To

The Chairman Municipal Council, Salem.

Sir,

In accordance with your reference on No.19/Resolution dated 12th October 1912, I have the honour to submit proposals for improving the laboratory.

1. The most urgent want is that of gas installation. The University insists on all colleges making provision for gas and electric installation. In the absence of this the -- college is in danger of disaffiliation in group 1 of the Intermediate examination. The lowest cost at which a gas installation can be effected is Rs.4000 If a grant of Rs.2000 is obtained from Government this may be supplemented by another Rs.2000 by the Municipality.

2. In case the above proposal is not accepted as being too costly, although it is absolutely needed, and in its absence, other improvements will be but of little value, I enclose a list of apparatus to the cost of Rs.2000 which will go -- some way towards improving the laboratory.

I have etc.,

2. There is no doubt as to the necessity for the improvements proposed if the college is to be maintained. The more pressing need seems to be for a gas installation which should be met first, additions to the apparatus being made later as the Municipality can find funds.

The Municipal College, Salem, is one of the institutions proposed to be taken over by Govt. as a model school. para. 7 of letter No. 57 Sd/- 21-2-10. When the scheme for the establishment

establishment of model schools comes to be sanctioned the Govt will have to provide the gas installation themselves. The installation is estimated to cost Rs. 2,000 of which the Municipal Council is prepared to bear Rs. 2,000 and the amount of aid applied for from Govt. is Rs. 2,000. Submitted that this department may agree to the payment of a grant of Rs. 2,000. (if sanctioned) the amount will have to come out of the provision under 22. E. Education - Payments in support of Municipal Schools. For a precedent please see G.O. 555 dated 3-7-12. The D.P.I. does not make any specific recommendation as to whether the grant for the gas installation may be sanctioned. While the reference is being made to the Municipal Council as to the detailed estimates of the installation and the source from which it proposes to meet its share of the cost, the D.P.I. may be asked to state what portion of the cost he recommends as grant & from what source he proposes to meet it.

Yes please.
