FROM

THE HON'BLE Mr. H. SHARP, C.I.E.,
Joint Secretary to the Government of India,

TO

The Secretary to the Government of Madras,
Education Department.

Department of Education.
Education.

Delhi, the 12th March 1913.

SIR,

By notification no. 5120-73, dated the 14th July 1909, the Government of India have restricted the importation of apparatus for wireless telegraphy into British India. They are averse from granting special licenses to educational institutions to import such apparatus for class demonstration. It is therefore desirable in the opinion of the Government of India that definite questions on wireless telegraphy should be excluded from University examinations and tests and I am directed to suggest that the necessary steps should be taken to this end.

I have the honour to be,

SIR,

Your most obedient Servant,

H. Sharp

Joint Secretary to the Government of India.

The 14th July 1909.

No. 5120-73. In exercise of the powers conferred by section 19 of the Sea Customs Act, 1878 (VIII of 1878), the Governor General in Council is pleased to restrict the bringing by sea or by land into British India of any apparatus for wireless telegraphy, to cases in which such apparatus is imported by persons to whom a license to establish a system of wireless telegraphy has been granted by the Governor General in Council under section 4 of the Indian Telegraph Act, 1885 (XIII of 1885).

ORDER:- No 285 dated 5-4-13
Mis.,

The Syndicate of the University of Madras, the Director of Public Instruction and the Commissioner for Government Examinations will be informed that by notification No.5120-73, dated the 14th July 1909, the Government of India have restricted the importation into British India of apparatus for wireless telegraphy only to cases which are covered by special licenses issued under section 4 of the Indian Telegraph Act, 1885 and that it is highly unlikely that such licenses will be granted to educational institutions to import the apparatus for demonstration purposes. His Excellency the Governor in Council therefore considers it desirable that definite questions on wireless telegraphy should be excluded from University examination and tests. The Syndicate officers mentioned above will accordingly be requested to take the necessary steps to give effect to this desire.
