Station Madras, Dated the 22nd July 1913.

From (Name) The Hon'ble Sir Alfred Gibbs Bourne, D.Sc.,
F.R.S., K.C.I.E.,
(Designation) Director of Public Instruction.

To the Secretary to the Government of Madras,
EDUCATIONAL ~~Local and Municipal~~ Department.

Sir,

I have the honour to submit herewith two plans and an estimate for Rs.1,700/- for the construction in the -- premises of the Presidency College of a shed to accommodate three motor cars and to request that you will be so good as to obtain the administrative approval of Government for the work.

2. The two plans and the estimate were at first -- returned countersigned to the Superintending Engineer, 5th Circle along with my letter to him No.2557/13 dated 29th April 1913 on the assumption that the administrative -- approval of the Director was sufficient as the estimate, which was the first received in the current official year

in behalf of the above institution, did not exceed Rs.2,500/-.

The Superintending Engineer retransmitted these plans and the estimate to me for obtaining the administrative approval of Government for the work as he considers that under para 674 of the Public Works Department Code the estimate in question must be treated as supplemental to the several estimates aggregating Rs.75,133/- for improvements, still in progress, to the Presidency College sanctioned in G.O's Nos.564-W dated 19th April 1912, 840-W dated 20th June 1912, 21-W dated 3rd January 1913, 65-W dated 7th January 1913, 475-W dated 28th February 1913, and 675-W dated 31st March 1913.

In this connection I beg to bring to the notice of Government that the several estimates for Rs.75,133/- referred to above were for improvements rendered necessary by the reorganisation of the College to teach the new courses. As the present estimates for Rs.1,700/- is for providing motor vehicle accommodation which would have been ^{necessary, whether the Courses had been} altered or not, I beg to request also the orders of Government on the general question whether the Director can sanction supplemental estimates under Rs.2,500/- for works which have no connection -- whatever with those already in progress.

I have the honour to be,

Sir,

Your most obedient servant,

G. Krishnaswami

V.S.

C.No.2283, from the D.P. I., No.3921, dated 22nd July 1913.

Subject.

Construction of a shed in the premises
of the Presidency College for the
accommodation of motor cars.

Under Article 674 of the Public Works Code
"any development of a project thought necessary
while a work is in progress, which is not fairly
contingent on the proper execution of the work
as first sanctioned, must be covered by a sup-
plemental estimate". The work in the present
case cannot be said to be contingent on the
execution of the work already sanctioned, and
consequently must be covered by a supplemental
estimate. As various other pieces of work are
actually "in progress" in respect of the same
building this estimate should be treated as
supplemental to others, and ^{not} regarded as a sepa-
rate unit for purposes of administrative sanc-
tion. The fact that the work proposed has no
connection with the others in progress does not
seem to affect the point.

2. The work proposed seems necessary and
may be administratively approved and file
transferred to P.W.D.

3. When final orders are passed on the
estimates the D.P.I. may be asked to include
the present estimate in the consolidated estimates
called for in Memo.No.1063-2, dated 21st May
1913.

I don't agree with paras. 1 and 3 above. Think the D.P.I.'s who might visit the Sub. Eng. might have carried out the work on the D.P.I.'s counterintelligence. Bill D.P.I. Please advise?

The estimate of Rs. 1700 is the first idea of expenditure proposed in behalf of the Prudential College during the current official year, and need not therefore be treated as supplemental to the any major work in progress. vide Corr 1579 w of 6.8.1913. With reference to this sheet was issued my letter recently of the S.E. Dept. will doubtless not require the sanction of Govt. With this information, the file may be returned to Es!
