Delhi, 26th March 1913.

Sir, ~~XXXX~~

With advertence to the correspondence ending with your telegram No. 77, dated the 10th February 1913, I am directed to invite your attention to the letter from the Finance department No. 257 F., dated the 2nd March 1913, from which it will be seen that the Government of India have given a grant of Rs.1,50,000 from Imperial to Provincial revenues in the Financial year 1913-14 for the Improvement of medical institutions. The Government of India recognize that many of the schemes put forward in your letter are urgent and deserving, but they regret their inability in the current year to make larger assignments to supplement the provision in the Provincial budgets for general medical needs. The claims of medical education for an Imperial subsidy are being separately considered. In making these grants they do not desire to fetter in any way the discretion of the Governor in Council as to the manner in which the money should be expended and they accordingly leave it entirely to His Excellency in Council to decide as to which particular scheme the money should be applied.
