GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following papers :—

I

G.O. No. 1024, Educational, dated the 10th November 1913.

ABSTRACT.—Sanctioning a grant of Rs. 10,039 being one-third of the estimated value of the ground floor of the Islamiah secondary school, Vāniyambādi, which has already been completed, and another grant of Rs. 18,500 towards the cost of the first and second storeys proposed to be added thereto.

II

Letter—from the Hon'ble Mr. J. H. STONE, M.A., F.R.H.S., C.I.E., Director of Public Instruction.

To—the Secretary to Government, Educational Department.

Dated—Madras, the 11th December 1914.

No.—Ref. on Cur. 7648/11.

A grant of Rs. 18,500 was sanctioned in G.O. No. 1024, Educational, dated the 10th November 1913, towards the cost of adding first and second floors to the building of the Islamiah secondary school at Vāniyambādi. With reference to paragraph 3 of the Chief Engineer's note attached thereto, the Superintending Engineer, IV Circle, had the foundations examined and reported that the foundations were not strong enough to bear a three-storied building. He suggested that the approved design should be altered allowing only one upper floor instead of two—*vide* copy of his letter No. 1247 M./101-F., dated the 10th July 1914, with the enclosures herewith submitted. The Correspondent was thereupon asked to alter the design in accordance with the suggestions made by the Superintending Engineer. Revised plans and estimates received from the Correspondent for adding a single floor to the building are herewith submitted and I have the honour to recommend that the revised design may be approved and a half grant sanctioned.

2. The original plans and estimates are also enclosed.

3. The design is a somewhat elaborate one and I do not know how far the large cost is attributable to this.

ENCLOSURE.

Letter—from J. M. PARKER, Esq., Superintending Engineer, IV Circle.

To—the Director of Public Instruction.

Dated—Coimbatore, the 10th July 1914.

No.—1247-M./101-F.

With reference to your Proceedings R.C. No. 7648/11, dated the 15th November 1913, enclosing a copy of a note by the Chief Engineer, Public Works Department, Madras, No. 870 D., dated the 13th October 1913, on the estimate amounting to Rs. 37,300 for adding first and second storeys to the Islamiah secondary school at Vāniyambādi in the North Arcot district, I have the honour to inform you that, in compliance with paragraph 3 of the note, the Executive Engineer, Salem division, was directed by me to carefully examine personally the foundations of the lower storey of the building already constructed and to report whether they were capable of carrying the two upper storeys proposed. A copy of his report No. 223 S.E., dated the 15th March 1914, is enclosed for your information, together with plans showing the foundations as originally designed and sanctioned and as carried out by the Correspondent. From these you will see that (without reference to this department) the design has been altered reducing the width of the foundations of the main walls from 6' at base to 4' or to be exact 3' 11" and reducing the width of the foundations of the tower from 7' at base to 5' 3"—*vide* plans S. Nos. 25 and 25-A/1914 on tracing paper. The foundations of the verandah walls are the only

ones which have been put in according to the design. The result of this reduction in section is that the pressure per square foot on the soil under the foundations is considerably increased—*vide* Executive Engineer's report enclosed. The Executive Engineer in his report definitely states that the sub-soil will not in his opinion safely bear a pressure of over 1.50 tons and in his inspection note, dated the 3rd March 1914, he reports as follows :—

"I examined the trial pits to ascertain the nature of the soil on which the foundations were laid and also the walls of the building. The sub-soil will certainly not stand the weight of two additional storeys and I am doubtful as to whether the construction of even one upper storey is advisable."

On the strength of this definite opinion of the Executive Engineer after his careful personal examination I am of opinion that the Correspondent cannot be allowed to proceed with the building on the sanctioned design and that the design should be altered allowing only one upper floor instead of two, that the roof of this upper storey should be of Mangalore tiles. I would recommend under these circumstances that the building should be redesigned so that the limiting pressure at the foundations should be not more than 1.50 tons per square foot. A corresponding revision of the estimate and of the Government grant will of course be necessary also. I would further recommend that the revision of the design be referred to the Consulting Architect to Government who will be best able to evolve a design of an upper storey and roof in keeping with the lower storey already built. I enclose a copy of a letter from the Correspondent of the Islamiah secondary school. I also enclose copies of the following correspondence with the Executive Engineer, Salem division :—

- (1) Executive Engineer's inspection notes No. 207 S.E., dated the 9th March 1914.
- (2) Do. do. No. 223 S.E., dated the 15th March 1914, with the Superintending Engineer's endorsement thereon.
- (3) No. 316 S.E., dated the 13th April 1914.
- (4) Superintending Engineer's No. 241 S.L., dated the 3rd May 1914.
- (5) Executive Engineer's No. 465 S.E., dated the 2nd June 1914.

All the plans and the tracings and calculation sheet prepared by the Executive Engineer are herewith forwarded for information.

III

Note by the Chief Engineer, Public Works Department, No. 1152-C., dated the 11th February 1915.

The Director of Public Instruction submits through the Educational Department an estimate amounting to Rs. 36,295 and five plans for additions to the building of Islamiah secondary school, Vāniyambādi, North Arcot district.

II. The plans and estimates have been scrutinized in the Chief Engineer's office and the following alterations have been made :—

- (1) Providing rolled steel girder lintels and stanchions for relieving the pressure on the masonry piers as shown in drawing No. (1).
- (2) Demolishing the piers marked (c) on drawing No. 1 and reconstructing them in cement and encasing the stanchions therein after properly propping up the jack arched floors in rooms and verandahs.
- (3) Providing for one of the cross walls in the main rooms omitted in the estimate submitted.
- (4) Making provision for foundations, foot plates, and caps of stanchions and securing them to girders with bolts and nuts.
- (5) Altering the sections of rolled steel girders and teak joists according to the corrections shown in the plan and estimates.
- (6) Reducing the rates which are found excessive for "brick work" and "terracing" (floor and roof) so as to correspond with the schedule of rates of Salem division (Tiruppattur sub-division) for 1914-15 after adding 25 per cent. thereto for carriage of materials.

III. By these alterations the amount of the estimate has been reduced from Rs. 36,295 to Rs. 35,000.

IV. If the Correspondent of the school requires higher rates, detailed data in support thereof should be submitted.

V. The Superintending Engineer, IV Circle, should satisfy himself as to the suitability of the foundations and good materials and workmanship so that the pressures on masonry and soil are within safe limits.

VI. With these remarks, the estimate as altered in the Chief Engineer's office amounting to Rs. 35,000 is recommended for approval.

S. B. MURRAY,
Chief Engineer, Public Works Department.

Order—No. 191, Educational, dated the 19th February 1915.

The Government are pleased to sanction a grant not exceeding one-half of the actual expenditure, nor Rs. 17,500, towards the cost of additions to the building of the Islamiah secondary school, Vāniyambādi, subject to the following conditions:—

(1) that, in carrying out the work, the suggestions of the Chief Engineer in his note read above are adopted; and

(2) that all the conditions prescribed in the Grant-in-Aid Code are duly complied with.

2. On the above conditions being fulfilled the grant will be paid as funds become available.

3. The grant of Rs. 18,500 sanctioned in G.O. No. 1024, Educational, dated the 10th November 1913, towards the cost of the first and second storeys originally proposed to be added to the school building, is hereby cancelled.

EDUCATIONAL DEPARTMENT.

NOTES CONNECTED WITH G.O. No. 191, EDUCATIONAL,
DATED THE 19TH FEBRUARY 1915.

[SUBJECT.—Additions to the building of the Islamiah Secondary school
at Vāniyambadi.]

From the Director of Public Instruction, dated the 11th December 1914,
No. 7648/11.

The revised plans and estimates for adding a single floor to the building of the Islamiah Secondary school, Vāniyambadi, may be forwarded to the Public Works Department for scrutiny.

K. RAMA AYYAR—14-12-14.

T. KRISHNASWAMI AYYAR—14-12-14.

To the Public Works Department.

PUBLIC WORKS DEPARTMENT.

Note by the Chief Engineer, Public Works Department, No. 1152-C., dated the
11th February 1915.

The plans and the estimate amounting to Rs. 36,295 for additions to the building of Islamiah Secondary school, Vāniyambadi, have been scrutinized in the Chief Engineer's office. As a result of the scrutiny the estimate has been revised and the amount of the estimate has been reduced to Rs. 35,000 which is recommended by the Chief Engineer for sanction subject to the remarks in his note read above.

With these remarks the file may, it is submitted, be returned to the Educational Department.

T.S.R.—4-2-15.

D. MARSHALL—11-2-15.

To the Educational Department.

EDUCATIONAL DEPARTMENT.

This is one of the cases in which it has been decided that sanction for the building grant need not be deferred, and the Director of Public Instruction stated that the amount *might* be paid in advance *this year* out of the special grant of Rs. 30,000 given by the Government of India for Muhammadan education.

2. A draft order sanctioning the usual half-grant is submitted for approval. The grant now sanctioned is to supersede the grant of Rs. 18,500 promised in G.O. No. 1024, Educational, dated the 10th November 1913.

B. GOPALACHARI—18-2-15.

T. KRISHNASWAMI AYYAR—18-2-15.

INSTRUCTIONS FOR THE SECRETARIAT.

(a) If a paper is marked to be printed urgently, the Superintendent of the section concerned should sign the Press slip. The Superintendent should exercise a careful discretion in the matter.

(b) Each letter, memorandum, or order, or set of orders, in the file of correspondence should be headed in succession with the Roman numeral I, II, III, etc., the number being written in red ink or blue chalk above the item. The particular papers to be printed in the special issue-copies should be indicated by the Roman numeral (I, II, etc.) by which that item has been headed in the correspondence file. All matter, including marginal remarks or references, to be printed should be written in ink and matter which should not be printed should be encircled. Initials and signatures that are not quite legible should be re-written distinctly.

(b¹) For rules regarding printing of notes, see rule 315 of the office Manual.

(c) The number of copies and the details of distribution should be filled in by the Superintendent or Referencer concerned.

(d) In the absence of special instructions to the Press to keep matter standing for a specified period, ordinary papers of 8 pages and under will be kept standing for one week, and larger papers for two weeks only. The type of notes and of all confidential papers is distributed immediately after striking.

(e) This slip, properly and completely filled in, should accompany every paper sent to Press; it will be returned by the Press when proofs are furnished; it should be sent to the Press when a call is made for revised proofs or when a corrected proof is sent for striking. When finally returned by Press it should be filed with the original order or letter.

INSTRUCTIONS FOR THE PRESS.

(a) If, in the opinion of the Superintendent of the Press, a paper has been marked urgent unnecessarily, he should send the Press slip to the Registrar with a remark to that effect.

(b) Unless a note to the contrary is made against the matter, pencil entries should not be printed. The Superintendent of the Press may bring to the notice of the Registrar any instance of incomplete or careless editing.

(c) Signature copies of letters to the Secretary of State or to the Government of India should be printed on hand-made paper.

(d) This slip should be returned by the Press to the Secretariat when proofs are furnished; it will be sent back to the Press when proofs are returned corrected and should be finally returned to the Secretariat when struck-off copies are supplied.

(e) The names of the Secretary and Members should be printed in full when they occur on the right hand side, only the first time when they appear on the left side, the initials alone being printed later.
