To

The Chief Secretary, Government,

Sir,

I have read in the papers that Mr. Allen Guthrie leather expert Government of Madras has gone to the war. If his post falls vacant temporarily or permanently, please consider me a candidate.

As regards my qualifications I beg to add that I am a graduate of the English University and hold certificates for the Degree of Bachelor of Science and diploma in leather manufacture from the University of Leeds. After completing the Degree course, I carried out researches for a year under professor Proctor for Chrome and Vegetable tanning. The results of my experiments were published by Mr. M.C. Lamb of Leather Sellers' Institute, London, and my new method of extracting Chromium in Chrome liquor appeared in the Leather Trades Review. I have shown that action of Bichromate on Hypo in presence of acids depends on different conditions and that a particular reaction greatly influences the quality of leather. In the final examination of the laboratory work I secured a very high opinion of professor Proctor. I am acquainted with the leather forming value of all kinds of tanning materials used in Indian tanneries and by means of chemical tests I can detect even a trace of an adulterant used sometimes in Madras, which deteriorates the quality of leather. I am desirous of undertaking any kind of work connected with leather manufacture.

I have been managing the Utkal Tannery for four years and half. The firm is owned by the Hon'ble V.S. Das C.I.E.

Hon'ble M.S.Das C.I.E., a member of the Supreme Council and undertakes a large Government orders evry year. We have also supplied goods to the Ceylon Government to their entire satisfaction.

I beg to enclose herein a few copies of testimonials.
