Dear Sir,

I think to

I am conscious that

have promised

to get all

the info. we

have at hand

for. Please

let me see

his questions

& note. -

11/11/13

Some of my questions on Edu-
cation may require references
to inspecting officers and head
of institutions. The matters
concerned, however, are of such
importance that I would ear-
nestly request Government
to collect the information asked
for though it might not be
possible to furnish the whole of
it at the next meeting. It is
sufficient to instance the
permanence

permanence and stability of proprietary schools, the working of the rules as to the transfer of pupils from the elementary to the secondary stage and the extent of hostel accommodation necessary in secondary schools.

2. The distribution of building grants is of great interest to those engaged in the management of schools and colleges, and it would be very helpful to them if the details thereof were included in the annual reports of the department, in the same way

way as the details of the distribution of teaching and fixed grants are now included, elementary schools in each district being mentioned in a lump for convenience.

3. If the answer to the question regarding the amount of subsidies to local and municipal secondary schools be what I hope it will be, the resolution on the subject of which I have given notice will become practically unnecessary.

Sincerely yours
 C. J. S. S. S. S.

Legislative Department

C. No. 2677

From the Hon'ble Mr. V. S. Srinivasa Sastri
27.11.13Subject: Re. information in reply to his
questions.

I think we have promised
to get all the information we have
not already got. Please let me
see his questions and note.

The M. S. : No answer to the letter
is required; but I don't understand
what he means by his "question regarding
the amount of subsidy to L. S. S. Secondary School".
M. S.

The file may formally sent up to Educational
for action on the additional member's suggestions

Educational Department.

The file seems to have been forwarded to this department for consideration of the question raised in paragraph 2 of the Additional Member's D.O. namely that the details of the building grants sanctioned in any year may be shown in the report on public instruction of that year in the same way as the details of the teaching and fixed grants sanctioned are now given.

2. Details of teaching and fixed grants paid to schools were given in a collected form in the older reports on public instruction. Please see Appendix G on pages 37 to 41 of Volume II of the report for 1910-11. These details have not, however, been continued in the subsequent reports e.g. those of 1911-12 and 1912-13. Apparently it was thought superfluous in view of the information as to Provincial grants entered against each school in the subsidiary tables. But both the statements were co-existent in the older reports for a long time. The former giving in a collected form the grants distributed would seem to be useful. The Director of Public Instruction may be asked to state whether he sees any objection to the adoption of the Additional Member's suggestion that the details of the building grants paid might be given in the annual report.

I made a ~~deep~~ determined effort
to curtail this ever-growing volume.
I now print this particular
information in "Proceedings" and
furnish it to inspectors and
inspectresses -

The Additional Member says
that the distribution of building
plans is of great interest, to
managers - That is to say they
(or a few of them) like to compare
what they are getting ~~with~~ ^{are getting} compared
with ^{what} other people - There is no
secret about this and they can
ascertain by enquiring from another

Manager - if he likes to find the information - what he got but with this growing passion for statistics among people who are unable to appreciate them I thought it better apart from the attempt at curtailment not to continue this particular table. It is misleading to the General public as it does not show the amount contributed by the Management nor of course give any explanations in special cases and it already covers 19 pages of print.

Information as to the total amount paid from public funds to each school other than Elementary is already given in the ^{Subsidiary} ~~Supplementary~~ tables and the amount provided from "fees" + "other sources" is shown there also.

I would refuse further details the Subsidiary tables already cover 283 pages

AGS 22-11-13

I don't think any answer to the add. member is needed W 25/11
