with Q. 91

Leg no 1304
20.1.15

The Hon'ble Shifa-ul-Mulk T. Zainulabidin Sahib, Bahadur.

EDUCATIONAL DEPARTMENT.

91. As the proportion of Muhammadan officers in the Provincial Educational Service is smaller than that in the corresponding grades of other departments will the Government be pleased to rectify this disproportion ?

Educational Department

The following Statement shows the number of posts in the various departments of the Govt. corresponding to the Provincial Educational Service and the number of muhammadians employed therein: -

Post	Total number	No. of muhammadians
Deputy Collectors	147	15.
Extra Deputy & Assistant Commissioners	38	2
Salt Assistant Commissioners (all grades) and Inspectors	97	3
Superintendents of post offices & head post masters	35	3.
Sub-judges and District Munsifs	149	2
District Registrars	21	3.
Dy. Superds of Police	40	7
Assistant Engineers and Sub. Engineers	109	"
Provincial Educational Service	42	2

From the above, it will be seen that the proportion of muhammadians in the P. E. S. is smaller than that in the case of deputy collectors, and the postal, post office registration and police departments but larger than that in the Salt & judicial departments. There are no muhammadians at all in the P. W. D. ~~There does not therefore seem to be much ground for complaint at the want of the P. E. S.~~

2. The absence of ^{more} muhammadians in the P. E. S. appears to be mainly due to the want of suitable ~~persons~~ candidates. ~~This is because the posts that are open to muhammadians are not~~

22-1-15

It is submitted that the following answer may be given:—

"If suitable candidates offer themselves, their ~~question of appointing~~ claims will be duly considered"
The D.P.I. may perhaps see the answer too.

See C.A.
21.1.15

Will the D.P.I. please advise? I do not see how we can undertake ^{to work in} a certain proportion of Nubians. There is a difference also the position of fitness.

We inform that Nubians are not encouraged in the Education Department, is of course an entire delusion of the small number that take degrees ^{mostly} in other departments. I had a graduate lately trained ^{as a teacher} in the Teachers Course. He went off to the Salt Pits. I think immediately after training. There are one or two Nubians coming on who will in due course I hope reach the P.I. Service but we can't ^{possibly} provide for them.

their turn because they are human and are.

I think the proposed answer with the same party will
understand, should think it worth while to explain
the situation more in detail.

The question as altered is being entered in the agenda paper and, in the absence of any intimation from you to the contrary, it will be assumed that you accept the alterations.

Yours sincerely,

The question has since been altered ~~as shown~~
so as to ~~require~~ ^{require} an answer to the first
part also. As regards the answer already proposed
for the latter part, the Director thinks that it
meets the case pretty well, unless ^{the} Govt should
think it worth while to explain the scheme more
in detail. The following ~~alternative~~ answers
are submitted:—

" The proportion of Muhammadians in the Provincial
Educational Service is smaller than that in some
other departments and larger than that in a few
others. When suitable candidates offer themselves,
their claims ~~will be~~ ^{are} duly considered "

or

" The proportion of Muhammadians in the Provincial
Educational Service is smaller than that in some
other departments and larger than that in ~~some~~
others. Of the small number of Muhammadians
that take degrees, practically all prefer other
departments. There are a few Muhammadians
in the subordinate educational service who will, in
due course, be promoted to the Provincial Educational
Service. When suitable candidates offer themselves,
their claims are duly considered "

25/11/15 The following answer

Very brief. It closely follows
the D. P. I. note:—

The proportion of Melanesian
officers in the Provincial Education
Dept is smaller than that in some
~~other~~ departments and larger than
that in ~~many~~ others. The D. P. I.
reports that, of the small number of
Melanesians who take degrees, practically
all prefer other departments to the
Educational. There are a few
Melanesians in the Administrative
Service who with it is hoped, rise in
due course to the Provincial level.

61 A.—The proportion of Muhammadan officers in the Provincial Educational department is smaller than that in some departments and larger than that in others. The Director of Public Instruction reports that, of the small number of Muhammadans who take degrees, practically all prefer other departments to the Educational. There are a few Muhammadans in the Subordinate service who will, it is hoped, rise in due course to the Provincial service.
