The Assistant Inspectress of Schools,

Madras Girls' Range, M A D R A S.

Honourable Sir,

In continuation of my letter, dated 19th instant, to the Assistant Inspectress of Schools, Madras Girls' Range, I am desired by the Society for Advancing Female Education in Southern India, Madras, to submit, for your kind and favourable consideration, that the division of the whole area, from which the pupils of the Government Muhammadan Girls' School, Mylapore, are drawn is not

the division was to be approximately made into two equal portions as will be seen from below:--

two equal portions -

p 29/80 No 1052 vol 2.

The divisions made are as under:--

9.9 14

(a) The whole of Mylapore and Kesava vadi in Royapettah -- assigned to the school, and

(b) The rest of Royapettah and the whole of Triplicane assigned to the Society.

3. Our reasons for protest may be stated briefly as under:--

(i) The area of Mylapore, from which the pupils are drawn,

is comprised of the following:--

Mahadevaperumal Covil Street, where the school is located.

Tallari Street, North East of the above

Padsha's Garden, South East " "

Labbay Street, South West " "

Lal Miyan's Dewdi, South " "

All these streets are within half a furlong from the school premises.

(ii) Kesavadi is one of the streets in Royapettah at a mile distance from the school premises.

4. Carts which are engaged for the school use are, as a rule, taken from Royapettah which stands in the centre of the area from which the pupils are drawn and, therefore, one of these carts, while passing from Royapettah, conveys the pupils from Kesavadi before it begins its work at Mylapore.

5. From the above, the following facts may be observed:--

(i) that the area assigned under (a) division extends from Kesavadi in the North to Lal Miyan's Dewdi in the South and from the Padsha's Garden in the East to the Labbay Street in the West, covering on the whole less than 12 furlongs by 2 furlongs.

(ii) that one cart at the cost of Rs.20, and not Rs.40 as now sanctioned, is enough to convey, in three trips, the girls drawn from the area under (a) assigned to the school, as is practically done.

6. The Society are prepared to show from the sworn depositions of the persons actually concerned, that the Educational authorities have been entirely misled in assigning a smaller area to the school and raising the Government contribution from Rs.30 to Rs.40 for proportionately much less work than before.

7. The rest of Royapettah and the whole of Triplicane, for all our purposes, comprise the following area:--

I. Royapettah and Battery

Thousand Lights Road.
 Hall's ~~House~~ Garden.
 Labbay Bid (Bangla Galli).
 Bandi Mot - Peter's Road.
 Hussamul Mulk's tank.
 Maslakh (Slaughter House).
 Percheri Street (Battery).
 Elephants Tank (Ice House Road).

II. Triplicane, South West

Kanchan Wara.
 Jani Jahan Khan Road.

III. Mount Road

Raske Iram (Pater's Garden).
 Supiyari Guntha (Mount Road).

IV. Triplicane High Road, West

Chetty's Garden.
 Kimiyagar's Street.

V. Chepauk

Small Mosque.
 Shakro's Gardens.

VI. Jhanda Stand

Naya Bazar.

8. From the above, it may be seen:--

(1) that the area under (b) assigned to the Society extends from the Thousand Lights in the West to Chepauk in the East and from the Walaiah Road in the North to Mylapore in the South, the whole covering more than 8 furlongs by 16 furlongs.

(11) that to convey the girls from this area, 2 carts with 2 trips each, are, at least, necessary, as is practically the case.

9. Areas under (a) and (b), assigned to the school and the Society may roughly be compared as under:--

12 x 2 x 3	:	8 x 16 x 2
or 9	:	32
or 1	:	4 nearly

and the carts required for the purpose may, therefore, be ---

School : Society :: 2 : 7

10 The above comparison, however, shows that the division made by the authorities is not in justification of the cart expenses undertaken by Government and Society half in half.

11. In the light of the above observations, I have the honor to request that should the Government still hold the division equitable, in spite of its being against the long existing practice, the Society may kindly be given the choice of undertaking the supply of carts for the area under (a).

To The Secretary to the Government of Madras,
EDUCATIONAL Department

Sir,

In returning herewith the enclosure to Government Memorandum No. 3568-1 Educational, dated 10th December 1914, I have the honour to make the following remarks :--

(R)

In my letter to Government R.C. No. 6528/14., dated 11th August 1914 read in G.O. No. 1052 Edl., dated 9th September 1914, I explained the circumstances necessitating the arrangement to which the communication under reference relates. The idea was to divide the area from which the pupils of the Government Muhammadan Girls' School at Mylapore are

129

7 8

are drawn into two approximately equal portions for the purpose of conveying children to the school and to assign one to the Society in question and the other to the school. The Inspectress of Girls' Schools, Central Circle, reports that out of the 85 pupils attending the school 38 come from the area assigned to the school and 47 from that assigned to the Society. But she is informed by the Sub Assistant Inspector of Schools, Madras Muhammadan Range, who is thoroughly conversant with the locality and from whom the Inspectress called for a report on the Secretary's present communication, that such parents as are sending their girls from Chepauk, Triplicane, Mount Road and Royapettah to the school at Mylapore may be doing so because they are made to believe that this school is under the special supervision of the Secretary of the Society. Miss Lynch considers, and I agree with her, that there is no necessity for inducing gosha girls from such long distances to go all the way to Mylapore, having regard to the existence of the Hobart Training School at Royapettah and of the C. M. S. Schools for Muhammadan Girls at Triplicane and Chepauk. Some inequality in the divisions is perhaps inevitable, but this can be considerably lessened by restricting admission to the school to pupils resident at and in the neighbourhood of Mylapore. I have accordingly directed the Inspectress to define the area from which the pupils may be reasonably expected to attend the Mylapore School rather than the Hobart and other schools, as that portion of the City south of ~~the~~ Peter's Road and the Ice House Road -- a division suggested by the Sub Assistant Inspector of Schools, Madras Muhammadan Range. There is no reason why Government should accept any responsibility, direct or indirect, for the conveyance of pupils from localities not included in this area.

I have the honour to be,
S i r,
Your most obedient servant,

for Director of Public Instruction.
