(Designation) Chairman, Municipal Council, Dindigul.

To The Secretary to the Government of Madras,
Local and Municipal Department.

Sir,
(Through the Sub-Collector and the Collector of Madura and the the Director of Public Instruction, Madras.)

Sir,

In submitting herewith a copy of the Council's Resolution No.7/27-1-13, I have the honour to request that the Government may be pleased to sanction the full amount of the estimate viz: Rs 5,000 from Provincial Funds on account of further extension to the Municipal High School buildings which the Inspector of Schools, 7th Circle strongly recommends in his Endorsement No.0-0-1935 dated 29-7-12 (copy enclosed).

2. The Council has with some difficulty, provided Rs 2,000 from Municipal Funds in the Budget for 1913-14 for carrying out other extensions of the school referred to in

(M) G.O, No. 303 Mis dated 3-9-12, the Government having been pleased to sanction a moiety from Provincial Funds.

3. For an important work viz: constructing a fish market estimated to cost Rs 2,600, the Council was able to provide only Rs 800 for 1912-13 and Rs 1,000 for 1913-14 owing to want of funds.

4. I have the honour, therefore, to request that Government may be pleased to pass the full amount of the estimate viz: Rs 5,000 from Provincial Funds.

5. The estimate and plan with a specification report are herewith submitted.

Copy of communication No.291 dated 24-7-1912 from the Head Master, Municipal High School, Dindigul, to the Chairman, Municipal Council, Dindigul through the Inspector of Schools, Seventh circle, Madura.

I have the honour to bring to your notice the following facts:-

1. The strength of this institution on the whole has
July 1911 - July 1912 risen, it being 256 against 224 last year.

VI F	24	-	27 + 3	2. The school fee proceeds of the
V F	19	-	16 - 3	school will be about Rs 7,000 for 1912-1913
IV F	23	-	45 + 9	against Rs 4,933-1-0.

III F	31	-	35 + 4	3. This institution is sorely in
II F	40	-	40 ✓	need of additional accommodation. The
I A	20	-	25 + 5	Inspector in his last inspection report
I B	27	-	23 + 1	says "The school is suffering from the
IV cl	35	-	40 + 5	inadequacy of the buildings x x x
	224		256	but I do not think that the Council realises
				its responsibilities with regard to the
				former point (building) x x x

A rough sketch.

It is however quite clear that a large expenditure is needed if the school is to justify its existence.

4. In these circumstances I would request you to be so good as to make provision for Rs 4,500-0-0 for the following arrangements.

(i) To add three new rooms as shown in the Rough sketch herein enclosed.

(2) To put up some new windows and doors to improve the ventilation.

2 I consider that, if the
present proposal of the
Municipal Council to extend
the High School building
is adopted, it would stop
ventilation and will also
costly. It is possible by
raising an upper story
any part of the building with further steps to be
the building now ^{used} as a
laboratory, ^{that} the cost of the building
might be diminished and the
required ventilation secured.

3 It is therefore recommended

the plans and estimates

have the honour to state that the Superintending Engineer, 6th --

of supporting an upper storey suggested by you as will be seen -
from his communications Nos. 3695/26-4-13 & 5540/1587, dated 28-6-13

Copy of Report from the Sub-Division Officer, Dindigul,
to the Executive Engineer, Madura Division No. 374-E, dated 5th

Reference:-- Your No. 1233 dated 27th March 1913.

I have the honour to report that I have inspected the
Dindigul Municipal High School Building and find foundation etc.,
to be as noted on separate sheet herewith. I think it to be prac-
tically impossible to build an upper storey over the existing --
building for the following reasons:---

The building Block A is divisible into 3 parts:--

- (1). The front or eastern wing.
- (2). Rear or western wing.
- (3). Centre part connecting the wings.

The front or eastern wing is an old building and from the
plan it will be seen that an upper storey could only be built to
advantage over the large hall part but to do this all the arches
would have to be rebuilt as there are cracks through all the --
arches over doors and windows and over some of the arch openings
leading to the quadrangle. To add weight above would therefore
only result in the collapse of the building unless expensive re-
pairs in the way of strengthening the arches and rebuilding walls
were carried out which would be a very costly piece of work.

2. All the arches except one over the doors and windows
of the west wing have cracks through them showing that they cannot
bear any more extra weight so it is not advisable that an upper
storey be added to this wing for same reasons as noted for west
wing.

3. The cross Section of founds for the centre part
of the building shows that the part cannot bear an upper storey.
All windows have cracks through their arches. Walls are of brick
in mud.

Block.B.-

31

- 2 -

Block B.-- As it is believed that the question regarding upper storey does not refer to this block nothing has been done as the proposed extension is a cheap way of getting more accommodations since only 2 walls have to be built.
