GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following papers :—

I

Letter—from the Hon'ble Mr. A. G. BOURNE, D.Sc., F.R.S., C.I.E., Director of Public Instruction.

To—the Secretary to Government, Educational Department.

Dated—Madras, the 21st August 1912.

No.—Ref. on Cur. 7072 of 1911.

I have the honour to submit the enclosed plans with estimates amounting to Rs. 48,500 towards the cost of extending the building occupied by St. Patrick's Civil and Military Orphanage, Adyar, and to recommend that a half-grant of Rs. 24,250 may be sanctioned.

2. The plan does not provide for in-door latrines and bath rooms but the Correspondent says that the omission of them was intentional so as to keep down the estimate. He however adds that the necessary in-door latrines and bath rooms could be added later by an extension at the end of the building. The main scheme need not therefore be delayed on account of these omissions.

3. The Correspondent adds that the question of the sick room referred to in G.O. Mis. No. 862 L., dated 10th June 1912 may for the present be dropped.

II

**Note by the Chief Engineer, Public Works Department, No. 130-C,
dated 4th January 1913.**

The Director of Public Instruction submits for sanction a detailed estimate amounting to Rs. 48,500 with five plans for constructing a dormitory class and refectory at St. Patrick's Orphanage, Adyar, Chingleput district.

2. The plans and estimate have been scrutinized in the Chief Engineer's office and the following alterations have been made :—

(1) Increasing the sections of rolled steel girders supporting the roof of main hall from 20"×7½" at 89 lbs. to 24"×7½" at 100 lbs.

(2) Providing two girders 12"×5" at 32 lbs. one on either side of the window in the two front rooms of the second floor instead of one girder placed centrally over the window and reducing the scantlings of teak joists from 3"×9" to 2"×7".

(3) Providing in staircase rooms girders 15"×5" at 42 lbs. instead of teak beams 8"×12".

(4) Reducing the spacings of the teak joists supporting the first and second floors from 1' 6" to 1' 3".

(5) Making stone templates under girders of second floor 6" thick instead of 5' 6".

(6) Increasing the amount provided for unforeseen works to make provision for constructing a portion of masonry specified in paragraph 7 below in cement mortar instead of lime mortar.

(7) Adding Rs. 7,700 for constructing bath rooms and lavatories according to the plans bearing numbers C. A. 320, 321 and 322 of 1912 and the detailed estimate accompanying them which have been prepared in the Chief Engineer's office in accordance with the request of the Principal of the institution and approval of the Educational department.

3. By these alterations the estimate has been increased from Rs. 48,500 to Rs. 56,200.

4. It would be advisable to arrange the piers of the verandah on the side where the main stairs are in a line with the girders in main rooms so as to obstruct light as little as possible.

5. The use of surki in mortar for concrete is not necessary as the latter consists of broken bricks.

6. Sand may be used instead of concrete under Cuddapah slabs of floors.

7. In the main hall in ground and first floors, the piers supporting the girders should be constructed from the floors to the tops of arches in cement (1 to 3) instead of lime mortar.

8. Three coats of lime mortar should be used for the tops of roofs instead of cement plaster.

9. The pressure on the soil is 1½ tons. The Superintending Engineer should satisfy himself regarding the suitability of the foundations.

10. No provision has been made for urinals in the plans and estimate now prepared in the Chief Engineer's office. As each dormitory accommodates 80 boys, it is recommended that six lavatory basins should be omitted and urinals provided in their places, with necessary wooden screens, the difference in cost involved in this alteration is almost trifling.

11. With these remarks the estimate as altered by the Chief Engineer amounting to Rs. 56,200 is recommended for sanction.

C. A. SMITH,
Chief Engineer, P.W.D.

Order—No. 48, Educational, dated 16th January 1913.
