GOVERNMENT OF MADRAS.
EDUCATIONAL DEPARTMENT.

READ—the following papers :—

I

G.O. No. 749, Educational, dated 16h August 1912.

ABSTRACT.—Sanctioning a building grant not exceeding Rs. 2,610 to the Basel Mission incomplete secondary school, Hosdrug.

II

Letter—from the Manager, B.G.M. Secondary School, Hosdrug, S.C.
To—the Director of Public Instruction.
Dated—Kasaragod, the 2nd September 1912.
No.—503.

I have the honour to submit the following for kind consideration and orders.

In Proceedings of the Director of Public Instruction No. 5937/12, dated 28th August 1912, the Director has kindly sanctioned the amount of Rs. 2,610—on half of the estimate amounting to Rs. 5,220—for the new building at Kasaragod of the incomplete Secondary School, Hosdrug.

For this favour, we are extremely grateful. But regarding some remarks in the note of the Chief Engineer, Public Works Department, No. 781-D., dated 12th August 1912, I beg to leave to be permitted to ask for further consideration. After making some slight alterations in the roof-timbers and stating that “the amount of the estimate is not affected by these alterations”—the note contains the following additional suggestions :—

- (1) The least dimensions of walls 13' high should be 1' 2" and not 9".
- (2) It is recommended that flat tiles should be provided under the Mangalore roof tiles.
- (3) It is observed that no provision is made in the estimate for painting woodwork.
- (4) A layer of 4" concrete or sand should be laid under the flooring tiles.

These four items are not in the sanctioned estimate and give me now considerable trouble as I am bound to carry out the orders of the Chief Engineer. I have to find for—

No. 1 more	260
" 2 "	300
" 3 "	50
" 4 "	80
Total	690

or perhaps more.

I shall make every endeavour to find the money, but would beg, at the same time, whether the Chief Engineer, Public Works Department, would not be pleased to revise his order at least in respect of dimensions of the wall. We have constructed many strong and fine buildings, with walls 9". In these parts it is generally done like that and therefore it was put in this way into the estimate.

But if the Chief Engineer cannot permit this, I would beg to plead for at least 12" or one foot and not 14". It is almost impossible to get such stones here and I will have to pay heavy and more than the proportion of 3", even if I try to get 12" stones. Our strong and big bungalows with much higher walls have only 1' dimension walls.

I should be very grateful if these explanations would satisfy the Chief Engineer and if he could pass orders for 12" walls instead of 14", as the estimate provides only 9". I may add that the walls have strong pillars throughout $1\frac{1}{2}' \times 1\frac{1}{2}'$ as shown in the estimate.

I would beg not to consider this my request as unnecessary troubling the Department after having received such a favourable grant. I am really very much in trouble to find the money, but I shall face the situation.

I only ask for some help in my endeavour to carry out the instructions.

I shall be grateful for early orders as the work should be started now and stones should be cut.

Ref. on Cur. No. 7202/12, dated 9th September 1912.

Submitted to Government with reference to G.O. No. 749, Educational, dated 16th August 1912, and recommended that in the circumstances stated an additional grant of Rs. 345 may be sanctioned.

A. G. BOURNE,
Director of Public Instruction.

Order—No. 917, Educational, dated 14th October 1912.

The Government are unable to accept the proposal of the manager of the Basel Mission incomplete Secondary School, Hosdrug, to reduce the thickness of the walls of the new buildings to be constructed at Kasaragod or to modify the Chief Engineer's suggestion that 4" concrete or sand should be laid under the flooring tiles. The provision of flat tiles under Mangalore tiles and the painting of wood work will, however, not be insisted on.

2. In consideration of the additional expenditure which will be involved in carrying out the suggestions of the Chief Engineer, the maximum amount of grant sanctioned in G.O. No. 749, Educational, dated 16th August 1912, will be raised from Rs. 2,610 to Rs. 2,780.

(True Extract.)

L. DAVIDSON,
Ag. Secretary to Government.

EDUCATIONAL DEPARTMENT.

NOTES CONNECTED WITH G.O. No. 917, EDUCATIONAL,
DATED 14TH OCTOBER 1912.

[SUBJECT.—*Deviations in the estimate for the incomplete secondary school,
Hosdrug.*]

From the Director of Public Instruction, dated 9th September 1912, No. 7202.

The file may be forwarded to the Public Works Department in the first instance for remarks as to whether the deviations proposed by the school authorities may be accepted and if they may be accepted, what will be the total cost of the buildings approximately.

P.R.—16-9-12.

C. RAMANUJACHARI—21-9-12.

M. S. MASCARENHAS—23-9-12.

To the Public Works Department.

PUBLIC WORKS DEPARTMENT.

The pillars vary from 8' to 9' apart. The walls are 13' high to wall plate and the gabled wall in middle of the building runs up about 20 feet and has only one pillar. In view of the length of the walls without lateral support, the least thickness specified by the Chief Engineer, viz., 14 inches, should be adhered to. This does not render the pillars $\frac{1}{6} \times \frac{1}{6}$ unnecessary.

It is essential to lay concrete or sand under the flooring tiles.

2. These two alterations are estimated by the correspondent to cost Rs. 260 and Rs. 80 respectively. The figures may be accepted.

3. The other two suggestions of the Chief Engineer, viz., the provision of flat tiles under Mangalore tiles and painting need not be insisted on.

4. With the above remarks, the file may, it is submitted, be returned to the Educational department.

M.K.T—4-10-12.

W. G. MOLESWORTH—5-10-12.

To the Educational Department.

EDUCATIONAL DEPARTMENT.

A draft order is submitted for approval. The maximum amount of grant will have to be raised by Rs. 170, being one half of the additional expenditure involved in the two approved suggestions referred to in paragraph 2 of the Public Works note above.

INSTRUCTIONS FOR THE SECRETARIAT.

(a) If a paper is marked to be printed urgently, the Superintendent of the section concerned should sign the Press slip. The Superintendent should exercise a careful discretion in the matter.

(b) Each letter, memorandum, or order, or set of orders, in the file of correspondence should be headed in succession with the Roman numeral I, II, III, etc., the number being written in red ink or blue chalk above the item. The particular papers to be printed in the special issue-copies should be indicated by the Roman numeral (I, II, etc.) by which that item has been headed in the correspondence file. All matter, including marginal remarks or references, to be printed should be written in ink and matter which should not be printed should be encircled. Initials and signatures that are not quite legible should be re-written distinctly.

(b) For rules regarding printing of notes, see the rules in G.O., No. 1220, Public, dated 30th November 1900.

(c) The number of copies and the details of distribution should be filled in by the Superintendent or Referencer concerned.

(d) In the absence of special instructions to the Press to keep matter standing for a specified period, ordinary papers of 8 pages and under will be kept standing for one week, and larger papers for two weeks only. The type of notes and of all confidential papers is distributed immediately after striking.

(e) This slip, properly and completely filled in, should accompany every paper sent to Press; it will be returned by the Press when proofs are furnished; it should be sent to the Press when a call is made for revised proofs or when a corrected proof is sent for striking. When finally returned by Press it should be filed with the original order or letter.

INSTRUCTIONS FOR THE PRESS.

(a) If, in the opinion of the Superintendent of the Press, a paper has been marked urgent unnecessarily, he should send the Press slip to the Registrar with a remark to that effect.

(b) Unless a note to the contrary is made against the matter, pencil entries should not be printed. The Superintendent of the Press may bring to the notice of the Registrar any instance of incomplete or careless editing.

(c) Signature copies of letters to the Secretary of State or to the Government of India should be printed on hand-made paper.

(d) This slip should be returned by the Press to the Secretariat when proofs are furnished; it will be sent back to the Press when proofs are returned corrected and should be finally returned to the Secretariat when struck-off copies are supplied.

(e) The names of the Secretary and Members should be printed in full when they occur on the right hand side, but only the first time when they appear on the left side, the initials alone being printed later.

* Copies distributed on.....*(Press Clerk.)
