ORDINARY MS.

G.O., No. 12280 Cms

DATED 9.2.1915.

[Despatch Abstract.]

Leg Council

Recording office notes Council
 write the question of re: the no. of Elementary
 Schools and Elementary school buildings for
 boys and girls in each D. asked for by the
 Hon'ble Mr. A. S. Krishna Rao at the meeting
 of the — held on the 2nd Feb 1915

CN 98

#25.1.15

The Hon'ble Mr. A.S. Krishna Rao :

Educational Department.

QUESTION.—No. 4

4. Will the Government be pleased

Council to be held on the to state — 1915.

(1) the number of elementary schools

Submitted that two (a) for boys and (b) for girls opened

in each district in 1912-13 and 1913-14

and regulating Secretariat procedure in dealing with these Questions in the Legislative

Council. Orders regarding admission (2) the number of elementary school

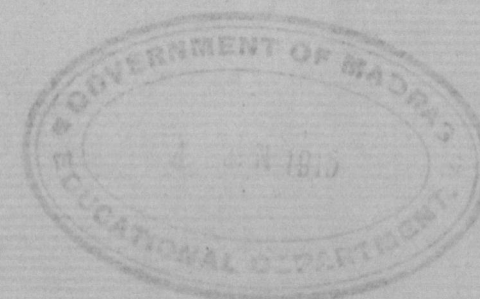

buildings (a) for boys and (b) for girls

constructed in each district in 1912-13

and 1913-14 ?

A.1.15

To the Educational Department
with 2 copies of Question No. 4

The Hon'ble Mr. A. R. Krishnam Rao :

Educational Department.

to state —
(1) the number of elementary schools
(a) for boys and (b) for girls opened
in each district in 1913-14 and 1914-15
and
(2) the number of elementary school
buildings (a) for boys and (b) for girls
constructed in each district in 1913-14
and 1914-15 ?

VERY URGENT.

QUESTION.—No. 4

for the meeting of the Legislative

Council to be held on the 2nd February 1915.

SUBMITTED that two copies of this Question may be forwarded to the
Educational Department with reference to Nos. (1) and (4) of the rules
regulating Secretariat procedure in dealing with these Questions in the Legislative
Council. Orders regarding admission will be communicated in due course.

Exo. No. 6 of 9.1.15

The Tables placed below give such information as I can furnish. The particulars for each district are not available for the year 12-13 as the annual returns and worksheets for that year have been destroyed in ordinary course.

The number of school buildings in that constructed under public management, we have no information as to the others.

15. 1. 15

For the Secretary.

With reference to H.E. the Governor's note it is submitted that in regard to the number of schools opened & buildings constructed by public bodies in 1912-13 detailed figures are not available. The totals are, however, available & these have been entered in the statement furnished by the D.P.I. 2. As regard elementary school buildings constructed by other than public bodies, the D.P.I. has stated that figures are not available ~~either~~ for (even in totals) for either of the years. It is, however, submitted that from statements Nos 5-1 & 6 ~~found~~ in Vol II of the Public Instruction Report for 1913-14 ~~the~~ which give the number of schools provided with buildings of their own in the year & the number for which buildings were constructed by the public bodies, ^{respectively,} the number of schools for which ~~for~~ buildings were provided by ~~the~~ other than public bodies ^{in that year} may be worked out. But ~~similar~~ ^{these} statements in the report for 1912-13 do not enable a similar calculation to be made as ~~the result~~ it results in a ^{minus} ~~negative~~ figure. The D.P.I. office says

pages 64 & 68 of Vol II of the Public Instruction Report for 1913-14.

Please see work sheet (T)

Stat Nos 5-1 & 6, page 64 of Vol II for 1912-13.

Please (T)

See Tel. message
at ③

that this is due to the fact that in this calculation it has to be assumed that no school which has a building of its own loses recognition in the year that this assumption is not correct. It is not therefore possible to work out the figures from the returns. It is for orders whether the D.P.I. should be consulted in the matter further.

Tel. message ⑤

22.1.15

I have sent to all workintakes telephone message. The point is that the schools that have private buildings in one year are not necessarily the same as those that had them in the previous year, and no method of subtraction will give with certainty the number added in any particular year. Workintakes, variations are cause of this others are - voluntary closure of schools, longproportion, transfer of locality of schools, destruction of new built school houses by rain & floods.

I will call for such returns in future as will show the net gain of school buildings in any year so that we may be able to judge the rate of progress in their provision. Meanwhile the answer will have to be that we have not got the figures.

The Supt. Ed. Dept.

Is

The P. A. to the D. P. I.

Please see the D. P. I.'s note ~~about~~ No. 6 dated the 9th January 1915. It is stated therein that the Dept has no information as to the number of ^{elementary} school buildings constructed by other than public bodies.

Supplemental Statistics in the Pub. Inst. Report Vol. II, ~~give~~ furnish information as to the ^{total} no. of schools provided with buildings of their own in each year (viz. Stat. No. 51 in the report for 1914).

Please say if this is reduced by the no. of schools for which buildings were constructed by public bodies may not be taken to ~~be~~ indicate the ^{total} no. of schools for

VF

57.

which buildings were provided by other than public bodies. This system seems to lend itself for working out the figure for 1913-14 but a corresponding calculation does not seem possible for 1912-13. Will you please say whether there is any mistake in the figures given in the table for 1912-13. It is requested that this message may be treated as specially urgent.

The Supdt. Ed.

Ref: your telephonic message of today dated 16.1.15 re: construction of elementary school buildings.

It might appear that the required figures could be obtained from Statement 1 + 60 of Volume II of the Public Instruction Report for 1913-14 as follows: Public Elementary School for Boys building buildings of their own in 1913-14 = 10348.

Do _____ in 1912-13 = 9794.
Total no. of buildings constructed = 20142.

C.F. 271.

OFFICE OF THE

Dated _____ 191 .
Hours _____ Minutes.

TELEPHONIC MESSAGE.

From

Managements of all Classes Elementary schools for boys = 534.

To No. of buildings constructed by local authorities during the year = 115.

Therefore the no. of buildings purchased or built during the year for schools under private management = 419.

This method however assumes that no school which had a building of its own loses recognition during the year, which assumption does not appear to be correct. Since the corresponding figures in the instruction report for 1912-13 give a negative result when a similar calculation to the above is made, there appears to be no error in the figures for 1912-13.
