44. (a) Will Government be pleased
to direct the Industrial Department
to issue bulletins regarding the
various industrial enterprises, dis-
cussing the relative merits of
various machinery and recommending
the use of particular oil or steam
engines and particular kinds of
machinery for various industries,
with an estimated cost of each
installation, to enable the public
to go in for the best and approved
machinery?

(b) Will Government be pleased
to publish in book form all the
bulletins hitherto issued by the
Agricultural Department and distri-
bute the same gratis or sell them at
at cost price?

Educational Department.

At the meeting of the Legislative Council held in November last, a resolution was brought forward by the Honble Mr. K.R. Krishna Rao urging that the Bureau of Industrial Information should be developed on the lines of the Board of Trade in other countries & that the Bureau should issue bulletins explaining the process of manufacture of articles made in other countries from ^{raw} materials exported from India. This resolution was accepted in principle by the Govt.

2. The Honble Mr. Ahmed Jambhi Narayana requests that the Department of Industries should ~~be~~ issue bulletins regarding the relative merits of ~~various~~ various types of machinery ~~for~~ used in industrial concerns and recommending the use of particular types of machinery. The imparting of advice in regard to machinery required for industrial installations has long been one of the functions of the Department and this has ~~been~~ been availed of to a large extent in the Pumping & Boring sections. ^(last year) The Director of Industries ~~recently~~ brought to notice that this function

function could not be efficiently performed for want of a testing machine and the Govt. have recently sanctioned the purchase of this machine also.

3. The Director will thus be able to furnish information regarding machinery as suggested by the additional member. As a matter of fact, the special notes on the development of industries, recently prepared by the Director and placed on the Editors' Table, contain in a measure the sort of information desired. Probably, if further investigations are carried out, the notes issued on their result may contain more detailed information. Apparently, the information of the kind referred to in the question is already given to individual enquirers, but the publication of a bulletin is a harder task & should be a comprehensive one ~~covering~~ ^{covering} several cases & such will obviously only be possible when several smaller & individual investigations have been made. These will be done by the Dept. in the usual course when all the preliminaries have been arranged for & work has settled down & has been systematized. It is therefore for consideration whether the Addl. Member

member may be merely told with reference to clause (a) that

"The matter ~~is~~ ^{is} receiving consideration ~~in the course~~"

4. As the question concerns the Pumping & Booring Section also, the Revenue Dept. may also be consulted as to whether they agree to the proposed answer.

Colno 198-1
21.1.15

I take it this note refers only to clause (a) of the question; I am dealing separately with clause (b). — So far as the Pumping and Booring section is concerned, I do not think it is correct to say that the matter is receiving consideration, unless Educational are now working out a scheme for the creation of a Bureau of Industrial Information which will cover pumping & booring development. Revenue are not now examining any thing of the sort. For that reason, I shd. prefer to say "The matter will receive consideration in connection with the proposed creation & development of a Bureau of Industrial Information".

Rev. as. 1700

Educ. Dept.

22.1.15

Educational Depart

The Bureau of Industrial Information, even as at present constituted, deals with the operations of the Pumping & Boring ~~Department~~ ^{Section}. The test plant, when purchased, will deal ~~with~~ (largely) with applications coming under that section. The proposals for the development of the Bureau will therefore cover the pumping & boring development also. In view of the Rev. Department's suggestion, the answer may perhaps be as follows:—

"The matter will receive consideration in connection with the proposed development of the Bureau of Industrial Information."

* The Bureau does not at present work on a small scale.

The Bureau is then, to a great extent, a matter for development, not immediate.

26.1.15

The question + answer in their final form
was as follow: -

Publication of
industrial and
agricultural
bulletins.

53 Q.—(a) Will Government be pleased to direct the Industrial department to issue bulletins regarding the various industrial enterprises, discussing the relative merits of various machinery and recommending the use of particular oil or steam engines and particular kinds of machinery for various industries, with an estimated cost of each installation, to enable the public to go in for the best and approved machinery?

(b) Will Government be pleased to publish in book form all the bulletins hitherto issued by the Agricultural department and distribute the same gratis or sell them at cost price?

53 A.—(a) The matter will receive consideration in connection with the Bureau of Industrial Information.

(b) Five kinds of publications are issued by the Agricultural department, viz., (i) books, (ii) annual reports, (iii) bulletins on particular subjects, (iv) leaflets on matters of agricultural interest and (v) the Agricultural Calendar.

The first three are printed in English and are issued at cost price. Leaflets are issued in English and in the vernacular languages and are distributed free of cost. The Agricultural Calendar is issued in vernaculars and very widely distributed; it is also on sale at railway bookstalls and elsewhere.

Lists of publications by the department are given in the Calendar and can also be obtained on application from agricultural officers, while bound copies of the bulletins can be procured on application to the Director of Agriculture, Chepauk, Madras, on payment of the cost price of publication and binding charges.

A draft order recording these papers
is placed below for approval. Copy of the
8K Question + answer will be forwarded to the Director of
Industries.
