his supervisor to go and advise them in case
they wished to start the work for themselves. He
now proposes to go to Punalur and also Tennimalai
to see the mills. ~~Subordinate to the D.O.~~
~~not to be considered~~. In the linked file the
owner of the mills proposes to start pulp making
with the advice and cooperation of the Govt.
and requests that the Director of Industries
may be directed to give them the necessary
technical advice in the preparation and disposal
of the manufactured article and to place at their
disposal the services of a supervisor and a chemist.

or help Expert for the conduct of the experiments for at least a period of one year. For the above circumstances the permission sought for by Mr. Tressler to proceed to Panama may be granted.
