The Handle: Mr. Kanwa

Ayangar has on former occasion been furnished with teaching lists of teaching and other grants paid to schools in certain specified districts. There seems therefore to be no objection in complying with his request on the present occasion also. But the ^{whole of the} ^(want) information is not available in the office.

It has therefore to be obtained from the D. P. O's office. From the subsidiary tables already with foot, only the following information could be gathered:—

Secondary Schools Separate figures as regards the number, strength & teaching staff to mission & non-mission schools separately can be compiled.

Separate figures for furniture & building grants for mission & non mission schools are not available in the Secret.

Red P.D can furnish them.

(It put up with a degree of. Red P.D. which has gone in care to H.E. the Govt. this morning)

Elementary schools.

Figures showing the number & strength of mission & non mission schools can be worked here.

Separate figures for mission & non mission schools of teaching, furniture & building grants are available only with the D.P.D.

It is for consideration whether the D.P.D. may be asked to compile the stats.

The striking fact is the disproportionate amount given under teaching posts to mission institutions. This is of course the result of the present rules which roughly speaking give posts in proportion to the expenditure that managers are able to incur.

The amount given under franchise

are more in proportion to the number and strength of the schools. This is because in '13, '14 these grants were five per cent of contribution from managers, i.e. Government met the whole instead of half the cost of the furniture etc.

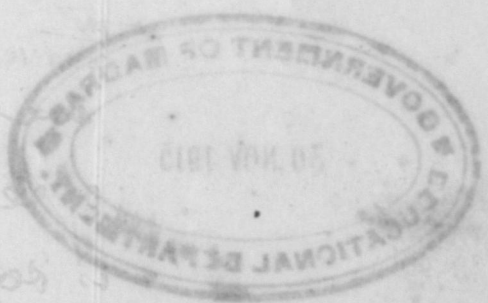

The teaching plant system is to be discussed by the conference of officials and non-officials and I don't suppose this aspect of the matter will be overlooked. Perhaps the Hon. members would be satisfied to let it rest till after this conference. I certainly do not much like the figures being given him without ^{any} explanation of them.

In review of the Director's note above it is for consideration whether the figures should be furnished. If ^{the} explanation is to be ~~admitted~~ furnished we will have to admit that the system of teaching plants to secondary schools is defective and this would be taken as the pivot for further correspondence and proceedings in the Council. It does

not, however, appear how the figures could be withheld. Mr. Stone does not express himself definitely against their being furnished.
