G.O. No. 141, Educational, dated 19th February 1912.

ABSTRACT.—Sanctioning a building grant not exceeding Rs. 15,180 towards the cost of the construction of an asylum for the St. Joseph's European boys' school, Bellary.

II

Letter—from the Hon'ble Mr. A. G. BOURNE, D.Sc., F.R.S., C.I.E., Director of Public Instruction.

To—the Secretary to Government, Educational Department.

Dated—Madras, the 14th August 1912.

No.—R.C. 7142 of 11.

In their Order No. 141, Educational, dated 19th February 1912, Government were pleased to sanction a grant not exceeding Rs. 15,180 towards the cost of construction of an asylum for the St. Joseph's European boys' school, Bellary. The correspondent of the school now requests sanction to change the site originally proposed for the reasons stated in his letter No. 188, dated 24th June 1912, which is submitted herewith with all its enclosures for reference and favour of return. I have the honour to recommend that the change proposed may be sanctioned as it is desirable on sanitary grounds and unobjectionable from the engineering point of view. The revised estimate submitted by the correspondent amounts to Rs. 26,750 against Rs. 22,770, the original estimate. He has applied for no increase of grant, and I do not recommend any especially as he will save the contractor's profit.

2. I beg also to submit the enclosed plans and estimates amounting to Rs. 9,000 for converting a portion of the existing buildings into staff quarters. The correspondent applied for a grant towards the cost of this work also last year when it was not recommended for financial reasons. The necessity for better provision for the accommodation of the staff is certified to in the enclosed certificates from the District Medical and Sanitary Officer and the Executive Engineer, Bellary Division, and I beg to recommend that under article 57 of the Code of Regulations for European schools a half grant not exceeding Rs. 4,500 may be sanctioned and paid when funds are available. If the grant is sanctioned, an advance equal to three-fourths of the total expenditure actually incurred may be paid before 31st March 1913 from the special allotment of one lakh available this year for buildings and equipment of European schools.

III

Note by the Chief Engineer, Public Works Department, No. 12141-C., dated 23rd December 1912.

The Director of Public Instruction submits through the Educational Department for sanction an estimate amounting to Rs. 9,000 and two plans for converting a portion of the buildings into staff quarters, St. Joseph's European boys' school, Bellary.

2. The plans and estimate have been scrutinized in the Chief Engineer's office and the following alterations have been made :—

(1) Substituting ordinary terraced floor with teak joists for ferro-concrete slab floor supported on rolled steel joists.

(2) Providing ferro-concrete or brick-nogged partition instead of a heavy masonry wall on the rear side of the office room.

(3) Increasing the slope of the Mangalore tiled roof of the verandah to about 30 degrees.

3. By these alterations the amount of the estimate has been increased from Rs. 9,000 to Rs. 9,200.

4. The Superintending Engineer should satisfy himself that the foundations provided are suitable and that the existing walls are strong enough to do the extra work required of them.

5. The rates for concrete, burnt stone in mortar, and archwork appear to be low and if Government propose to allot two-thirds of the actual cost of the work, it is recommended that these rates be reconsidered.

6. It is recommended that sand should be used instead of 4" concrete under stone slabs of floors.

7. With these remarks, the estimate as altered by the Chief Engineer amounting to Rs. 9,200 is recommended for sanction.

C. A. SMITH,
Chief Engineer, P.W.D.

IV

Note by the Chief Engineer, Public Works Department, No. 12141-C., dated 23rd December 1912.

1. The Director of Public Instruction submits through the Educational Department a revised estimate amounting to Rs. 26,750 for constructing an asylum for St. Joseph's European school, Bellary.

2. The amount of the original estimate as altered by the Chief Engineer and approved in G.O. No. 141, Educational, dated 19th February 1912, is Rs. 22,770. The excess amounting to Rs. 3,980 is due to increase in concrete foundations owing to the alteration of site originally approved of by Government and revising the rates for certain items according to the Chief Engineer's note embodied in the Government Order referred to above.

3. The Director of Public Instruction does not recommend any increase of grant in aid of the excess.

4. The Chief Engineer has no *prima facie* objection to the fresh site selected by the school authorities and recommended by the District Medical and Sanitary Officer and the Executive Engineer, Bellary Division.

C. A. SMITH,
Chief Engineer, P.W.D.

Order—No. 3, Educational, dated 3rd January 1913.

In the circumstances stated, the authorities of the St. Joseph's European boys' school, Bellary, will be permitted to adopt the alternative site now proposed for the school asylum. The revised estimate is approved.

2. Sanction is accorded to the payment, when funds are available, of an additional grant, not exceeding one-half of the actual expenditure not exceeding Rs. 4,600, towards the cost of converting a portion of the existing building into staff quarters,

subject to due compliance by the management with the suggestions of the Chief Engineer in his note read above and with all the conditions prescribed in the Code of Regulations for European schools. The Government also sanction the payment of an advance as proposed in paragraph 2 of the Director's letter read above.
