To The Secretary to the Government of Madras,
Educational ~~Public and Municipal~~ Department.
Sir, Through the Accountant General

I have the honour to request you will be so good as to obtain the sanction of Government for the employment of an additional laboratory attender on Rs.8 per mensem in the Government Training school, Rajahmundry, for a period of one year from 1st August 1913 or until the introduction of a modified scheme for the establishment of model secondary schools whichever is earlier.

2. There is at present one temporary laboratory attender on Rs.8 per mensem in the school whose continuance until the 30th November 1913 was sanctioned in G.O.No. 312 R. Educational, dated 27th September 1912. The Principal reports that at present this attender has to attend to work connected with both Physics and Chemistry and also to the theoretical

and practical classes in the two subjects and that consequent
ly he is not able to do his work satisfactorily as he has
to serve two ^{masters} ~~teachers~~ in different classes. The Principal
considers the employment of a separate attender for the
Chemical laboratory to be absolutely necessary especially
as the work in the Chemical laboratory has grown heavy on
account of the present methods of teaching and a great deal
of inconvenience is caused under the existing arrangement.

3. The charge entailed by the proposal will amount to
Rs.56/- during the current year and I beg to submit the
necessary re-appropriation statement for favour of sanction.

I have the honour to be,

S i r,

Your most obedient servant,

G. Krishnaswami

SUBJECT.

Employment of an additional temporary laboratory attenders in the Govt Training School, Rajahmundry and the further retention of the existing attenders.

Page 5-6 of 7

The D.P.D. requests that the existing temporary attenders in the model school attached to the Govt Training School, Rajahmundry, may be ~~further~~ retained for a further period of one year from 1st December 1913 and that an additional attender may be sanctioned temporarily.

The ~~existing~~ proposal to retain the existing temporary attenders for another year may be sanctioned; but ^{the sanction} whether an additional attender should be sanctioned is for orders. In the model high school

attached to the Teachers' College there are ^{separate} no laboratory attenders; but there are two assistants for the Science laboratory, one a mechanic on Rs. 30-2-40 and ^{the other} an attender on Rs. 12. The mechanic was sanctioned for the Science section of the L. V. class. ~~separately~~ ^{separately} the attenders alone would be available for the model

model high school laboratory. No information is available as to the strength of the Science section in the two institutions to enable a useful comparison. The total strength of the last three forms of the high school in the Teachers College was however only 87 in 1911-12 as against 220 in the Training School, Rajahmundry. The increase in strength apparently affected that of the Science sections also. It is therefore for consideration whether the B.T.S. statement as to the need for an additional attender

may be accepted and the proposal sanctioned.
