Ref. on Cur. No. 9135, dated 26th November 1912.

[Application for grant-in-aid of Rs. 6,950 towards the cost of carrying out certain improvements to the building occupied by the Hindu high school at Madurantakam.]

Submitted to Government and recommended.

2. The plans and estimates have been prepared by the Executive Engineer, Chingleput division, and it is therefore presumed that the foundation is strong enough to bear the proposed second floor.

A. G. BOURNE,
Director of Public Instruction.

Note by the Chief Engineer, Public Works Department, No. 381-D., dated 20th June 1913.

The Director of Public Instruction submits, through the Educational Department, for sanction, an estimate amounting Rs. 13,900 and two plans for improvements to the Hindu high school at Madurantakam in the Chingleput district.

2. The plans and estimates have been scrutinized in the Chief Engineer's office and the following alterations have been made :—

The sizes of some of the rolled steel girders and joists in the first floor and the scantlings of the roof timbers have been altered as corrected on the plan and estimate in the Chief Engineer's office.

3. One side of the hall roof omitted in the estimate is now provided.

4. In the terrace floor provision is made for three courses of flat tiles which do not appear to be necessary as separate provision is made in the estimate for square bricks with cement.

5. The rates for rolled steel girders Rs. 8 per cwt. inclusive of carriage and hoisting and setting and Rs. 4-4-0 for teakwood wrought and put up appear low in view of the present market rates at Madras.

6. The plain Mangalore tile roof would make the room very hot during the summer months. It is recommended that flat tiles should be provided under the Mangalore tiles. This would involve revision of roof scantlings.

7. The upper verandah being very low as designed, it is recommended that the main roof should be made continuous over the verandah.

8. The eave boards provided in the estimate may be omitted in accordance with Circular No. 64 C., dated 4th January 1908.

9. The Superintending Engineer, V Circle, suggests that the proposed superstructure may be built of brick in mud. The Chief Engineer supports this suggestion.

10. The position of the staircase is not shown on the plan.

11. With the above remarks the estimate amounting to Rs. 13,900 is recommended for sanction.

C. A. SMITH,
Chief Engineer, P.W.D.
