Letter—from M.R.Ry. Rao Bahadur T. C. NARAYANA KURUP AVARGAL, B.A., B.L.,
Chairman, Municipal Council, Tellicherry.

To—the Secretary to Government, Local and Municipal Department (through
the Sub-Collector, Tellicherry).

Dated—the 14th February 1913.

No.—2131.

In paragraph 4 of my letter No. 1132, dated 19th December 1912, submitting proposals for the revision of the pay of the teachers of the Brennen College, I have stated that as regards increased accommodation, hostel arrangements and other equipments to the college Government will be addressed separately with the approval of the Council. The educational officers and the members of the University Commission have more than once adverted to on the insufficiency of the college accommodation, the absence of hostel arrangements and the improvements needed on the condition of library, furniture and apparatus. To remedy these defects, a sum of not less than Rs. 40,000 will be required. The municipal funds cannot at present or in the near future hereafter afford to meet even a very small fractional part of this large amount. The Council therefore, at its meeting held on the 8th February 1913, resolved to address Government for payment of a grant of Rs. 40,000 from Provincial funds as will be seen from copy of its resolution No. 8 enclosed.

2. The present accommodation of the college is quite insufficient. Three of the classes of the school department are crowded into the hall and four are held in the verandah. The type-writing class works in the common room for teachers. There is no separate laboratory for school department. At present the high school student do their practical work in science in the college laboratory which is hardly sufficient for the college students themselves. The two rooms now under construction (*vide* G.O. Mis. No. 585, dated 3rd July 1912) will not in any way improve the accommodation for the school department since they are intended for improving the accommodation of the college laboratory. When these two rooms are completed, the college classes may have sufficient accommodation for the present strength but not the school department. Five or six light and airy rooms are therefore urgently required.

3. With the completion of the laboratory buildings now being pushed on the college premises will become almost congested with buildings and it will be impossible to extend the existing buildings within the very limited space still available. With due regard to sanitation therefore the college premises will have to be extended to admit of further extensions. There is a compound adjacent to the college premises, the existence of which in the present form is a menace to the college sanitation owing to the several dirty dwelling huts crowded out there. If this compound be acquired and the huts demolished, there will not only be sufficient space available for the proposed extensions and hostel arrangements to be carried out, but there will also be improving the sanitation of the college. During his recent tour of inspection the Hon'ble Mr. Sivaswami Ayyar was pleased to visit the college, when these facts were personally represented to him and I trust that he was fully convinced of all the requirements detailed above.

4. In my opinion it is a distinct advantage to have the hostel arrangements being made in a place close to the college buildings. The land now proposed to be acquired suits well both in area and proximity to admit of these arrangements. Costly buildings need not be erected for dwelling purpose. All that is required is a line of neat and airy rooms (each separated from the other) constructed and set apart for each community of students. It is also desirable to have the Principal's quarters very near the college in addition to those of the warden or the manager of the hostel. Improvements to the library, furniture and apparatus are also required to a considerable extent, but details of new buildings and other improvements will be duly considered and submitted on receipt of favourable orders for payment of the grant now applied for.

I need not reiterate here the extreme importance of improving the status of the only college in North Malabar freely resorted to by the students of every caste and creed of the large population inhabiting there, as it has been brought to the notice of Government more than once already. I have the honour therefore to request that Government may be pleased to sanction as a special case the necessary grants from provincial funds.

Resolution No. 8.—Council resolves to request the Government for a grant of Rs. 40,000.

2. The buildings of the Brennen College are certainly bad. They are much too cramped together; the accommodation is insufficient; and a hostel is needed.

3. But I do not think that Government can commit themselves to a grant of Rs. 40,000 on the information contained in the Chairman's letter. Plans showing precisely the land it is proposed to take up and the buildings it is proposed to erect are necessary as also rough estimates of the cost.

4. Further I think that the future of the college should definitely be decided before large schemes of expenditure are embarked upon—*vide* my *Endt. on C. No. 8-Ml., dated 21st January 1913.*

Memorandum No. 1468-2 M., dated 20th March 1913.

The Chairman is requested to submit plans showing the land required for the proposed extension of the college premises including a hostel site: rough estimates should also be prepared showing the nature and cost of the various improvements for which a grant of Rs. 40,000 is sought.

Letter—from M.R.Ry. Rao Bahadur T. C. NARAYANA KURUP AVARGAL, B.A., B.L.,
Chairman, Municipal Council, Tellicherry.
To—the Secretary to Government, Local and Municipal Department (through the
Sub-Collector, Tellicherry).
Dated—the 13th May 1913.
No.—141.

Referring to Government Memorandum No. 1468-2 M., dated 20th March 1913, I have the honour to submit herewith plan showing the land required for the proposed extension of the Brennen College premises including a hostel site and a rough estimate as to the nature and cost of the various improvements to be made to the college buildings out of the Government grant of Rs. 40,000 for which application has already been made to Government. Copy of Council's Resolution No. 1, dated 5th April 1913, in the matter is also enclosed.

2. It will be seen that the area of the proposed extension is 2 acres of land lying parallel to the site where the present college buildings are situated; but if the main college building which, I presume, is substantially built be converted into an upper storey, it will not only add much beauty to the college buildings, but will also save just half the proposed area from being acquired for the college purposes.

ENCLOSURE.

Overseer's report.

In obedience to resolution No. 1 of the Municipal Council, dated 5th April 1913, the accompanying plan of the site proposed to be acquired for the construction of additional buildings to Brennen College has been prepared and herewith submitted. The approximate cost of the site and the houses, etc., therein and the rough estimate for the various improvements to the college buildings are as stated below:—

	RS.
1. Cost of about 2 acres of land required for the extension of the college premises including the trees and excluding the houses and wells therein at Rs. 1,500 per acre	3,000
2. Cost of sixteen houses, etc., built of sundried mud bricks and laterite stones and under thatched roofs in the site	2,500
3. Cost of seven wells in the site	400
4. Cost for the construction of a hostel containing 25 rooms for 50 students of different communities including kitchens	10,000
5. Cost for the extension of the college building	16,000
6. Cost for the construction of the quarters of the warden or the manager of the hostel	3,000
7. Cost for the removal of the existing two latrines from their present sites to other suitable sites and re-constructing them in larger scale	1,000
8. Cost for constructing stone walls around the site to be added with the college premises, etc.	3,500
9. Sundries for filling in the site, etc.	600
Total	40,000

Endt. No. 1058, dated 16th May 1913.

Submitted to the Collector of Malabar.

V. P. RAO,
Sub-Collector.

Order—No. 1013, Educational, dated 8th November 1913.

The Government approve generally the proposal of the Municipal Council of Tellicherry (1) to extend and improve the Brennen College buildings and (2) to construct a hostel with warden's quarters at an approximate aggregate cost of Rs. 40,000 and will be prepared to make a grant not exceeding this amount from the Imperial non-recurring grant of 49 lakhs for education.

2. Further orders regarding the preparation of detailed plans and estimates and the execution of the work will issue in the Public Works Department. The requirements of the Municipal Council in regard to the buildings should be communicated to that department through the Director of Public Instruction.

3. On completion the buildings will remain the property of Government, but will be lent to the Municipal Council for use in connection with the college.

NOTES CONNECTED WITH G.O. No. 1013, EDUCATIONAL,
DATED 8TH NOVEMBER 1913.

[SUBJECT.—*Application for a grant of Rs. 40,000 from Provincial funds towards increased accommodation of the college, construction of hostel buildings and additions to the library, furniture and apparatus, Tellicherry municipality.*]

*From the Chairman, Municipal Council, Tellicherry, dated 14th February 1913,
No. 2131.*

It is submitted that as in the case of the Victoria College, Palghat, the present application for improvements to the Brennen College, Tellicherry, may also be allowed to lie over till a decision is arrived at in regard to the taking over of the college by Government.

T. B. RAMACHANDRA MUDALIYAR—11-3-13.

But meanwhile the council may be asked to furnish plans of the land and buildings and also rough estimates. Please see Collector's endorsement. The council does not say how it arrives at Rs. 40,000.

P. T. THARYAN—11-3-13.

Not till we have some idea of the Director of Public Instruction's views. The case should go to him un-officially. No immediate grant is possible.

L. DAVIDSON—12-3-13.

To the Director of Public Instruction.

OFFICE OF THE DIRECTOR OF PUBLIC INSTRUCTION.

I can say from personal inspection that the extension of accommodation for the school which the chairman describes is very necessary. A hostel is also badly wanted. The question whether Government is to take over the institution seems hardly relevant; the improvements in any case will have to be made and almost certainly at the expense of Government. I think there are good grounds for calling for plans and estimates.

J. H. STONE—15-3-13.

To the Local and Municipal Department.

From the Collector of Malabar, dated 28th June 1913, No. D. 260/Ml.

In reply to Memorandum No. 3017-1 M., dated 12th June 1913, issued to the chairman of the Tellicherry Municipal Council, the Collector of Malabar states that the plan showing the land required for the proposed extension of the Brennen College buildings was forwarded to Government separately. A search has been made for the plan in question in this office but has proved fruitless. It is not forthcoming. Submitted that a duplicate copy may be called for. A draft memorandum is placed below for approval.

[Memorandum No. 3432-1 M., dated 16th July 1913.]

From Mr. C. A. Innes, Collector of Malabar, dated 28th July 1913, No. D. 297.

It will be seen from the duplicate copy of the plan received from the Collector that the land to be acquired for the proposed extension of the Brennen College premises lies to the north of the site of the present college buildings and measures about two acres.

2. The rough estimate of the cost of the scheme furnished by the chairman amounts to Rs. 40,000, which is the amount of the Provincial grant asked for by the council. The Collector (Mr. Innes) doubts whether the sum of Rs. 5,900 provided for land compensation and for acquisition of houses and wells will be sufficient.

3. In his un-official note of the 15th March last on page 1 *ante*, the Director of Public Instruction (the Hon'ble Mr. Stone) expressed his concurrence with the council's arguments as to the necessity for extending the accommodation, and suggested that this matter should be considered independently of the question of taking over the Brennen College under the management of Government.

4. Submitted that in view of the Director of Public Instruction's recommendation, the Educational Department may be asked to consider the council's application for an allotment of Rs. 40,000 in connection with the distribution of the special grant made by the Government of India in aid of educational buildings. The council may at the same time be called upon to get detailed plans and estimates prepared for the proposed extensions.

EDUCATIONAL DEPARTMENT.

The present case is almost similar to that of the Salem College. This institution was also managed by Government as a Zillah school before it was transferred to the municipality in 1884. Definite information is not available in Educational as to whether the present buildings belong to Government. From page 5 of the note on municipalities, it will be seen that the college buildings were added to from time to time apparently at the cost of the municipality. The need for additional accommodation and for a hostel has been admitted. The municipality is unable to bear any portion of the funds needed for the purpose. Last year the Government had to sanction a grant of Rs. 2,000 for extending the college laboratory—G.O. No. 585, Educational, dated 3rd July 1912. As observed by the Director, the question whether the institution will be taken over by Government

I think that the money can be found from the Imperial grants for education.

C. RAMANUJACHARI—25-9-13.

The need for more accommodation and for a hostel is made out. The college is the only one in North Malabar and has never had a fair chance because the council has been obliged to starve it. It has been well reported on for the last two years. It deserves a grant. There is money from the Imperial doles. The exact amount wanted cannot be stated till plans and estimates are prepared. Has **M** Financial any objection to a maximum of Rs. 40,000? It is waste of time to prepare plans and estimates until the financial question is settled.
