From (Name) The Hon'ble Sir Alfred Gibbs Bourne, D.Sc.,
F.R.S., K.C.I.E.,

(Designation) Director of Public Instruction,

To The Secretary to the Government of Madras,

Educational ~~Department~~ Department.

Sir,

In G.O. No. 52 Edl., dated 20th January 1913, a grant not exceeding Rs. 3,567/- has been sanctioned towards the cost of construction of a dormitory &c., for the Holy Cross Girls' School, Tuticorin. The Correspondent now requests permission to use big ordinary stones cut to size instead of flat coral stones for the erection of a refectory and dormitory blocks, for the reasons stated in her letter No. 100, dated 4th May 1913 copy submitted herewith. I have the honour to recommend the request, provided that the Chief Engineer approves the alteration and that it does not involve additional grant.

I have the honour to be,
Sir,
Your most obedient servant,

for Director of Public Instruction.

Letter No. 100, dated 4th May 1913 from the Correspondent,
Holy Cross European School, Tuticorin.

I have the honour to request you to be so kind as to grant us the permission of using big ordinary stones, cut to size, instead of flat coral stones for the erection of a refectory and dormitory blocks on behalf of our boarders.

2 What makes me bold enough to ask you this favour is the difficulty of getting flat coral stones. Rev. Father Manager paid three hundred rupees in advance to the contractor, and yet, only one-fifth of the amount required has been brought here.

3 Now a season of calm having set in, the transport of these stones which lie in an island thirty or forty miles off Tuticorin, is stopped altogether. The work cannot be resumed before the end of the month of August.

4 Moreover, the construction of the Paumben Bridge is a great obstacle to our getting those stones easily and in abundance, whereas the transport of big ordinary stones would be the work of a short time.

Trusting you will receive my request favourably, I beg of you, Sir, to accept my sincere thanks in anticipation.
