OFFICE NOTE.

With reference to paragraph 2 of G.O.No.864,Mis.
Educational, dated 30th September 1912 directing the
distribution at the Government Press of the fortnightly
issue of the Bulletin on Botany, the Superintendent,
Government Press, submits that the Director of Public
Instruction sent the work to Press to be printed with
a distribution list for despatching the copies from
the Government Press without first obtaining the
orders of Government. He was therefore informed that,
as the printing work was of an unusual character, the
sanction of Government for undertaking the same would
be necessary under G.O.No.1199,Public, dated 25th
November 1902, and was also especially made to under-
stand that the distribution could not be undertaken by
the Press for want of establishment. How the Director
represented the case to Government is not known, but,
as the order quoted above has been passed and communi-
cated without a reference to Press in respect of

establishment for the distribution work, it is presumed that the Director omitted to mention the difficulty of the Press regarding establishment for undertaking the distribution.

2. Soon after the issue of the order under reference, the Director having issued circular to the subordinate officers and institutions under his control, containing instructions regarding the distribution of free copies as well as of copies on payment of annual subscription, he has been requested to withdraw instructions pending further orders from Government on the subject.

3. The free distribution for the present as per list furnished by the Director consists of 350 copies for about 120 individuals made up of Government officers and Managers of Schools and Colleges, private add public and will increase gradually as in the case of the Madras Educational Rules, Grant-in-Aid Code and Inspection Code, the distribution of which similar to that of the Botanical Bulletin in question was ordered to be undertaken in G.O.No.324, Educational, dated 31st July 1900 without a reference to Press. These three publications originally consisted of only 500 copies each for 290 officers and institutions but the distribution of the same has now increased nearly 100% in copies and 136% in number of officers and institutions. Mr. Hill who was then Superintendent appears to have undertaken the work with a view to address Government later concerning establishment, but did not apply for establishment until he retired. As to the distribution of copies on payment, the number of subscribers and of copies required for them is not at present known. The Director in his circular on the subject has called upon the Inspectors of Schools and Inspectresses of Girls Schools to furnish a list of the names of the Secondary Schools that intend subscribing for the bulletin. The number of Secondary Schools in the Presidency according to the Public Instruction Report for 1910-1911 is 756 and considering the small subscription of one rupee per year a large number is likely to subscribe for the bulletin. Thus the number of officials and subscribers

the Press. It has been

for the bulletin will in all probability be not less than 700. Apart from the maintenance of distribution lists, noting changes of address, writing address labels and correspondence in this connection, etc., the work entails the collection of subscriptions and accounting thereof for audit and annual report. Such work as described throws more important and urgent work in arrears.

4. Mr. Fisher in paragraph 3 of his U.O. note dated 8th June 1911 on the subject of the distribution of Civil Service Regulations (G.O.No.502, Public, dated 24th April 1912) has already represented that "the number of publications distributed has increased so much that more work of this kind could not be undertaken without increased staff and that he would have asked for more establishment, had it not been for the question of revision of distribution lists of publications, then under discussion". The distribution lists of publications were submitted with office note No.7023, dated 12th April 1912, in compliance with the Public Department U.O. No.6799-5, dated 8th May 1911 and no orders have been received. The increase of 400% referred to by Mr. Fisher in the same paragraph includes several publications similar to the Madras Educational Rules and two others mentioned in paragraph 3 above outside the scope of G.O.No.791, Financial, dated 11th October 1895 which directed the transfer to the Press of the distribution of only such publications as had been at that time done by the Chief and Revenue Secretariats and sanctioned a limited establishment of one clerk and a packer. Hence it is submitted that prior to the departments of the Secretariat issuing orders directing the distribution at the Press of any publication, a reference to Press as to whether it is within the scope of G.O.No.791, Financial, dated 11th October 1895 is desirable and expedient.

5. The Police Gazette and the Registration Gazette (G.O.No.203, Judicial, dated 1st February 1911)

periodicals similar to the Botanical Bulletin issued by the departments concerned are printed and supplied to those departments and the distribution is arranged for by them. Similarly the Botanical Bulletin is a fortnightly issued for the use of the Educational Department only and the first six issues having been distributed by that department, the distribution may be continued to be done there. The Superintendent submits that the distribution of publications in the Government Press has become very heavy and the establishment is so inadequate that it is impossible to undertake extra work without additional staff. He therefore solicits that Government will be pleased to re-consider paragraph 2 of G.O.No.864,Mis., Educational, dated 30th September 1912 and issue instructions for the distribution of the Bulletin in the Director's office in the same manner as other departments do with their publications.

From (Name) The Hon'ble Sir Alfred Gibbs Bourne, D.Sc., F.R.S., K.C.I.E.,
(Designation) Director of Public Instruction,

To the Secretary to the Government of Madras,
Educational Department.

Sir,

With reference to Endorsement No. 3340-1, Educational, dated 3rd January 1913, I have the honour to report that the grounds of objection on the part of the Superintendent, Government Press, to undertaking the work of distributing copies of the Botanical Bulletin were reported in my letter to Government dated 14th August 1912, R.O. No. 6272/11, and it was upon this letter that G.O. No. 864 Mis. Educational, dated 30th September 1912, was passed requiring the Superintendent to undertake the work.

2. If it is now considered that the Press cannot do the distribution my office will continue to do it.

3. The enclosure to the endorsement is herewith

 on Botany, on the strength of the representa-
 -tion made by the S. P. J. that the bulletins
 would have to be sent only to a little over
 a hundred addresses. The S. G. P. now brings
 to notice that the free distribution for the
 present as per list furnished by the S. P. J.
 consists of 350 copies for about 120 individuals,
~~but~~ that in view of the small annual sub-
 -scription of Re. 1 for the journal, ~~and that~~
 the number of officials and subscribers
