Memorandum. No 925-38 16-5-12

Dr. Vogel, lately Offg. Director-General of Archaeology has represented to the Government of India that the Madras Museum contains a large number of duplicates of antiquities which might, with advantage, be offered to museums in Europe where they would be highly valued, well-cared for and probably studied in connection with prehistorics from other parts of the world and that a fairly large collection of such South Indian prehistorics would apart from Madras be in its proper place only in the Imperial Museum at Calcutta but that they would be out of place in other museums in India which ^{are} either provincial or local.

2. His Excellency in Council is in general agreement with these suggestions provided that actual duplicates alone are permitted to be removed from Madras. To ensure this it is essential that a careful and expert comparison and examination of the collections in the Madras Museum should be made so that no specimen may inadvertently be sent elsewhere which should form part of a complete and representative collection.

3. The Superintendent, Archaeological Survey, will therefore be requested to carry out this scrutiny and to submit to the

the Government on its completion a list
of such objects as are found to be dupli-
cates or replicas and can therefore be
spared to other museums.

Adverting to Government Memorandum No. 925-3/ Educational, dated the 16th May 1912, re, the question of sparing duplicates of antiquities at the Museum to other Museums, I have the honour to report that I am in agreement with the late officiating Director-General of Archaeology, and that I advocated the same procedure at the late Museums' Conference at Madras. But, till an arrangement and assortment of the antiquities is made, a list of the duplicates cannot be made; and this will be done whenever it is practically possible.

I have the honour to be,
Sir,
Your most obedient servant,

EDUCATIONAL DEPARTMENT.

Sir,

With reference to Government Memorandum No. 1532-1 (Educational) dated the 23rd instant, re, the list of duplicates of the antiquities in the Museum, I have the honour to state that the list is under preparation and will be ready before the end of October. But the list must be followed by photographs as the slight variations in pattern under one main class are not detailed as I have already informed the Chief Secretariat and there is some difficulty in readily obtaining the required photographic help from the archaeological office. However, as soon as possible, the list will be submitted at least with a rough sketch. If it is the intention of Government to distribute the list to others, it may be desirable to get them printed and send them with my introductory

others be able to judge of its importance. These notes that
are to be prefixed to the catalogue are well nigh nearing com-
pletion.

Sir,

We have the honour to acknowledge your Memorandum, dated the 10th Instant., handed us to-day, with Seven Plates 1, 2, and 1, 2, 3, 4, and 5., of Photographic illustrations, & in accordance to your request, we may state that we can supply Half-tone blocks, of 1st quality, which will be of fine etching, with extra deep etching, of these illustrations, at Rs.55/0/0., (Rupees Fifty Five, Only,) per Plate.

You may be assured that these blocks would be of the finest work, giving a most economical result in printing, by the reducing of stoppages for cleaning up.

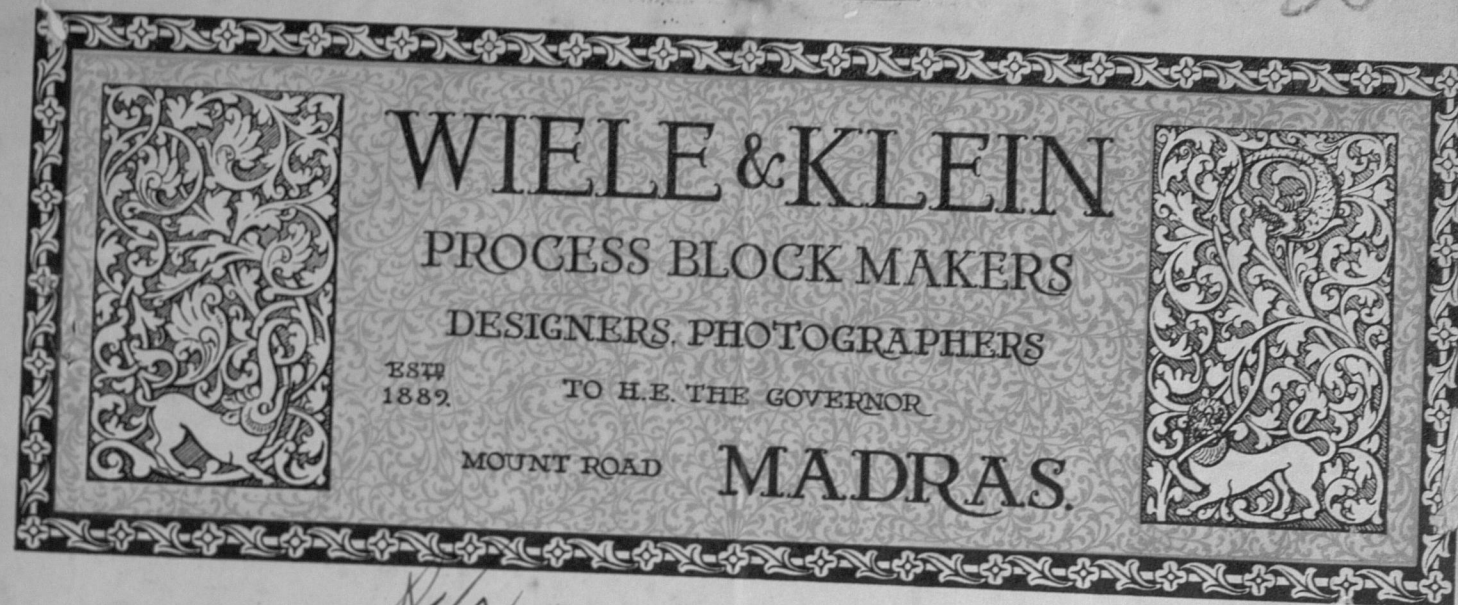

Herewith we return the Seven Plates submitted with your Memorandum, and await the honour of your further instructions and commands.

Sir,

With reference to paragraph 1 of Memorandum No. 3258-1 Educational dated 6th November 1913, I have the hon to address Government regarding the despatch to the Indian Museum, Calcutta, of the duplicates of Tinnevely Perumbair prehistoric antiquities.

2. The duplicate specimens including ten large urns have been labelled

and packed under the supervision of P. V. Jagadisa Aiyar, Manager of the Archaeological Survey Office, Southern Circle, whom Mr. Longhurst at my request kindly deputed for the work. The urns have been packed in frames of mango-wood, and the remaining specimens in deal-wood boxes. The cases, nineteen in number, weigh 4,200 lbs. and measure 400 cubic feet approximately. To avoid as far as possible risk of breakage in transit, it appears to me best to engage an entire waggon which will be locked at the Madras Station and opened only at Calcutta. I have accordingly the honour to request that Government will be pleased to arrange with the Madras and Southern Mahratta Railway Company for the carriage of the cases.

An expenditure of Rs. 97-13-10 Rupees ninety-seven, Annas thirteen, and pies ten) has been incurred on account of packing the duplicate specimens and charged to the Museum budget for 1913-14 under "Contingencies - Miscellaneous." I have the

Dear

Li Harold Stuart

With reference to para 3 of Mr. Sharp's letter

No. 86 dated 6th June 1911, Dr. Vogel, lately Offg.

Director General of Archaeology, has represented to the

Government of India that the Madras Museum contains a

very large number of duplicates of antiquities which

were excavated by Mr. Rea in the course of several years

but which have never been unpacked and have now accumu-

lated to such an extent that they take up all available

space and are a source of anxiety to the Curator. He

has accordingly proposed that these duplicates might be

offered to Museums in Europe where they would be highly

valued, well cared for and probably studied in connec-

tion with prehistorics from other parts of the world

and he suggests that, if considered necessary, they

might be offered on sale. He thinks that a fairly large

collection of such South Indian prehistorics would

would be in its proper place only in the Imperial Museum,

Calcutta, but that they would be out of place in other

Museums in India which are either provincial or local,

and that there would also be no room in those Museums

to exhibit them.

2. I am to say that the Government of India would

be glad to know whether the above views and proposal

are, in this particular case, shared by the Government

of Madras, and if so, whether they have any suggestions

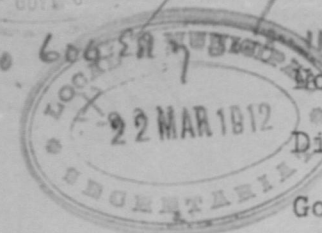

to make regarding the conditions that should be imposed

before duplicates leave India. The Government of India

would be reluctant to send out of India any objects that

could be suitably housed in India. Should the Government

of Madras wish to have duplicates removed, the Government

I am in entire agreement with Dr. Vogels proposal that duplicates of the antiquities excavated by Mr. Rea, which are at present occupying space in the Madras Museum not intended for the purpose, should be offered to certain museums in Europe, after a representative selection has been made for the Indian Museum, Calcutta. So far as the Madras Museum is concerned, the only condition which need be laid down, is that no specimens be sent out which have not been carefully compared with similar objects already in the Museum, to ensure that a thoroughly representative collection is retained. If after this comparison it has been decided by a competent authority that the specimens are duplicates or replicas, in the sense in which these terms may be used as regards archaeological objects, there can be no objection to their removal from Madras. Mr. Rea is

obviously the person best qualified to prepare a list of the duplicates and to arrange for their dispatch to Calcutta or elsewhere.

I agree with Dr Vogel that South Indian prehistorics are out of place in provincial or local museums in India and that, after Madras, only Calcutta need be considered. I would be in favour of presenting and not selling the specimens to European museums.

Dear Mr. Porter,

In reply to your D.O. to Sir Harold Stuart No.38 dated 15th March 1912 on the subject of the antiquities excavated by Mr. Rea and now lying in the Government Museum, Madras, I am to say that His Excellency the Governor in Council readily accepts Dr.

Vogel's proposal that where duplicates -- exist they should be offered to other -- museums where they could be suitably housed and agrees with the Government of India that no objects for which such accommodation can be found in this country should be sent abroad. From such information as this -- Government have, however, they are inclined to accept Dr. Vogel's opinion that apart from Madras a representative collection of South Indian prehistorics could find place with advantage only in the Imperial Museum, Calcutta, as far as this country is concerned, and that when the requirements of that -- institution have been supplied, surplus specimens might well be offered to the -- principal museums in Europe. In such -- cases they would deprecate the suggestion of sale and consider that the duplicates should be presented. The Government of Madras have however no objection to the circulation of the list when prepared to all other Local Governments so that their legitimate requirements may be met.

2. Mr. Rea, Superintendent, Archaeological Survey,

Survey, Southern Circle, who is now engaged in the work of arranging and cataloguing the antiquities in the -- Madras Museum has been asked to prepare a list of duplicates not required for the Madras Museum. The list will be forwarded to you as soon as it is received from Mr. Rea, but its preparation will take a considerable time as it is essential that a careful and expert comparison should be made to ensure that duplicates alone are permitted to be removed from the Madras Museum.

Yours sincerely,

Madras, the 26th July 1913.

My Dear Curgenvin,

In continuation of my letter No. 44 dated the 9th instant, I would desire to say that I have assumed the list of duplicates is to be of official foolscap size, i.e. 13" x 8½", and the estimates for plates have been prepared accordingly.

With reference to Mr. Rea's D.O. on the previous page, which was since received and added to the file, it is submitted that the size of the list of duplicates may appropriately be that of the ordinary Museum Catalogue. Apart from the question of making its size uniform with that of the rest of the Museum publications reduction of cost is a point in its favour. But the Secretary has noted, and H.E. the Governor has agreed to it, that the printing should be undertaken only after the duplicates have been distributed to the Calcutta + other museums. Perhaps Mr. Rea may be informed of what is being done. The following D.O. is submitted for approval:-

I am desired to return herewith the lists and photographs received with your demi-official letter No.2495-2, dated the 18th August 1913, relating to the duplicates of the Tinnevely and Perumbair (Chingleput) prehistoric antiquities, which are available in the Government Museum, Madras, for distribution among other museums and to say that the number of specimens of each type required by the Indian Museum, Calcutta, has been marked on the lists themselves.

I am to add that the authorities of the Indian Museum would be glad if the Curator of the Madras Museum would make a point of selecting as many variations as possible and of seeing that the specimens are carefully labelled so that there may be no risk of confusion.

In letter no: 897-1 Edl: d/

16th April 1914 descriptive and illustrated lists of the duplicates of the Finnerelly and Perumbair prehistoric pottery were circulated to Local Governments and Administrations with the request that their requirements, if any, for the duplicates may be intimated to this Govt.: Replies have been received thus far ~~from~~ except from the Govts: of Bombay and the United Provinces who may perhaps be now reminded. In the meanwhile, since the S. G. M. is anxious for the early disposal of the specimens the requirements of the Govts: of the Punjab and Burma ~~and~~ and of the Administration of Ajmer-Merwara may be intimated to the S. G. M. for compliance. ~~of approved~~ The draft letter to [the Govts: of Bombay and the United Provinces] and the draft memo to the S. G. M. submitted below are for approval.

From the Govt. of Bombay No: 9398
d/ the 23rd Nov: 1914. 91

In the circumstances

set forth in the letter from the Govt. of Bombay, it is submitted that the Supdt: Govt. Museum, may be requested to state whether he can conveniently retain the specimens in question in a good state of preservation in the Museum until arrangements are made for their reception in the Prince of Wales Museum, ^{Bombay}. The Supdt: already stated that the iron and bronze articles which were stored in a temporary shed were deteriorating and it seems ^{therefore} desirable to consult him before complying with the request of the Govt. of Bombay regarding the retention of the specimens.
