2. M. R. Ry. T. Ekambaram Garu proposes to read a paper
before the Science Congress.

3. Original work among members of college staffs should
be encouraged and I do not think that an increase to four at
the third Congress from two at the first in the representatives
from the Madras Educational Department is excessive. At the
same time there must be some limit and I do not propose to
recommend any other application of this kind this year.
