ABSTRACT.—Sanctioning subject to certain conditions a grant not exceeding Rs. 3,000 for constructing outhouses attached to the building occupied by the St. John's Girls' High School, Nazareth.

II

G.O. No. 885, Educational, dated 15th December 1911.

ABSTRACT.—Raising from Rs. 3,000 to Rs. 4,483 the amount of building grant sanctioned towards the cost of constructing outhouses attached to the building occupied by the St. John's Girls' High School, Nazareth.

Letter—from the Hon'ble Sir ALFRED BOURNE, D.Sc., F.R.S., K.C.I.E., Director of Public Instruction, Madras.

To—the Secretary to Government, Educational Department.

Dated—the 4th July 1913.

No.—Ref. on Cnr. 2005.

In G.O. No. 6, Educational, dated 6th January 1910, a grant of Rs. 3,000 was sanctioned towards the cost of constructing outhouses attached to the building occupied by the St. John's girls' high school, Nazareth. Subsequently, a revised estimate was submitted and it was approved in G.O. No. 116, Educational, dated 24th February 1911. The grant of Rs. 3,000 sanctioned in the first of the Government orders mentioned above was also increased to Rs. 4,483 in G.O. No. 885, Educational, dated 15th December 1911. In G.O. No. 720, dated 6th August 1912, extension of time was given for the completion of the work up to 31st March 1913. Meanwhile the present Executive Engineer has suggested further modifications and has sent the correspondent a note together with a revised estimate amounting to Rs. 15,462. I have the honour to submit the note and estimate together with the covering letter from the correspondent No. H-45. As the correspondent points out, this new estimate involves increased expenditure and, if it is approved, I think she is justified in asking for an enhancement of the grant to the extent of the extra amount involved, viz., Rs. 2,590. It is, however, a matter for doubt whether the Executive Engineer is entitled to modify plans and estimates passed by the Chief Engineer and prepared on his predecessor's advice. Under these circumstances, orders are requested as to whether the estimate already approved and submitted for reference may stand or whether the new estimate may be adopted and the additional grant applied for sanctioned.

ENCLOSURE.

Letter—from Miss E. K. GROVES, Correspondent, St. John's Girls' High School, Nazareth.

To—the Director of Public Instruction, Madras (through the Inspector of Girls' Schools, Southern Circle).

Dated.—28th May 1913.

No.—H-45.

With reference to your letter No. 2005, dated 2nd April 1913, I have the honour to forward herewith the revised plan sanctioned by Mr. M. Loam, Executive Engineer, together with the original estimate and the new estimate revised in his office of the additional expenditure involved.

I have the honour to point out that the increase of expenditure is entirely owing to this change, and that had we been able to follow the original plan passed by the former Executive Engineer, Mr. C. Peddy, and sanctioned in your proceedings, the buildings would have been finished by March 30.

As this additional expense has been incurred by us entirely through the change of plan recommended by the Government Executive Engineer, I have the honour to ask that you will give the whole sum required, namely, Rs. 2,590 (two thousand five hundred and ninety), in addition to the original grant already sanctioned.

Order—No. 757, Educational, dated 15th August 1913.

The Government approve the modifications proposed by the Executive Engineer, Tinnevely division, in the plans and estimates for the outhouses attached to the St. John's girls' high school, Nazareth.

2. The amount of the grant, sanctioned in G.O. No. 6, Educational, dated 6th January 1910, as modified by G.O. No. 885, Educational, dated 15th December 1911, will, as a special case, be raised from Rs. 4,483 to Rs. 7,073.

15TH AUGUST 1913.

[SUBJECT. — *Alteration in the approved estimate for the out-houses attached

The Director's letter may be forwarded to the Public Works Department for remarks as to whether the alterations proposed by Mr. Loam in his note, dated 1st March 1913, are really necessary and should be adopted.

EDUCATIONAL DEPARTMENT.

The excess in the revised, over the original, estimate amounts to Rs. 2,590. Under the rules the school is eligible only for an additional grant of half that amount; but the correspondent applies for the whole of that amount as a grant and the Director of Public Instruction supports the application. The amount of the grant is, however, entirely in the discretion of Government and unless there are special reasons, the proportion is not exceeded. The reason urged in support of a full grant is that the alteration is proposed at this late stage. If the alterations are in the interests of the school, it is not understood why the circumstance of the delay in the suggestion should affect the question of grant. Of the three modifications, the last two at least seem to be very desirable. The question of the financial ability of the management to meet the additional cost is not referred to at all. Though when the grant was originally sanctioned the third grant as the maximum was the rule, it would perhaps be sufficient concession if in respect of the excess cost a half grant (Rs. 1,295) the maximum under existing rules —is sanctioned. It is for consideration what grant should be sanctioned towards the additional cost.
