To the Secretary to the Government of Madras,
Educational Department

Sir,

I have the honour to submit the enclosed plans
with estimates amounting to Rs. 21,042 for the construction
of a building for the Islamiah Secondary School, Trichinopoly
and to recommend that a grant of Rs. 10,521 may be sanctioned
to be paid when funds are available.

2. The original plans were defective in many respects
and the estimate rather high. They have been revised
in accordance with the Director's suggestions.

3. The school has no good building of its own except
a small tiled hall. Most of the classes are now held in
thatched sheds which are unsuitable for Educational purposes.

I have the honour to be,
Sir,
Your most obedient servant,

For Director of Public Instruction.

NOTE BY THE CHIEF ENGINEER, P.W.D. No. 6712/3157-12

The Director of Public Instruction submits for sanction an estimate amounting to Rs.21,042-12-9 with plans for constructing a building for Islamiah Secondary School at Trichinopoly.

II. The plans and estimate have been scrutinised in the Chief Engineer's office and the following alterations have been made:-

(1) Rearranging rolled steel joists in the front rooms at sides of the main hall instead of making them rest over door ways.

(2) Alteration in the scantlings of roof timbers and sizes of rolled steel joists as shewn below.

Front verandah joists from 3" x 5" to 2" x 7"

End rooms (wings) -do- from 3" x 5" to 3" x 9"

Front & rear rooms, -do- from 3" x 5" to 2½" x 8"

Common rafters (verandah) from 3" x 5" to 2" x 5½"

--do-- (main roof) from 3" x 5" to 2" x 3½"

Ridge piece -do- from 3" x 7" to 2½" x 8"

Rolled steel joists (Rooms at sides of hall)
from 14" x 6" @ 54 lbs to 15" x 6" @ 59 lbs
per ft.

--do-- in other rooms and for supporting the
iron trusses from 14" x 6" @ 54 lbs to
14" x 6" @ 57 lbs per ft.

T-iron struts of the truss- from 2½" x 2½" x ¼"
to 2½" x 2½" x ⅜".

(3) Providing wall purlins and cross beams in verandahs.

(4) Omission of wall plates for bearings of joists.

By these alterations the estimate has been increased from Rs.21,042-12-9 to Rs.22,000.

III. The present site consisting of 'made earth' should be abandoned and a better site selected. The height of the plinth might be considerably reduced.

3/ 4

IV. The capitals at the springing levels of arches should be of stone projecting equally on all the four sides of the piers on which they rest, and the arches, unless built of stone, should spring from the top of the capitals at a tangent to the outline of the supporting pier or column produced the Moorish horse-shoe form of arch shown being structurally unsuited to brickwork. The eaves boards shewn in plan are not provided for in the estimate. Ventek should not be used; Karamaradu or any other wood specified in Cir. Memo No. 2040 C dated 27-4-09 as applicable to table I of Cir. Memo No. 234 C dated 9-1-08 should be used in its place.

It is recommended that the Mangalore tiles for the roof should be fixed in mortar over flat tiles, in which case the spacings of the rafters should be 1'-6". The walls of the latrine if constructed of brickwork must be at least 9" thick.

With these remarks the estimate as altered by the Chief Engineer amounting to Rs. 22,000 is recommended for sanction.

Memo. 1606-28/8.12

With reference to his letter
Roc no. 6573 of 4th June 1912
recommending the payment of a grant
of Rs 10,521 to the Islamiah Secondary
school, Trichinopoly, the D.P.D. is
informed that the present site con-
sisting of "made earth" has been
condemned by the Chief Engineer, M.S.,
who suggests that it should be
abandoned and a better site selected.

2. The D.P.D. is requested to call on
the school authorities to select a
better site and to report the nature
of its soil and subsoil. It should
also be reported whether the fresh
site selected will admit of a building
being constructed thereon in accordance
with the plans already prepared.
If not, revised plans and estimates
should be obtained and submitted.

S i r,

With reference to your Memorandum No. 1606-2, dated 1st August 1912 requesting to call on the authorities of the Islamiah Secondary school, Trichinopoly, to select a better site for their school building, I have the honour to state that the management appears to be quite indifferent about the matter and that no reply has been received from them in spite of reminders issued by this office and by the Inspector. I therefore recommend that the application may be considered to have been withdrawn.

Trichinopoly, 25.3.1912.

27 MAR 1912

Your Excellency

During Your Excellency's visit to Trichinopoly you were pleased to evince much interest in the Local Islamiah Secondary School & promised to sanction half building grant towards the cost of the proposed building for the school. I therefore venture to submit that a revised estimate & plan are ready for submission through the Educational Deptt. The cost of the building comes Rs 20000. Your Lordship may therefore be pleased to learn a note so that the members in charge may ^{favorably} view the question of sanctioning half the amount.

The other subject I then placed for your Lordship's favorable consideration was the paucity of Muhammadans in the Judicial Deptt which was once

managed by Muslim Magistrates, Sadras, Amirs & Principal Sadras Amirs. Your Lordship fully realized the situation & promised to mind matters on the recommendation of the High Court. I now understand that a Sub Judge is to fall vacant. May I venture to suggest the name of Khan Bahadur Mirza Ghouseman Sahib for the place? Should Your Lordship be pleased to effect the said appointment & see your way to appoint some Muhammadan Sub-judge before the end of Your Lordship's departure, your name will ever be remembered by the Muhammadans of this Presidency.

Thanking Your Excellency in anticipation & praying for Your Excellency's long life & continued prosperity.
