(F) The Honourable Rao Bahadur B. Narasimheswara Sarna.

decided to establish a mechanical engineering school in connection with the local fund workshop.

185. Will the Government be

pleased to state whether the

arrangements for opening (a) the

industrial school at Cocanada, (b)

the training college at

Rajamundry have been completed and

when the institutions will be opened

for the admission of students?

at the 13th March 1915, in connection with the discussion of a resolution moved by the Honble Mr. Rameswara Rao regarding the establishment of an additional engineering school in the Presidency. The Director Industries however, has reported that there are proposals under consideration at present for the establishment of two private industrial schools & that it is not necessary that

Educational Dept.

Industrial School at Bocanada.

(F) Please see G.O. No. 185-Ed., dated the 19th February 1915, in which the Govt. decided to establish a mechanical engineering school at Bocanada in connection with the local Fund Workshop at the place called on the Director of Industries to submit detailed proposals for the opening of the school. This decision of Govt. was announced at the Legislative Council meeting of the 13th March 1915, in connection with the discussion of a resolution moved by the Honble Mr. Rameshchandra Rao regarding the establishment of an additional civil engineering school in this Presidency. The Director of Industries, however, subsequently reported that there ~~were~~ proposals under consideration at Bocanada for the establishment of two private industrial schools & that ~~therefore~~ ^{if those proposals materialized} ~~it~~ ^{might} ~~be~~ ^{be} no necessary that Govt.

Please see page 5 of extract from Council proceedings (A)

(Papers relating to the Bocanada School are put up in a file which is in file.)

should take action in the matter immediately. On this, a reference was made to the collector of Godavari asking whether there was any near prospect of ~~the~~ private agencies establishing a school which would adequately take the place of the one contemplated by Govt. ~~The collector~~ In reply, he stated that the private institutions likely to be established were not to be on the scale on which the Govt. school was intended to be organised & that it was desirable that the Govt. should proceed with their scheme. Mr. Treacher was thereupon asked to submit definite proposals for the opening of the Govt. school as early as possible. He recommended that it was not possible that any expenditure would be incurred on the establishment of the school in the current official year. The Dept. have, however, ~~recommended~~ ^{proposed}

proposed that the savings anticipated in the provision for grants in aid of industrial schools ^(in the current year's industrial budget) ~~might~~ be utilized ~~one~~ towards the payment of the cost of the local fund workshop ~~at~~ at bocanada with a view to ~~the~~ opening the ~~main~~ school contemplated ^(as early as possible.) by Govt. The file on the subject has been sent to the Financial Dept. In the meanwhile, Mr. Treasler has also been asked to proceed with the preparation of the ~~mechanical~~ ^{mechanical} ~~organ~~ plans for the bocanada school without delay. In these circumstances, it is submitted that the ~~govt~~ answer to this portion of this question may be that "arrangements for opening the industrial school at bocanada have not yet been completed?"

Training College at Rajahmundry. In their order no 496 Edl., dated the 7th May 1915, the Local Govt. generally approved the proposals of the D.P.I. for the establishment of this college. The sanction of the Govt. of India for the scheme was also applied for in letter no 497, dated the 7th May 1915. In July 1915 ~~the Govt. of India~~ applying for this sanction the Madras Govt. stated that it was proposed to start the new college with effect from July 1916. In July last the Govt. of India enquired from what source the extra expenditure involved in the scheme was to be met and whether building accommodation already existed for the proposed college. The Local Govt. replied that it was intended to meet the extra expenditure from the general Provincial revenues and that the Govt. hoped to be able to make provision for the purpose in the budget for 1916-17 and that pending the construction of a new building it was proposed to locate the college in a rented building. The D.P.I. has also entered provision for 9 months of this college in the budget estimate for 1916-17 prepared by him. It however, appears doubtful whether in the present financial situation Financials would allow the retention of the provision. If the allotment is retained and if the sanction of India is also received early enough as is likely, it may be possible to open

the College with effect from July next. For orders whether with the concurrence of financial the additional Member may be told for that if the sanction of the Govt. of India is received in time it is hoped to start the College from July 1946.

Suggested reply

(a) The proposals for the opening of an industrial school at Cocanada have been deferred till recently pending ascertainment of the intentions of certain private bodies who were taking action in the same direction.

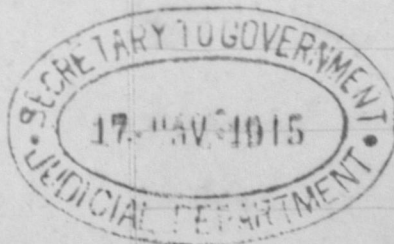

(b) The intention was to open the training college from July 1946, but under present financial conditions it is doubtful if it will be possible to do this.

15.11.15

H. E. the Governor.

In regard to (a), is ~~not~~ that contingency at an end? The answer on p. 5. above seems to be.

Final ans.
17/11

The final form of the question answer was as below:-

167 Q.—Will the Government be pleased to state whether the arrangements for opening (a) the industrial school at Cocanada, (b) the training college at Rajahmundry have been completed and when the institutions will be opened for the admission of students?

Opening of the industrial school, Cocanada, and training college, Rajahmundry.

167 A.—(a) Arrangements for opening the industrial school at Cocanada have not yet been completed.

(b) The intention was to open the training college in July 1916, but under present financial conditions it is doubtful if it will be possible to do this.
