EDUCATIONAL DEPARTMENT.

It seems better to dispose of this question in advance of the other improvements to the College suggested in the main file, in respect of which no immediate action is possible pending further report from the Director of Public Instruction. The Director recommends the payment of grant in the present case but does not specify the source from which it has to be met. He may now be definitely asked to state whether he can find the required funds from the Imperial grant. The matter is

stated to be urgent as the University is pressing for the early execution of the work. The Secretary has noted in the main file that the Council should not be urged to spend any more of its money on the College at present.
