The Hon'ble Mr. T. V. Seshagiri Ayyar.

Educational Department.

66(a) With reference to my question No. 22 of the 27th September 1912 and the answer given thereto, will the Government be pleased to state whether it is their intention to expand the courses of study in the College of Engineering<sup>ing</sup> so as to embrace a wider range of instruction in technological subjects?

(b) If the answer to the above question is in the affirmative, will the Government be pleased to state whether such ~~subjects~~ subjects will be included in the curriculum of studies for the Engineer and Engineer subordinate students

(c) Will the Government be pleased to lay on the table all the papers, if any, relating to the revision of the curriculum of studies in the College of Engineering?

The Hon'ble Mr. T. V. Sankararaj Aiyar.

Legislative Department.

66(a) With reference to my question No. 22 of the 27th September 1913 and the answer given thereto, will the Government be pleased to state whether it is their intention to expand the course of study in the College of Engineering so as to embrace a wider range of instruction in technological subjects?

(b) If the answer to the above question is in the affirmative, will the Government be pleased to state whether each separate subject will be included in the curriculum of studies for the Engineer and Engineer subordinate students? (c) Will the Government be pleased to lay on the table all the papers, if any, relating to the revision of the curriculum of studies in the College of Engineering?

Please see notes in linked file I.

When any expansion of the course of studies in the college is made by the introduction of additional subjects on technology, they will surely be included in the curriculum of studies of the Engineer students, as those subjects will be fit for study only in the higher grades. Whether any of them should form the subject of study in the Engineer subordinate class is one for later consideration. So far definite steps have been taken only as regards higher electrical engineering. This subject has not yet been proposed for the subordinate class, as <sup>Elementary</sup> ~~Electrical~~ engineering is not itself taught in that class.

The following draft answer is suggested:--

Draft answer.

66. (a) Yes.

(b) The question will be considered when <sup>No</sup> ~~definite~~ decision is arrived at as to what additional subjects should be introduced in the course of studies. In regard to the <sup>except that</sup> ~~case of~~ higher electrical engineering, definite steps for introducing which <sup>have</sup> ~~is~~ already being taken, <sup>has</sup> ~~will~~ be included in the course of studies for the Engineer students.

(c) G.O.No.517, Edl., dated 4th June 1913, which is the only

The question and answer are shown  
in one view below—

Question 75. (a) With reference to my Question No. 22 of the 27th September 1912 and the answer given thereto, will the Government be pleased to state whether it is their intention to expand the courses of study in the College of Engineering so as to embrace a wider range of instruction in technological subjects? Curriculum of studies in the College of Engineering.

(b) If the answer to the above question is in the affirmative, will the Government be pleased to state whether such subjects will be included in the curriculum of studies for the engineer and engineer subordinate students?

(c) Will the Government be pleased to lay on the table all the papers, if any, relating to the revision of the curriculum of studies in the College of Engineering?

Answer 75—

(a) Yes.

(b) No definite decision has yet been arrived at, except that higher electrical engineering, steps for introducing which have already been taken, will be included in the course of studies for the Engineer students.

(c) G.O. No. 517, Educational, dated 4th June 1913, which is the only order recently issued regarding the modification of syllabuses, has been placed on the Editors' Table. (2)
