Station Madras , Dated the 7 th January 1915From (Name) The Hon. Mr. J.H. Stone, M.A. F.R.H.S.C.I.E(Designation) Director of Public Instruction.

To The Secretary to the Government of Madras,
E d u c a t i o n a l Department.

Sir,

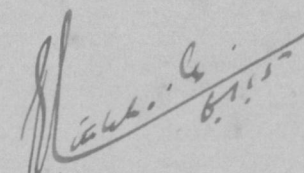

Y A grant of Rs.16,039/- was sanctioned in G.O.No. 305 Edl., dated 19th March 1914 towards the cost of providing additional accommodation for the physical and chemical laboratories of the Maharajah's College, Vizianagaram. The management now propose to make certain deviations in the approved plan. The nature of the proposed deviations is explained in the Principal's letters No. 65, dated 14th August 1914 and No. 208, dated 26th November 1914 (copies enclosed). No additional grant is asked for on this account and I have the honour to recommend that the proposal may be approved.

2. The plan of the physical laboratory is herewith submitted.

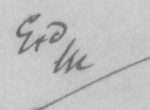

I have the honour to be,

S i r, -

your most obedient servant,

for Director of Public Instruction.

14th August 1914.

To

The Director of Public Instruction,

M a d r a s.

S i r,

I have the honour to state that the Chief Lecturer in Science in our College requests that three additional windows may be opened in the Physical Laboratory two in the accumulator room and one in the Machinery room. Secondly, he also requests that the depth of the three windows provided for the dark room may be increased from four and a half feet to six feet. Thirdly and lastly, he requests that the floors of the Laboratories be paved with stone instead of concrete.

Copies of the Chief Lecturer's letters giving his reasons for the alterations suggested are enclosed.

I request you will be pleased to sanction the alterations and shall be grateful if early orders are passed as the walls will reach the level at which the additional windows have to be opened in about fifteen days' time.

The copy of the plan of the Physical Laboratory sent herewith may be returned. The probable cost of the three additional windows will not be more than Rs.150/-

I have the honour etc.,

/Sd/ K. Ramanujachari,

P r i n c i p a l.

To

The Director of Public Instruction,

M a d r a s.

S i r,

Adverting to your Proceedings No. 5583/13, dated the 10th instant, I have the honour to report that it is proposed to increase the height of the windows in the dark room with a view to ensure good ventilation. This object is attained by fixing ~~pieces~~ of plank shaped like $\wedge$ (inverted $\vee$) in the upper halves of the windows, while at the same time this arrangement will exclude light. With the size originally sanctioned it is not practicable to devise any method for ensuring the ventilation of the room. In this connection I may state that the windows in the dark room recently constructed for the Rajahmundry College laboratory are, I am informed, $9\frac{1}{2}$ feet high each. I therefore believe that the height of six feet proposed in my last letter is not more than what is absolutely necessary. I request that you will be pleased to accord your sanction at an early date.

The copy of the plan of the Physical Laboratory forwarded to me is retur
