I

Ref. on Cur. No. 191/13, dated 11th Januray 1913.

Submitted to Government and recommended that a half grant of Rs. 4,375 may be sanctioned to be paid when funds are available.

2. The plans and estimates are enclosed.

A. G. BOURNE,
Director of Public Instruction.

ENCLOSURE.

Application for aid towards the cost of Rs. 4,375, St. Joseph's Industrial School at Tindivanam, in the district of South Arcot.

Brief history of the institution from the date of its establishment to the date of application tracing its growth and development and furnishing among other things an accurate account of its financial condition.—The school owes its origin to the famine of 1897-98. Many of the abandoned children of parents and relations who were unable to support them were besieging the door of R. F. Combes, the parish-priest of Tindivanam. As many as he could, the missionary took in and tried to form a technical school. In which his pupils might learn a congenial trade. The men at the head of Pondicherry mission understood and sympathised with his ideas; they did their utmost to encourage by advice and money the project of the practical and sagacious missionary and confided in 1904 the superintendence of the school to two European Brothers especially qualified for this work. The rest of the instructors were native Foremen trained by the Brothers.

After trials in several branches the teaching is now confined to carpentry, cabinet-making, smithery, geometrical and ornamental drawings.

Started with 12 pupils, the school has increased to the actual average of 50. Among the pupils sent to the Government Examinations in the last years, several succeeded in the elementary intermediate and advanced grades. In 1911, one of them was the first of the Presidency in cabinet-making and has since been appointed as Foreman in the District Jail, Tanjore.

As to the financial condition of the school, it will be stated that, desirous before all to form excellent workmen, the management has made the greatest sacrifices of money to this end. Refusing any kind of work during the first three years, the superintendents gave all their care to the technical formation of the boys. The results were very satisfactory, but the expenditures were far from being counterbalanced during this period. With these workmen well trained, it was then possible to accept orders, and the financial condition improved gradually so far as the school can now support itself and has, last year, realized some profit as it is shown by the last financial statement.

Testimonials of good workmanship have been got from the engineers of South Indian Railway and the Executive Engineer, who were among the clients of the school.

The school, which originally was established for orphan boys, has already received and is ready to receive other pupils whatever may be their caste or belief.

The committee of management comprise the archbishops of Pondicherry and his council. Their representative at Tindivanam is Rev. Brother John Baptist.

The strength of the different classes or forms as it stood on the 31st March of every year for five years preceding the year in which the application is submitted.

Area.

Joinery room.—	
Joinery hall	69' × 42'
Smithy-hall	42' × 21'
Wood-store	42' × 21'
Engine room	42' × 24'
Show-room	42' × 24'

Character of and necessity for the proposed work in detail.—With a view to increasing the accommodation of the existing school and affording separate rooms for the drawing-class, smithy and show-rooms, all of which are now crowded in one hall, it is proposed to add two wings to the existing school room. The left wing is divided into two rooms, one for exhibits and the other for the smithy. The right wing will be used for drawing class. Provision is also made for a verandah in front of the main hall.

The south side of the open play-ground in front of the school is exposed to the roadside; a wall 303' long is proposed to be constructed.

(i) Is a sketch plan of the proposed site and building attached?—Yes.

(ii) Does it show—

- The relation of the proposed building or extension to the existing buildings?—Yes.
- Any alteration in existing building necessitated by it?—Yes.
- The purpose to which the existing buildings are now put?—Yes.
- The purpose to which they will be put when the new building or extension is complete?—(1) The smithy-hall will complete the actual wood store which has become insufficient. (2) The old show-room will be used for carpentry work only, whilst the new one will be for the articles of cabinet-making only. (3) The drawing-room, comprised till now in the joinery-hall, cannot be tolerated any longer in it (remark of the Superintendent of Industrial Education.)
- Probable cost of the proposed work.—Rs. 8,750.
- Whether the management has the necessary funds to complete the work in the event of the application being favourably considered.—Yes.
- Whether the managing body has been registered under the Indian Companies Act of 1882 and if so, whether attested copies of the Memorandum of Association and the Articles of Association are submitted.—Nil.
- If the aid sought for is towards the cost of site, declaration that it is the cheapest suitable site.—Nil.
- Declaration that the management is prepared to execute the prescribed deed if required by the Director to do so.—Nil.
- If the property is not owned by the correspondent, declaration that the owner or his or her legal representative will execute the deed or will be made a party to the deed.—Nil.
- In the case of mission institutions the name and address in full of the person who holds a power of attorney on behalf of the mission to execute the prescribed deed.—Rev. Father Pinel, Procurator R. C. Mission, Pondicherry.
- Name, designation and qualification of the person by whom detailed plans and estimates and specifications will be prepared.—The plans have been prepared by Rev. John Baptist. The estimates, prepared by Adakalaswami, Public Works Department overeer, Tindivanam, have been verified by R. De Chasal, Executive engineer.

- (a) Whether the title to the property is clear and in order and by whom the title-deeds were examined.—*Nil*.
- (j) The latest date on which the management wishes to (i) begin the work and (ii) complete the work.—(i) The management wishes to begin the work in the month of February (ii) The management wishes to complete the work in the month of September.
- (k) Is the declaration with regard to encumbrance, alienation and the conditions of recognition and aid attached?—Yes.
- (l) Amount of building grants drawn by the institution in previous years with the number and date of the sanction and the purposes for which given (particulars should be given for 20 years).—*Nil*.
- (m) If the aid sought is towards the construction of a hostel, declaration that the hostel will be managed according to rules approved by the Director of Public Instruction.—*Nil*.
- (n) The treasury at which the grant if sanctioned is to be payable.—To the treasury of Cuddalore or, if possible, to the sub-treasury, Tindivanam.
- (o) The annual expenditure incurred in the upkeep of the institution and how much of it is met from—

Inspecting officer's remarks about accommodation from his inspection reports for the two previous years.—Inspection Report, 1911-1912. Satisfactory so far as they go, but plans are under preparation for extensions.

Director's review of such remarks.—*Nil*.

Declaration with regard to encumbrance, alienation and the conditions of recognition and aid.—On behalf of the management of the school, I hereby declare that the property is unencumbered and that it will not be alienated or encumbered without the consent of Government within twenty years and that the conditions of recognition and aid laid down in the Madras Educational Rules and in the Grant-in-aid Code are being, and will continue to be, fully observed, excepting those rules from which the institution has been specially exempted by the Director's Proceedings, No. , dated , and that I am prepared to subject the institution together with its current, endowment and trust accounts, its establishment, time-table and registers to inspection and to furnish such returns as may be required by the department; and that I shall abide by the provisions of rule 55 of the Grant-in-Aid Code in the event of the building being diverted, prior to the lapse of twenty years after the date of payment of grant, to other than educational purposes approved by Government."

Inspecting officer's remarks and recommendations.—The extension is desirable and the plans are approved. The management are anxious to begin work at once and request permission to begin work in anticipation of sanction. It is recommended that such permission be granted.

A. G. BOURNE,
Director of Public Instruction.

II

Note by the Chief Engineer, Public Works Department, dated 1st April 1913, No. 3009-C.

The Director of Public Instruction submits through the Educational Department a detailed estimate amounting to Rs. 8,750 and three plans for certain extensions and improvements to St. Joseph's Industrial School building at Tindivanam, South Arcot District.

II. The plans and estimates have been scrutinised in the Chief Engineer's office and the following alterations have been made:—

- (1) Substituting teak wood purlins $5'' \times 7''$ and ridge piece $3'' \times 8''$ for angle iron purlins $2\frac{1}{2}'' \times 2\frac{1}{2}'' \times \frac{3}{8}''$.
- (2) Altering the scantlings of the common rafters supporting the roofs of main rooms from $2\frac{1}{2}'' \times 4''$ to $2'' \times 4\frac{1}{2}''$.

(3) Dispensing with T iron principal rafters and wall plate and angle iron purlins supporting the verandah roof and providing instead teakwood wall plate and bressummers as figured in the plans and estimates.

(4) Increasing the scantlings of verandah rafters from $2\frac{1}{2}'' \times 4''$ to $2'' \times 6\frac{1}{2}''$.

(5) Making provision for angle iron struts and anchor bolts for the iron trusses.

(6) Providing teakwood posts $5'' \times 5''$ instead of $3''$ pipes for supporting the verandah roof.

III. The amount of the estimate remains unaffected by these alterations.

IV. It is recommended that the height of the compound wall should be reduced from $9' 0''$ to $6' 0''$ and that the proposed new rooms in the main building may be provided with basement about $1' 6''$ in height. The cost of these alterations will not exceed the amount of the estimate.

V. The Superintending Engineer should satisfy himself as to the suitability of the foundations.

VI. With these remarks the estimate amounting to Rs. 8,750 is recommended for sanction.

Order—No. 300, Educational, dated 9th April 1913.

The Government are pleased to sanction a grant not exceeding one-half of the actual expenditure, nor Rs. 4,375 towards the cost of the certain extensions and improvements to St. Joseph's industrial school, Tindivanam, subject to the following conditions:—

(1) that in carrying out the work the suggestions of the Chief Engineer in his note read above are adopted and (2) that all the conditions prescribed in the Grant-in-Aid Code have been duly complied with.

2. On the above conditions being fulfilled the grant will be paid as funds become available.
