From (Name) The Hon Mr J.H. Stone, M.A., F.R.H.S., C.I.E.

(Designation) Director of Public Instruction.

To The Secretary to the Government of Madras,
Educational Department.

Sir,

I have the honour to submit proposals for the installation of electric plant and fittings in connection with the Government College, Kumbakonam. Under rule 4 (k) of G.O. No. 548 Financial, dated 12th August 1913 prescribing rules for the supply of articles for the public service, plant and materials for small gas installations the cost of which does not exceed Rs. 15,000/- should be purchased in India. The Principal of the Government College, Kumbakonam, was requested to obtain estimates for the proposed work. The estimates received from the following three ^{firms} officers are herewith.

submitted:-

(1) Messrs Siemens Brothers.	Rs, 6,445
(2) Messrs Crompton and Co.,	" 6,855
(3) Messrs Mansfield and Sons	" 8,800

Mr. Jones, Professor of Physics, Presidency College, to whom these estimates were referred, prefers Messrs Compton's estimate vide copy of his note herein enclosed. I therefore recommend that the estimate of Messrs Crompton and Co may be accepted and request that you will be good enough to obtain the sanction of Government for the proposed expenditure. The amount may be met from the provision of Rs. 17,000/- in the current year's budget for the Physics Classes of the Kumbakonam College.

Early orders are requested on this reference, since the installation is a matter of some urgency in view of the proposal to affiliate this college to the University of Madras in Group 11-A of the B.A degree examination.

I have the honour to be,

Sir,

Your most obedient servant,

M. S. V.

OPINION OF THE PROFESSOR OF PHYSICS ON THE ESTIMATES FOR THE
SUPPLY OF ELECTRIC PLANTS AND FITTINGS FOR KUMBAKONAM COLLEGE.

--oOo--

"I prefer Crompton's estimate. The Volts are better adapted especially towards the end of the charge and there seems a bigger margin than the first. The cost is slightly greater but the margin is well worth it".

The Electric Inspector to Govt is of opinion that the estimate of Messrs Crompton is quite in order, is preferable to the other two, and may be accepted. It is presumed that the Principal of the college and not the PWD will supervise the carrying out of the work; but it is suggested that the contractors be informed that the work should conform to the Government specifications for

for electrical work and will be inspected once during erection and once finally by the Electric Inspector.
