EDUCATIONAL DEPARTMENT.

The Hon'ble Mr. V.K. Raman Nayanar.

170 178. Are the Government aware that the present system of allotment of annual grants to aided schools involves a hardship to the managers in as much as it keeps them in arrears for a long time often extending to two years?

Will the Government be pleased to act upon the suggestion made by the conference of the Teachers' Association at Mangalore that grants may be paid in two or more instalments?

Rules 17 to 22 of the Grant-in-Aid Code lay down the procedure to be adopted in passing applications for aid in the case of elementary schools and the last rule specifically prescribes that all grant bills should be passed and presented for payment before March 15th. In the case of secondary schools the Code permits the preparation of grant bills from 1st August and the presentation before 15th March in each year. There is, however, no absolute rule in the latter case as in that of elementary schools that the bills should be presented before a fixed date. Teaching grants on behalf of both elementary and secondary schools are no doubt paid only once a year. It is not clear why this system ~~of~~ should occasion the withholding of grants in arrears for such long periods as two years. It is not unlikely that the Additional Member may be referring to some uninvestigated claims for grants of one year which might have been included in the grant bills for next year. Ordinarily there ~~seems~~ seems to be no room for unnecessary delay.

2. That the system of annual payment works ^{in the case of} hardly ~~with~~ elementary school masters was brought to the notice of Government by the Hon'ble Mr. Srinivasa Sastri in connection with a resolution moved by him at the meeting of the Legislative ~~for~~ Council held on 4th April 1913. As a result of discussions which then took place and after considering the report on the subject submitted by the Director of Public Instruction, the Government have decided to give a [fair] trial to the system of paying the grants by instalments (quarterly or if possible, monthly) in, at least, four

four districts distributed throughout the Presidency. The detailed proposals for giving effect to this decision which have been called for from the Director of Public Instruction are awaited.

No representations have been made to Government that the system of annual payment is considered a hardship by the managers of secondary schools also. The Resolution of the Conference of the Teachers' Association at Managlore referred to by the Additional Member has not been received by Government.

3. A draft answer is suggested for approval -

~~"The Government are not aware of any delays in payments of grants. (in selected districts, the Government have recently decided to try as an experimental measure, in some selected localities the system of paying grants to elementary schools at shorter intervals than once a year.) The results of the experiment will be awaited before proceeding further."~~ If it succeeds, the extension of the system will be considered.

It seems likely that the Asst. Member refers only to elementary schools but has failed to draft his suggestion with sufficient precision
