No. 51

Station MADRAS, Dated the 22ND FEBRUARY 1915.

From (Name) K. T. B. TRESSLER, ESQ.,

(Designation) AG. DIRECTOR OF INDUSTRIES.

To The Secretary to the Government of Madras,
EDUCATIONAL Department.

Sir,

In submitting herewith Messrs Venkataram & Co's application for placing the Anderson Oil Expeller and the necessary Mechanics at their disposal, I have the honour to state that this firm supplied me with raw material for working during the Experimental Stage. Until a couple of days ago I had no applications from other sources and am therefore arranging to allow Messrs Venkataram & Co. to continue to use the Expeller subject to the following conditions:-

1. That they should keep the Mill fully employed, for both day and night except Sundays and that the contract is liable to cease automatically, if the Mill has

to be stopped for want of raw materials-Viz., Groundnuts.

2. That they should not hold me liable for any breakdowns of the plant, though every precaution will be taken to minimise or prevent the occurrences of the same.

3. That the ~~co.~~ ^{firm} employs such cooly labour as is found necessary, and agrees to pay Rs.27/- for every ton of filtered oil manufactured in the Mill; the rate, inclusive of coolies is to be Rs.33/-

4. That I reserve the right of cancelling the contract in case the owners of the building require it for themselves; every effort will be taken to set up the Expeller elsewhere if such a contingency arises.

2. I have carefully gone into the question of rates, and the actual cost of manufacture, and have come to the conclusion that Rs.33/- with coolies or Rs.27/- ex-coolies is the minimum rate on a long contract; that I would advise the Government to charge for every ton of oil filtered. I have also instituted a sliding scale, which increases, as the period of contract diminishes. *This is not before the Govt.*

3. The arrangement is a convenience to me as it enables me to study the working of the Expeller under commercial conditions without expense to myself.

I have the honour to be,

Sir,

Your most obedient servant,

[Signature]

Ag. Director of Industries.

R.K.N.

A. VENKATRAM & Co.,

Madras, 26th January

To,
The Secretary to Government,
Educational Department,
M a d r a s.

Through,
The Director of Industries,
M a d r a s.

Sir,

We beg to bring to your notice, that we are merchants carrying on business in Madras, and our proprietor belongs to a respectable family.

Ever since the Industrial Department of the Government started to run an Anderson oil expeller in Madras, the Director of Industries, has been kind enough to place the same at our disposal, and we have been working it. The Director was further good enough to give us a qualified assurance, that if the Government would permit, he would keep the machine at our disposal at Madras as long as we kept it working.

We have in anticipation of the Government permitting us to use the same in the above condition, have stocked enough ground nuts to enable us to carry on the business for at least the space of 2 years from now. We are prepared, if the Government would be pleased to grant our request to keep the machine in full work at our expense.

4

We further beg to request that the Government may be pleased to lend us the services of two foremen and two drivers whose expenses will be met by us.

We remain,

Sir,

Your most obedient servants.

A. V. Subramaniam & Co.

A separate copy has been submitted to the Secretary to Government Educational Department, Madras.

Again G.O. No. , dated 191 .
Current No. from the , No. , dated 191 .
Current No. 688 from the D. I. , No. 57 , dated 22. 2. 1915 .

SUBJECT.

Working of the Anderson oil expeller
purchased by the Department of
Industries .

Last year, the Department of Industries
purchased one Anderson's oil expeller .
(K) In G.O. N. 2802 Revenue, dated the 26th September
1914, the Director was requested to ~~decide~~
demonstrate ^(to private) ~~inquirers~~ the method
of working the expeller + to give all
possible assistance by way of
advice + information to persons
who might desire to erect similar
plant. The Director seems to have
been working the plant so far only
experimentally, obtaining the necessary
raw material from Messrs A. Kentabam
& Co. He now proposes that the expeller
should be leased to this firm on condition
^{among other things,} that it pays to the Govt Rs 27 for every
ton of filtered oil manufactured
in the mill or Rs 33, if cooly labour
is

is provided by the Govt. ~~It~~ It is stated
that no application has been received
from any other source for the use of the
expeller. The proposal of the Director
may, it is submitted, be accepted. ~~The~~
~~lease is only in furtherance of the original object of demonstration, viz.~~
Draft order is placed below for approval.
