(Designation) Director of Public Instruction.

To The Secretary to the Government of Madras,
 Educational Department.
 /Through the Accountant General/
 Sir,

I have the honour to request that you will be so good as to obtain the sanction of Government for the employment for a period of one year from 1st July 1916 of an additional demonstrator on Rs.50 per mensem in the Government College, Rajahmundry.

There are at present in the College one lecturer and two Assistant lecturers for Science besides a temporary demonstrator on Rs.50 per mensem whose retention until the 30th June 1916 was sanctioned in G.O.No. 652 Mis., Edl., dated 15th June 1915. It will be observed from the Director's letter R.C.No. 1562 dated 9th September 1911 on which orders

N
 were passed in G.O.No. 690 Mis., Edl., dated 28th September 1911 that this temporary demonstrator was sanctioned for the reasons that it was remarked by the University Commission that a demonstrator in Physics would be required when all the practical classes were at work in the College in 1912 and that as the Principal then stated that it would be impossible for one lecturer to supervise the work of the four University classes with 20 or 25 students in each.

The Principal now strongly urges the necessity for the employment of an additional temporary demonstrator on Rs.50 per mensem. It is stated that in Group I the Senior Intermediate class is 58 strong and the Junior Intermediate 40, that for want of accommodation each of the classes has to be worked in two batches -- one batch being engaged in Chemistry while the other is engaged in Physics practical work -- that there are thus four practical classes at work for Intermediate students alone, each class being 29 strong in the Senior and 20 in the Junior, working two hours at a stretch, and that for effective supervision it is necessary that there should be a demonstrator to help the Lecturer in each of the two practical classes. Besides these there are the third year and fourth year Science classes with a strength of 20 (Eight Physics and Twelve Mathematics) and 23 (Ten Physics and 13 Mathematics) respectively. The Principal states that it will not be possible to have two batches of science students in the Intermediate classes in future unless another demonstrator is sanctioned and that he will not be able to admit more than 20 students into the science class next year, which he says, will be a serious disappointment to the College and to the public. I submit herewith a copy of the time-table of the Science work in the College obtained from the Principal from which it will be observed that with double batches of students now working it will be desirable to have two demonstrators -- one for

Physics and the other for Chemistry. The time table indicates that Chemistry is rather neglected at present relative to Physics and the additional demonstrator proposed would be attached to the Chemistry department of the College.

I beg to add that the need for demonstrators in the college with its present time table and numbers of students is as great as it is at the Presidency College.

The proposal if sanctioned may have effect from 1st July 1916 and I request that the necessary provision may be made in the Budget estimates for 1916-17 now with the Government.

I have the honour to be,

S i r

Your most obedient servant,

P.V.S.

for Director of Public Instruction.

SUBJECT. Employment of an additional temporary demonstrator in the Govt. College, Raghunundry

From The D.P.D. no 6199/15 d 7. 10. 15

Register No. 3674 Sol

The present staff for teaching Science (Physics and Chemistry) at the Raghunundry College consists of a lecturer in the P.E.S., two Assistant lecturers in the S.E.S., and a temporary demonstrator at Rs. 50 per mensem. The D.P.D. now solicits the sanction of Govt. for the employment of another temporary demonstrator at Rs. 50 per mensem for a period of one year from the 1st July 1916 for the reasons that the strength of the College is rising and that it is not ^{at present} possible to exercise effective supervision over the students ~~work~~ during practical work.

2. The Director appears to have made out a good case.

The following statement shows the strength in the various classes ^(semi) ^{at present}

Year.	Group I - Intermediate		Group II - A		Total
	Junior	Senior	Junior	Senior	
1912-13	32	31	4	2	9 85
1913-14	44	44	7	4	5 9 113
1914-15	39	55	12	9	6 9 130
at present	40	58	12	13	8 10 141
