal of building at right angles to this would place still another room for the wind to come through before it reaches the main body of the dormitory. I, therefore, propose to make the extension a separate building

building at right angles to the present dormitory and about six feet from it on the eastern side as shown in the plan by a pencil sketch.

This would involve drawing up of a new plan and preparation of new estimates which I am willing to submit as soon as your permission approving the proposed changes is received.

I, would, therefore, request you to be good enough to forward the new proposal to the Director of Public Instruction and get his sanction at an early date so that I can begin the work in time to be able to finish the building before the 31st March 1913.

I have the honour to be,
Madam,
Your most obedient servant,

/Sd./ D. M. Barker,
M a n a g e r.

Ref. on Cur. No. 6895/1912 dated 19th August 1912.

Submitted to Government with reference to
T G.O., No.900 Educational, dated 20th December 1911 and recommended that the alteration proposed may be approved subject to the condition that no larger grant will be paid than has already been promised.

R. A. Anwar
for Director of Public Instruction.

U. O. R No. 1804
Dated 7-9-12

83358
9/9

T In your 900 G.O. 20-12-11 the Govt. Sanctioned a grant of Rs 3,946 towards the cost of providing additional accommodation for the C.M.S. Sharkey Memorial Girls' Boarding and High School, Maralipatan, in accordance with the plans approved by Govt. The original proposal was to extend the dormitory; but it is now decided to construct a separate building at right angles to the present dormitory and about 6 ft from it on the eastern side as shown in the plan (in pencil).

2. The P.W.D. may be requested to state whether the proposed alteration may be approved.

W. de Silva

P.W.D

DN

There is no prima facie objection to the Correspondent's proposal to construct a separate building instead of extending the dormitory as originally proposed. His proposal to demolish the kitchen in order to build the new School block

for

for Girls ^{on the site however,} seems extravagant as the kitchen is a large building comprising apparently some 2000 sq. feet and there is nothing to show that it is not — serviceable.

2 With the above remarks, the file may be returned to the Educational Dept.

Educational Department.

Please see the D.P.D.'s endorsement on page 4 of C.F. His recommendation may be accepted. The P.W.D. in its note above points out that the proposal to reconstruct the cook rooms is extravagant. This is a point for the school authorities to consider. As long as Govt. are not ^{asked} ~~prepared~~ to sanction any ~~additional~~ ^{for that object} grant they are not, it is submitted, concerned with that question.
