Ganjam Agency.

Reviewing the report on the administration of the — during 1913-14.

## GOVERNMENT OF MADRAS.

## JUDICIAL DEPARTMENT.

READ—the following paper:—

Letter—from N. MACMICHAEL, Esq., I.C.S., Agent to the Governor in Ganjam.  
To—the Chief Secretary to Government.  
Dated—Chatrapur, the 7th July 1914.  
No.—R. Dis. 40—Ag.

I have the honour to submit my report on the administration of the Ganjam Agency tracts during 1913-14, with the prescribed statements and copies of the reports of the Agency Divisional Officers.

2. *Administrative changes.*—There were no changes during the year. In G.O. No. 314, Judicial, dated 10th February 1914, two notifications constituting the Agency district of Ganjam into Agency revenue divisions and Agency magisterial sub-divisions were ordered to be published.

3. *Changes in the administrative staff.*—I held the office of the Agent to the Governor throughout the year. The office of the Special Assistant Agent, Balliguda, was held by Mr. E. Graham till the end of October 1913. Mr. R. W. Davies was in charge of the division from 1st November 1913 up to 5th January 1914 when Mr. T. G. Rutherford assumed charge. He remained in charge till the end of the year. Mr. Rutherford was in charge of Berhampur division till 1st October 1913 when he went on leave. Mr. Davies took charge of the division on 5th October 1913 and remained in office for the rest of the year. Mr. J. W. Bhore held the office of the Special Assistant Agent, Chicacole division, till 26th February 1914. He was relieved by Mr. L. H. Arndt who was in charge of the division till 7th March 1914. Mr. Arndt was succeeded by Mr. A. J. King who remained in office till the end of the year. M.R.Ry. P. Venkataramanayya Pantulu Garu was in charge of Goomsur division till 17th April 1913 when he was succeeded by M.R.Ry. K. Nageswara Rao Pantulu Garu who remained in charge till 6th June 1913. M.R.Ry. K. Nageswara Rao Pantulu Garu was relieved by Mr. W. K. Green who continued for the rest of the year.

4. *Tours.*—I made three tours during the year. The first tour from the 14th October till the 6th November was made in the Ramagiri taluk and the Serango and Rayagada muttas of the Parlākimedi Maliahs. Mr. Welchman, the Special Forest Officer, joined me at Digupudi, and we spent nine days inspecting the Chandragiri forests. During that time I received no forest complaints from the people. A *bhet* was held at Chandragiri where Mr. Welchman and I parted, and I proceeded by the Military road to Ramagiri-Udayagiri where a second *bhet* was held. From Ramagiri-Udayagiri I proceeded *via* Nuvagada and Serango to Rayagada and held a third *bhet* there. The Bissoyi of Rayagada is getting old, but he is well liked by his Savaras and few complaints are received from this mutta. It was not possible to make a more extensive tour in the Parlākimedi Maliahs as I had to get back to headquarters to make arrangements for the visit of His Excellency the Governor.

5. My second tour began on the 9th February when I left Chatrapur for Surada. After visiting Bodogoda I proceeded to Gazilabadi in the Surada Agency where two days were spent. Here many complaints about the stringency of the forest rules in regard to the unreserve lands were received. The difficulty is to say what lands are at the disposal of Government, and the most satisfactory solution would probably be a regular cadastral survey. I am in correspondence with

the District Forest Officer about this. From Gazilabadi I went up the ghat to Daringabadi where I met the Special Assistant Agent Mr. Rutherford and held a *bhet*. I had to cut this tour short here, having received orders from Government to proceed to Madras. I therefore returned *via* Gazilabadi and Surada reaching Chatrapur on the 26th February.

6. My third tour began on the 12th March when I left Russellkonda for Goomsur-Udayagiri returning on the 21st March. I held a *bhet* at Goomsur-Udayagiri. I had no time for further touring as I had to hurry back for the jamabandi of Aska taluk.

7. The Special Assistant Agent, Balliguda, toured for 170 days in the Agency and visited almost the whole division. The short touring is due to the fact that during three months of the cold weather the Special Assistant Agent, Berhampur, was in charge of the division and could do no touring in it. The Special Assistant Agent, Chicacole Division, made three tours in the Agency lasting for 32 days. The Special Assistant Agent, Berhampur, toured for 18 days. The Assistant Agent, Goomsur, spent 18 days on tour and visited most of his Agency. The touring of the Divisional officers was satisfactory. The usual tour map is enclosed.

8. *Season and rainfall.*—The rainfall at Goomsur-Udayagiri, Balliguda, Daringabadi, Ramagiri-Udayagiri and Gumma was 66.34, 69.49, 71.97, 52.55 and 53.04 inches respectively against 61.02, 63.64, 78.03, 68.81 and 58.05 inches in the previous year. The season was on the whole favourable though some damage was caused in parts owing to floods. The health of the people was generally good. There were outbreaks of small-pox in the Balliguda and Surada taluks.

9. *Criminal and civil justice.*—Statements Nos. V and VI show the disposal of cases, criminal and civil. The criminal and civil records of the Sub-Magistrates and District Munsifs of Goomsur-Udayagiri and Ramagiri were examined by me. Messrs. J. W. Bhore and R. W. Davies exercised the powers of an Additional Sessions Judge and tried six cases. The number of cases committed to the Sessions during the year was twelve against the same number in the previous year. All of them were disposed of within the year. Capital sentences were passed on four persons, but they were acquitted by the High Court.

10. The number of civil suits for disposal during the year was 306 against 324 in the previous year.

11. The system of branding skins has been working satisfactorily and is regarded by Panos as a useful guarantee.

12. *Medical aid.*—The hospitals at Ramagiri-Udayagiri and Goomsur-Udayagiri were inspected by me during the year. The attendance in the Agency hospital at Balliguda increased during the year, but in the case of the other two hospitals there was a decrease. The number of out-patients treated by the sub-assistant surgeons attached to my camp and to the Special Assistant Agent, Balliguda, increased from 2,415 and 6,045 respectively to 3,938 and 7,784. The increase goes to show that itinerating dispensaries would be popular. The Special Assistant Agent, Balliguda, testifies to the good work done by his sub-assistant surgeon, M. Audinarayana-swami Nayudu in visiting all the villages on the line of march and showing a gratifying keenness in his work. The same remark applies to sub-assistant surgeon S. Swami Nayudu who accompanied me on my second and third tours. The orders of Government have not been received as yet about opening an itinerating dispensary in the Parlākimedi Maliahs. Quinine was freely distributed amongst the hill people by my sub-assistant surgeon during my tours.

In G.O. No. 219, Public, dated 20th February 1914, Government sanctioned the introduction of the dieting system for the police in-patients in the Agency hospital at Balliguda.

13. The construction of a dispensary at Gazilabadi in the Surada Agency sanctioned in G.O. No. 1575, Public, dated 23rd December 1912, was begun during the year. The District Forest Officer who has been entrusted with the work expects that it will be completed by the end of July 1914.

14. In G.O. No. 982, Public, dated 6th August 1913, Government sanctioned the supply of portable medical chests and copies of "Moore's manual of family medicine" to the three Agency Deputy Tahsildars.

15. *Vaccination*.—With reference to paragraph 4 of G.O. No. 2246, Judicial, dated 8th November 1913, a statement showing the number of vaccinations and successful cases (1) on children under one year of age and (2) others is enclosed. The total number of cases vaccinated during the year was 15,965 against 13,369 in the previous year. The number of successful cases was 14,990 including 2,840 on children under one year of age against 11,907 in the previous year. The work of the present Deputy Inspector of Vaccination was fair. In spite of the absence of vital statistics and unprotected lists in the Agency, vaccination is in a much more satisfactory condition than on the plains. In many parts of the hills it is difficult to find an unvaccinated child.

16. *Education—Statement No. IX*.—The total number of Government salary schools was 94 against 90 in the previous year and that of aided and other schools was 80 against 76. The number of pupils on the rolls on 31st March 1914 was 6,040 against 5,610 in the previous year. The number of children belonging to the aboriginal tribes was 3,258 against 3,057. I inspected all the schools on my line of march.

17. In G.O. No. 344, Educational, dated 30th March 1914, Government sanctioned my proposals to take under Government management the aided elementary schools at Yangarasingi and Lobba, to entertain an additional teacher in the Government elementary school at Ojjagada and to open a new elementary school at Surangi. These four villages are situated in the Parlākimedi Maliahs.

In G.O. No. 729, Educational, dated 9th August 1913, Government sanctioned the employment of an additional teacher on Rs. 20 *per mensem* in the Government elementary school for boys at Linepada in the Balliguda division. This school is one of the best in the Agency.

In G.O. No. 1163, Educational, dated 8th December 1913, Government sanctioned the proposals to take under Government management the aided elementary school for boys at Bodagam and the unaided elementary school for boys at Luzuramunda in the Balliguda Agency.

18. In G.O. Mis. No. 1237, Educational, dated 23rd December 1913, Government sanctioned the opening of a sessional school at Russellkonda for a period of one year to enable the Agency teachers to undergo a preliminary course of instruction before training. The Inspector of Schools, I Circle, recommends that the sessional school with the present staff may be continued for another year and I agree with him.

19. The construction of school buildings at Gumma, Ojjagada, Namanagaram and Pothara sanctioned in G.O. No. 227, Educational, dated 17th March 1913, was completed during the year.

20. *Agency civil works—Statement No. X*.—In G.O. No. 155, Judicial, dated 24th January 1913, an allotment of Rs. 39,969 was sanctioned for Agency civil works. In G.O. No. 520, Judicial, dated 15th March 1913, a sum of Rs. 5,800 was granted to this district from the allotment under provincial balances. In G.O. No. 768, Financial, dated 9th December 1912, and in G.O. No. 470, Financial, dated 11th December 1913, a sum of Rs. 2,600 was sanctioned under “45. Civil Works—Public Works Department—Works in charge of Civil officers acting as Public Works disbursers.” In G.O. No. 470, Financial, dated 11th December 1913, a sum of Rs. 299 was allotted to “45. Civil Works—Public Works Department—Works in charge of Civil officers acting as Public Works disbursers” by way of reappropriation from “45. Civil Agency Works.”

Thus the total grant for the year was Rs. 48,369, of which a sum of Rupees 42,400-0-4 was spent during the year.

21. *Roads and rest-sheds*.—In G.O. No. 2593, Judicial, dated 13th December 1913, Government sanctioned the appointment of permanent watchers for the rest-sheds in this Agency. I found the roads in Ramagiri taluk in fair condition, but encroachments were numerous especially in the south of the taluk where they pass through wet lands. This remark also applies to the roads in the Parlākimedi Maliahs. The Agency road to Gazilabadi was in good order, and its usefulness will be greatly enhanced by the bridge which it is proposed to build over the Rushikulya river at Pippalaponka. The road from Gazilabadi to Daringabadi was not at all bad and was

used by bandies as far as Dokkerabadi. The Kalingia ghat road in charge of the Public Works Department was as usual in bad order; it had been seriously damaged by the floods of August and October.

22. *Sanitation*.—A sum of Rs. 876 was spent during the year on the improvement of water-supply.

23. *Wild animals and snakes*.—The amount of rewards paid for the destruction of wild animals was Rs. 667 against Rs. 880 in the previous year. In Balliguda division there were 184 deaths from tigers. The Dasingabadi maneater is responsible for a large proportion of this total, but though there is a reward of Rs. 500 on his head he is still at large.

24. *Elephants*.—A sum of Rs. 7,640-13-11 was spent in the year on account of maintenance charges of the elephants. The elephant, Chilka, of the Special Assistant Agent, Chicacole, was destroyed during the year under the orders of Government conveyed in G.O. No. 1382, Judicial, dated 8th July 1913, and a new elephant was bought in her place at a cost of Rs. 1,800. In G.O. No. 2340, Judicial, dated 19th November 1913, Government sanctioned the abolition of the post of fouzdar of the elephant establishment attached to the Special Assistant Agent, Balliguda. All the elephants kept good health during the year.

25. *Boundary disputes*—(a) *Parlākimedi Mahah boundary dispute*.—In G.O. No. 1650, Judicial, dated 14th August 1913, Government were pleased to accept tentatively my conclusions in regard to the disputed boundary and requested the Board in their endorsement No. 1115-2, Judicial, dated 24th April 1914, to make arrangements for the supply of the topographical sketch required by me for the submission of the further report called for by the Government.

(b) *Ganjām-Khond Mahals boundary*.—The demarcation of the boundary between the villages of Bilabadi in the Balliguda taluk and Meranbadi of the Angul District for which an additional allotment of Rs. 250 was sanctioned in G.O. No. 1384, Judicial, dated 8th July 1913, was completed during the year.

(c) The demarcation of the boundary between the village of Rasudi in the Goomsur-Udayagiri taluk of this district and Tukulipara in Khond Mahals referred to in G.O. No. 1419, Judicial, dated 4th September 1912, was completed during the year at a cost of Rs. 40.

(d) The demarcation of the boundary between Mandasa Maliahs and the Parlākimedi Agency was carried out by the Special Forest Officer during the year.

(e) *Tumba-Jalantra boundary dispute*.—The Special Assistant Agent, Berhampur, who was appointed a Survey officer under Madras Act IV of 1897 for the purpose of settling the dispute, decided the matter in favour of Government. The Trustee of Vizianagram Samasthanam has given a notice under section 80 of the Code of Civil Procedure of his intention to file a civil suit against Government.

(f) The boundary between Thumba mutta and Ramagiri taluk was demarcated jointly by the Special Assistant Agent, Balliguda and the Special Forest Officer.

(g) Two other disputes of minor importance in the Parlākimedi Agency were settled by the Special Assistant Agent, Chicacole, and are referred to by him in his report.

26. *Public peace and State prisoners*.—There were no breaches of the public peace during the year. The seven State prisoners referred to in G.O. No. 746, Judicial, dated 22nd April 1913, were released under the orders conveyed in G.O. No. 1497, Judicial, dated 24th July 1913.

27. N. Appanna Patnaik of Parlākimedi who had been fostering litigation between the Bissoyi of Namanagaram and his Savaras was forbidden to enter the Agency and warned that if he did so he would be liable to be arrested under an Agency warrant.

28. Lokonatho Ronobijuli of Surangi Nuvagodo who was causing mischief in the Surangi Maliahs by inducing village heads not to obey the summonses of the Special Assistant Agent and by misrepresenting matters to the Zamindar of Surangi in connection with boundary disputes was warned that if he entered the Maliahs again he would be deported.

29. *Condition and relations of zamindars and other land owners, hill chiefs, Patros, Bissoyis and cultivating classes—(a) Parlākimedi Maliahs.*—The question of the position of the Parlākimedi Bissoyis reported upon in my letter R.C. No. 27/Confdl./1911, dated 11th January 1912, is under the consideration of Government.

(b) The Special Assistant Agent, Chicacole, draws attention to the procedure adopted in collecting the *kattubadi* from the Bissoyis through the Zamindar of Parlākimedi and recommends that the Bissoyis themselves should pay the *kattubadi* direct to Government. This question may be disposed of when orders are passed on the report referred to above.

(c) A question having arisen about the *mamools* to be paid by the Panos settled in the villages in Gumma, Serango, Ojjagada, Namanagaram and Jerangi muttas, it was settled with the consent of the Panos that each Pano house should pay to the concerned Bissoyi a sum of Rs. 2 annually, the houses of widows and those having no adult male members being exempted.

(d) *Thumba Maliahs.*—The Special Assistant Agent, Berhampur, proposes that the post of the Bissoyi of Thumba be abolished and that a rough ryotwari settlement with fixed rents introduced. He has been requested to report in detail the lines on which the proposed settlement should proceed.

(e) *Mantasa Maliahs.*—Another proposal of the Special Assistant Agent, Berhampur, is that Saba and Dabarasingi muttas be amalgamated into one mutta under one Bissoyi and that the post of Bissoyi of Dabarasingi be abolished. He has been requested to report if the Savaras of Dabarasingi are in favour of the change.

(f) *Chandragiri.*—The minor Patro of Chandragiri who attained his majority took up his duties during the year.

(g) *Mohano.*—Dasaradhi Patro was appointed Patro of Mohano in place of his deceased father Jhapate Majhi.

(h) *Ronabha.*—The chief of Ronabha applied to me for permission to have his mutta managed by one Bayichandho Misro. I declined to grant the permission as the chief's nominee is an undesirable character and his appointment as Manager would cause friction between the chief and the people.

30. *Forests—Komankhole forests.*—With reference to paragraph 7 of G.O. No. 2246, Judicial, dated 8th November 1913, I submitted proposals with my letter R.C. No. 488-Ag./13, dated 16th April 1914, through the Board of Revenue, suggesting amendments to the rules approved in G.O. No. 800, Revenue, dated 20th July 1904, for the removal of timber from Komankhole forests.

It was also proposed to extend the rules to Barakhomma mutta in the Balliguda taluk which contains forests similar to those in Komankhole. These proposals were approved in G.O. No. 1582, Revenue, dated 2nd June 1914.

31. *Forests under the Special Forest Officer, Parlākimedi Maliahs.*—I give below a brief résumé of the work done during the last five years. The Special Forest Officer was appointed in October 1908 and has therefore been in charge for more than five years. At first he was placed in charge of the forests in the Parlākimedi Maliahs and those in Chandragiri mutta situated below the ghats. In 1910 the forests of the Thumba mutta and those of Chandragiri situated above the ghats were added to his charge.

About 157 square miles of forest have now been reserved,  $74\frac{1}{2}$  square miles in the Parlākimedi Maliahs and  $82\frac{1}{2}$  square miles in Chandragiri and Thumba. The revenue has increased from Rs. 200 in 1904-1910 to Rs. 18,600 in 1913-1914, and the expenditure from Rs. 10,100 to Rs. 28,000. The work of reservation has been considerably hampered by the boundary dispute with the Parlākimedi estate referred to in paragraph 25 (a). This dispute involves an area of about 40,000 acres of the main hills.

The improvement in the protected areas is very marked, and the hills are rapidly becoming clothed with a vigorous growth from which a considerable revenue should be obtained in the future as much of it can be easily extracted. In Messrs. Cox and Reilly's report the area of the hill portion of the Maliahs was estimated at 275 square miles, and it was recommended that 25 per cent. of this should be reserved. Practically the whole of the Mahendra and Singaraj ranges are now protected together

with a long stretch of high hills which form the southern water shed of the Mahendranaya river. Mudonda and Aidongiri are in process of reservation. A large reserve has been made in the mass of high hills lying between Rayagada and Jirangi, while the top of Devagiri and two of its main spurs are also protected. The reservation of Juntang and Munisingi await the settlement of the boundary dispute with the estate. If it is settled in favour of Government it is probable that about 20,000 acres will be added to the existing reserves. It will thus be seen that already more than the estimated 25 per cent. has been reserved.

There is no reason for believing that the Savara population has suffered from the reservation of these forests, though some of them have left for other parts. In some ways indeed the reservation work has increased their prosperity. They now get about 6 annas for a load of fuel which used to sell for 3 or 4 annas; this is due to the prevention of the wholesale theft of fuel by low country people which was formerly the practice.

On the whole, Mr. Welchman has a remarkably good record of five years' work to look back on, and there is every reason to be satisfied with the progress he has made.

32. An additional ranger in the fourth grade and an additional range clerk were sanctioned in G.O. No. 728, Revenue, dated 7th March 1914, in lieu of a deputy ranger sanctioned in G.O. No. 2435, Revenue, dated 14th August 1912, whose post was abolished.

33. *Alienation of lands.*—My report Dis. No. 39 R.-Ag./10, dated 14th October 1910, is under the consideration of Government.

34. *Markets.*—The market at Balliguda has not so far been a success. The Special Assistant Agent, Balliguda, is trying to revive it.

A shandy started at Barakhomma is reported to be flourishing.

35. *Toll-gates.*—The toll-gates at Kalingia, Sankarkhole and Luhagudi were sold for Rs. 2,600, Rs. 600 and Rs. 1,150, respectively, against Rs. 2,200, Rs. 420 and Rs. 1,110 in the previous year. The toll-gate at Puipani sanctioned in G.O. No. 782, Judicial, dated 25th April 1913, was sold for a sum of Rs. 300.

36. *Abkāri.*—The abkāri revenue during the year was Rs. 28,015 against Rs. 26,208 in the previous year.

My recommendations about the closure of arrack shops in the important market towns in the Balliguda Agency will be embodied in the proposals for the administration of arrack Revenue for 1915-1916 as directed in the Board's Reference No. 197/Abkāri, dated 6th March 1914.

At Gajilabadi in February I found that there had been no bids for the arrack shop for the ensuing year. I consulted the inhabitants, Khond and Uriya, whether they wished the shop to be closed or not, and as the general opinion was strongly in favour of its closure I ordered it.

I submitted a report to the Board of Revenue with my letter Dis. No. 2 D-Confdl./14, dated 9th April 1914, with regard to the measures to be adopted for preventing the cultivation of ganja referred to in the report of the Special Assistant Agent, Balliguda.

37. *Conduct of the Police.*—The question of recruiting for the Agency, Police Officers of the same qualifications as those recruited for the plains referred to in my previous reports appears to be still under the consideration of the Inspector-General of Police. One sub-inspector, one head constable and two constables were convicted at the Sessions during the year. The relations between the Sub-Magistrate, Balliguda, and the Police Reserve stationed there were strained for a time but matters have improved since. Both parties were to blame. On the whole, the conduct of the Agency Police during the year cannot be described as satisfactory.

38. *Emigration.*—With reference to the orders issued in Government Memorandum No. 579-7, Public, dated 15th May 1914, I recently submitted proposals in my letter No. 29 R. Ag./14, dated 19th June 1914, for opening up a portion of the Maliahs for recruitment to Assam.

## ENCLOSURES.

(i)

Letter—from W. K. GREEN, Esq., I.C.S., Assistant Agent, Goomsur Division.  
To—the Agent to the Governor in Ganjam.  
Dated—Camp Manitarā, the 16th April 1914.

I have the honour to submit my report on the administration of the Surada Agency for the year 1913-14 with the prescribed statements.

2. *Changes in the administration staff.*—I took charge of the division on the 6th June 1913 from M.R.Ry. K. Nageswara Rao Pantulu Garu who was temporarily in charge from 17th April 1913 and who took charge from M.R.Ry. P. Venkataramanayya Pantulu Garu. M.R.Ry. M. V. Appa Rao Pantulu had charge of the office of Deputy Tahsildar of Surada throughout the year, except for a period of two months from 7th September when he was granted two months' privilege leave when M.R.Ry. R. Jagannadha Rao Nayudu held charge.

3. *Touring.*—During the year I spent 18 days in the Agency with camps at the following places, Gazilabadi, Mimajodi, Gombariguda, Pajjibua, Adiponka, Jerakova, Ramanabadi and back to Gazilabadi. At each of these camps, I walked out and inspected the surrounding villages at a distance of 4 to 5 miles, inspecting in all about 40 villages. The Deputy Tahsildar of Surada (M.R.Ry. M. V. Appa Rao Pantulu) spent 3½ days in the agency and visited 45 villages. M.R.Ry. R. Jagannadha Rao Nayudu spent two days. The touring of the present Deputy Tahsildar is good.

4. *Season.*—The season was favourable, paddy, ragi and cholam were grown and gave a good outturn. The other dry crops also gave a good outturn.

5. *Vital statistics.*—The registers of births and deaths have been maintained by the Karjis of Gazilabadi, Bodogotcha, Nahagonda, Ramanabadi and Guidhabadi. Some of these registers have been checked and found to be fairly well kept.

6. *Criminal justice.*—I enclose a statement showing the number of cases filed and disposed of during the year both before me and the Sub-Magistrate. Last year's figures are shown in italics. The large increase is due to a larger number of cases under the Forest Act being launched, 10 out of the 16 cases filed before the Sub-Magistrate being forest cases; all the cases filed were disposed of within the year.

7. *Police.*—There were no complaints made against the Police. Excepting at Gazilabadi, the policeman seems to be an unknown being to the Khonds.

8. *Public peace.*—There were no cases of disturbances of the public peace during the year.

9. *Civil justice.*—One civil suit was filed during the latter end of the year before me and was disposed of before the end of the year.

10. *Public health.*—The general complaints are fever with enlarged spleen and small-pox. Small-pox was very bad during the year and accounted for several deaths. I found during my tour that the Agency vaccinator Nakula Poojari had entirely neglected his work and while spending his time elsewhere was sending in false travelling allowance bills. I made the necessary enquiries and dismissed him from service. A dispensary has been sanctioned for Gazilabadi, but it has not been opened out yet for want of quarters for the Sub-Assistant Surgeon. The dispensary and quarters are under construction and should be completed by the end of May next.

11. *Public works.*—The following works were executed during the year :—

|                                                          | Amount.       |
|----------------------------------------------------------|---------------|
|                                                          | RS.   A.   P. |
| (i) Improvements to the Pippilaponka-Gazilabadi Road ..  | 2,526 13 11   |
| (ii) Repairs to the rest shed at Ramanabadi ..           | 95 14 0       |
| (iii) Construction of a school building at Ramanabadi .. | 150 0 0       |

Out of the allotment of Rs. 2,600 allotted for No. 1 during the year, Rs. 2,526-13-11 was spent leaving a balance of Rs. 73-2-1 which was spent during April. The delay in the work was due to the negligence of the contractor who was consequently fined Rs. 25.

12. *Sanitation.*—No wells were sunk during the year and during my tour no requisitions were made to sink any—as a matter of fact, the Khonds prefer the jungle stream to a well.

13. *Abkari.*—During the year there was only one country liquor shop at Gazilabadi which fetched a rental of Rs. 700 as against Rs. 680 in the previous year. When the shop was put up to sale for the current year the renter wanted it for a mere song. As there was practically no need for such a shop the Agent has closed it for the current year. There were no complaints of illicit manufacture of liquor nor were any offences reported under the Abkari Act.

14. *Opium.*—There are no opium shops in this Agency.

15. *Forests.*—I enclose a separate note sent to me by the Agency Forest Ranger which gives details of the workings of that department. The Khonds had no complaints whatever against the three Deputy Rangers in the hills (Ghombariguda, Pajjibora and Adiponka) on the

other hand, they seem to live in contentment and on the most friendly terms with them. Their only complaint was that too much land had been taken up for the reserve and too little left for them. I am touching on this point later on. In Gazilabadi and surrounding villages, the feeling against the Forest department was very bitter and the general complaint was that they were being unduly harassed. In one forest case, I reversed on appeal. I found after a personal inspection that the accused was charged for cutting a few small trees on his own inam land which the Deputy Ranger thought was "unreserve." A general complaint was made to the Agent when he camped at Gazilabadi in February 1914.

16. The Khonds in Gazilabadi and adjoining villages want the Kettavalli hill, near the forest rest shed at Gazilabadi and the lands at the foot of it to be given to them for cultivation. This hill and the lands are "unreserve" and as the Khonds, are badly in need of lands for cultivation, their request deserves favourable consideration. The matter is under correspondence with the District Forest officer.

17. *Dengabandho and Pottasingi.*—These are two Khond villages situated in one enclosure. The former contains 12 houses. The Khonds complain that the reserve line comes too close to their houses and that much of their cultivated land has been included in the reserve. I found this to be the case. The reserve line is just one furlong north of the village-site and less than a furlong east of it. On the south it is about three furlongs off. These two villages are too much hemmed in by the reserve. The Khonds want their old cultivated lands to be restored and also a small hillock lying north of the village. Their request is reasonable and I would recommend it being granted by shifting the reserve line further off. The land allowed them for cultivation is very little, more especially as nearly all the cultivation is "podu." The Podoro of Buddambu also makes a similar complaint and wants the reserve line shifted further inwards and the cultivated lands he previously had, restored to him.

18. *Boundary disputes.*—There were no boundary disputes during the year.

19. *Condition and relations of zamindars, land-owners, hill chiefs, etc.*—There are no zamindars, hill chiefs, etc., in the Agency. The condition of the cultivating classes is poor.

20. *Indebtedness and alienation of lands.*—There have been many alienations of Samastanam paiks' lands in the Pondakhole mutta, in Adiponka and Pottasingi. No alienations have taken place in the other muttas.

21. *Vaccination.*—Four vaccinators worked in the agency during the year. Their work was far from satisfactory, as in the case of the man dismissed. I am inclined to think the others also made believe they toured the agency while they spent their time elsewhere. To prevent this, I have ordered the vaccinator to attach himself, for the time being, to the Forest Deputy Ranger and tour with him and do his vaccination work. The Deputy Rangers as mentioned above are well known to the Khonds who look upon them as their employers. The Deputy Rangers also have much interest in the Khonds in order to do their forest clearance, etc., and as small-pox has been doing much havoc and has caused a number of deaths and the available Khonds are not sufficient for the forest department labour, it would be of equal interest to the Ranger to see that the men are protected. Besides this, a stranger going from the plains into the agency does not know where to put up. The Khond does not know who he is and being averse to vaccination, good results do not follow. I expect far better results with the vaccinators touring with the Rangers. A statement showing the number of cases vaccinated is enclosed.

22. During my tour in the Agency, I sent orders for the vaccinator to accompany me, but no one could find him anywhere. He subsequently turned up from Daringabadi of the Balliguda division when I completed my tour. His successor accompanied the Deputy Tahsildar during his tour and vaccinated 99 unprotected children in 33 villages.

23. *Education.*—Statement No. IX is enclosed. There are three Government schools and one aided one in the agency. I inspected them all during my tour and distributed clothes while at Ramanabadi. I selected a suitable site for the location of the school which has since been constructed and completed at a cost of Rs. 150 under the supervision of the Deputy Ranger. All the schools show a steady increase of pupils.

24. *General.*—A good forest tract is being laid by the Forest department between Gazilabadi and Ramanabadi which has almost been completed. I would suggest that the tract be made into a metalled road joining it on to the Pippilaponka Gazilabadi Road.

(ii)

Letter—from R. W. DAVIES, Esq., I.C.S., Special Assistant Agent, Berhampur Division.  
To—the Agent to the Governor in Ganjam.  
Dated—the 11th May 1914.

I have the honour to submit my report on the Jarada, Thumba, Budarasingi and Mandasa Maliahs for the year 1913-14.

2. *Tour.*—My tour lasted 13 days (February 4-16) during which I halted at Jarada Thumba, Budarasingi, and Sabakota. Mr. Rutherford also spent five days at Thumba in September. He was engaged in the settlement of a boundary dispute. The total duration of touring was therefore 18 days. The Deputy Tahsildar, Sompeta, spent 18 days in the Agency.

3. *Office of Assistant Agent*.—This was held by Mr. Rutherford from 1st April 1913 to 1st October 1913 and by myself from 5th October 1913 to 31st March 1914. In this connection it may be pointed out that during the last twelve years, if not prior to that, there has been a great lack of continuity of officers. In only one year (1906-07) has the same officer been in charge throughout the year and he (Mr. Lys) was unable to tour in the Agency owing to ill health. The average life of a Divisional Officer during the last thirteen years has been little over four months. This cannot be good for the administration and the inhabitants of the Agency cannot have more than a passing acquaintance with any individual officer.

Mr. A. Prakasam Pantulu continued to hold the post of Agency Deputy Tahsildar, Sompeta, during the year under report.

4. *Jarada Maliahs*.—The only incident during the year has been a complaint by the karji as to the non-payment of mamuls. There is no Bissoyi.

5. *Thumba Agency*.—This Agency, the old Jalantra Maliahs, has now been under Government ownership for four years. There are several points of interest in connection therewith—

(1) In the first place Mr. Ghose recommended that this tract should be transferred to the "plains." I must say that I entirely disagree. The whole atmosphere of the place is "Agency" and I think that the boundary line has been extremely well drawn.

(2) In the second place, Mr. Bhore suggested that Thumba might be opened to recruitment for emigration. With this proposal I am in agreement, although I do not approve of the contract system. Mr. Bhore expressed the opinion in his last report (1911-12) that recruitment was still going on. I could find no proof of this, nor from my Berhampur experience do I consider it certain, but on the other hand I found a distinct unreadiness to impart information on this and other subjects whether on the part of the Bissoyi's sons or of the Savaras.

(3) I heard no complaints against the Bissoyi, although one of his sons was fined Rs. 10 quite recently for hammering a Savara karji who refused to do vetti work. Successive Agency officers have reported on the opium smoking habits of the Bissoyi and his sons. The Bissoyi himself I did not see, but a report on his condition drawn up by my medical attendant states that he is a confirmed opium smoker, that his state is hopeless, that he is "reduced to a miserable condition" and is "suffering from chronic Bright's disease, bronchitis, and oedema of the body and limbs." He is obviously unfit to discharge the duties of his office. Two of his four sons appeared at odd intervals while I was there, and one of them, Shamosundaro Bissoyi, actually came out shooting with me. But I am informed that ordinarily they confine themselves indoors and give themselves up to the delights of "maddat." The eldest son (Sridhoro Bissoyi) is much enfeebled, the second son has some pretensions at vigour but is confirmed in the opium habit, to which the two younger sons still in their teens, have long since fallen victims. As the Bissoyi is unfit to discharge his duties, it is obvious, as was suggested by Mr. Braidwood three years ago, that he should be removed from office. It is not sound policy to retain the unfit in posts for which they are unfitted, and as far as a successor goes it is equally undesirable to appoint an opium sodden pervert. Who then is to be appointed? Not another Bissoyi, at least I deprecate such an appointment strongly. Thumba Agency belongs to Government, not to any zamindar or muttadar. It should therefore be managed directly by Government and not through a Bissoyi, whose position implies an honorific dignity which it is no longer necessary to sustain in Thumba. Thumba should be taken under direct Government management as has been done with certain muttas in the Gudem hills of Vizagapatam and also I believe in Gōdāvari. At present the forests have been reserved and there is a considerable staff of Government servants. There is in every village a karji, and in many a dōlayi and naiko as well. There is also a large number of paiks, about 60 I believe. This whole structure of officials may well be abolished, a rough ryotwari settlement made with fixed rents, in place of mamuls and of inam lands, and a headman appointed with four paiks to collect Government money and to arrange for vetti work. An incident of tenure would be liability for vetti work on payment. The Savaras living on the hill tops without cultivable land would pay a hut tax in lieu of the existing mamuls. If the mutta were thus taken over under direct control, Mr. Braidwood's scheme of restoration of irrigation sources might be brought into effect.

(4) I had more than one complaint of forest reservation. This is but natural, seeing how recent reservation has been. One complaint was I think justified and this has been disposed of separately.

(5) The policy of well construction in Thumba is being pursued with more or less success. Three wells are in good order, those constructed at Thumba, Saradapur and Limigam. The two latter are being improved this year by the addition of platforms. The wells constructed at Tittigam and Lakkusayi have fallen in and the money spent Rs. 500 has been wasted. Mr. Rutherford has proposed the construction of four more wells and this proposal will be carried out in course of time. The local inhabitants prefer "bondos" to "wells," and I should prefer to spend money in this direction. The prohibitions of sanitation stand in the way however.

(6) I did not visit Ondando but I met some of the Savaras from that side. They had no complaints.

6. *Budarasingi Maliahs*.—I travelled from Thumba to Budarasingi, a route not traversed before. The Budarasingi Maliahs cover an extensive hill tract, but nearly all the Savara villages are perched on the heights and form a complete contrast to the greater portion of the Thumba region. The Savaras live on forest produce, coupled with a limited extent of "Bogodo" (Kondapodu) cultivation. I spent a day wandering in the hills and only found one village. I met a number of Savaras however and also a quota of men from the plains who were engaged in exploiting the Budarasingi timber resources. Bamboo and other small timber are extracted in large quantities during the present season; during the rains Budarasingi is secluded from the world, the only approach for carts being over the paddy fields. The question of a road from Kurlam to Budarasingi is worth the attention of the Taluk Board and I believe that the late President interested himself in the matter.

Of complaints in Budarasingi I had only one, so far as the Maliah portion is concerned, and that from the zamindar himself. He stated that two of his mutta villages had been included in the proposed Ondonda reserve and that the Savaras had thereupon ceased to pay the usual mamuls. A separate reference has been made. The estate of Budarasingi is heavily involved in debt and may be unable to escape from the condition into which it has sunk owing to the extravagance of the late zamindar. This is a matter however which lies outside the scope of an Agency report, and I will not enlarge on it.

7. *Mandasa Maliahs*.—The general position has not yet been definitely settled in spite of the proceedings of the Agent, R.C. No. 92-Ag. of 1912, dated the 9th May 1913. Mr. Rutherford wrote a full report on the condition of the Mandasa Agency tracts after his last year's Agency tour and it was on this report that the Agent's order was based. The facts with regard to these maliahs require to be briefly re-stated. In 1875 a sanad was granted to the Zamindar of Mandasa as muttadar (Taylor's Manual, page 191), from which it is seen that there was then only one mutta instead of the two now assumed to exist, and that this mutta consisted of 28 villages. Of these villages, the first has ceased to exist, whereas the last three have been included in the Ramroy group as plains villages. Lokidigam (No. 19 in the sanad) is deserted, and the correct name of Bangada is Jangada. Twenty-four of the sanad villages therefore remain, and of these fourteen are now included under the head of Saba Agency and ten (including the deserted Lokidigam) are classed as Dabarasingi. Taylor's Manual (page 43, paragraph 2) declares that there are two muttas which is of course incorrect and that there are 19 villages in Saba and 12 in Dabarasingi. From the report in the taluk office on which Mr. Taylor's information is based (report No. B-1513, dated 31st October 1900), it may be presumed that the 19 Saba villages are made up of the fourteen just mentioned and of the five villages Sankuda, Muntasayi, Loba, Akhada and Burasingi, which are of recent origin, and that the 12 Saba villages are composed of the ten mentioned above and of two recent villages, Chonagar and Hukuma (also known as Jakkara). In paragraph 3 of chapter IX of the Manual, Mr. Taylor states that there were originally 36 villages in Saba muttah of which 17 were transferred to the plains by Government. The order of Government is not quoted, but it is obvious that Mr. Taylor's statement is incorrect, as it is inconsistent with the sanad itself. As a matter of fact the Saba plains consist of 17 villages and the Dabarasingi plains of 7, so far as I ascertained, and certainly since 1875, if not before, these have never been included in the maliahs. Correspondence, if any, on these subjects will be available in the Agent's office. It is not available in the offices of the Assistant Agent or Deputy Tahsildar. Appendices I and II to my report tabulate the information as to the extent of the agency.

8. *Mandasa Bissoyis*.—If we take a line from the sanad, from Mr. Rutherford's report and from the probabilities of the case, it would seem that in their origin the Bissoyis of Mandasa were officials of the zamindar. There are several Bissoyis attached to Mandasakota who have ceremonial, and in some cases territorial, duties to perform. They receive insignia of office from the zamindar, a silver ankle chain, which is attached to the left ankle, two gold bangles, a gold nose ring and a silk sadi. In the case of Saba and Dabarasingi the Bissoyis were also, prior to the grouping system, karjis of the Saba and Dabarasingi plains villages. They still remain as karjis of their head-quarters villages, which have not yet been grouped. They have come however, by analogy, to be treated as Government servants, but beyond the fact that their appointment and dismissal now rest by custom with Government, a custom which the zamindar has not so far as I am aware contested, the position of Government in their regard is of slight historical value. In the Mandasa Maliahs the Savaras deal direct with the zamindar, who has now officials of his own (ugranis) to act on his behalf, and the Bissoyis receive all their fixed emoluments as well as the insignia already referred to from the zamindar. As Mr. Rutherford stated, there is no necessity to disturb existing arrangements, for the Savaras prefer to deal with the zamindar direct, and so far as the Mandasa zamindar is concerned, we have experienced no obstruction in our dealings with Agency matters. He has nominated the Saba Bissoyis for some time past, and the present nomination promises for the time being to be a success, but so far as Dabarasingi is concerned with the appointment of the Bissoyi of which he had no concern by recommendation or nomination, he is not responsible for the existing state of affairs which has been the subject of comment for a number of years. The present Bissoyi, who was appointed last year, is on inimical terms with the Savaras, and is in consequence unable to discharge the slight duties which Government imposes on a Bissoyi, viz., of supplying labour for Agency works. He has set the Savaras against himself by laying

claim to land in the Savara villages to which he has no right whatever, and has twice brought criminal cases against them with reference to their own lands, which have been dismissed by the Sub-Magistrate of Competa. The Deputy Tahsildar's report on the subject is contained in his Dis. No. 1359, dated 3rd December 1913. That there is any chance of a reconciliation between the Bissoyi and the Savaras I do not believe, that the Bissoyi is a man of insignificant personal appearance and influence is patent, and it follows that the present holder of the post will not be able to execute on behalf of Government those duties to carry out which he has been appointed. With all respect for the recommendation of my predecessor and with due deference to the order of the Agent appointing Govindo Gojendra as Bissoyi, I think that the appointment has been a mistake. The continuance of the present position simply serves to render the authority of Government futile. In making an appointment to the post of Bissoyi, it seems desirable to select a man who will be *persona grata* to all parties and the present Bissoyi is agreeable neither to Government, to the zamindar, nor to the Savaras. The Agent issued orders that the mamuls noted on page 43 of Taylor's Manual should be collected from the Savaras and paid to the Dabarasingi Bissoyi. In the state of irritation existing between the parties this order did not succeed in producing an amicable settlement, and for reasons to be stated later the order has not been carried out. To my mind the simplest solution of the present *impasse* is to restore the *mutta* to the single and indivisible position which it holds in law and to appoint one Bissoyi for the whole *mutta*. Saba being the more central position, the post of Bissoyi of Dabarasingi would disappear, and with that disappearance would end, I presume, the present difficulties. In Dabarasingi Agency, as elsewhere, each village has a head Savara or Bhuyya, who is not a karji but a personal head whom they follow—the villages have also karjis and naikos—and over all is a head Bhuyya. Whether we should recognize this hierarchy and direct the Bissoyi of the Mandasa *mutta* to issue orders through the Bodo Bhuyya is a question that should await decision until my proposal to reunify the *mutta* has been accepted.

Appendix III gives a statement of the duties and emoluments of the Bissoyis.

9. *Mandasa mamuls*.—Mamuls have never yet been fixed in the Mandasa Agency. The list given on page 139 of Taylor's Manual is entirely incorrect so far as Dabarasingi is concerned and is not followed in detail even in Saba. Mr. Taylor's statement is based on a report from the Deputy Tahsildar submitted at the time of the compilation of the manual (No. B-1513, 31st October 1900) which in its turn was abstracted from a vernacular report of the zamindar dated 7th October 1900.

There is no authority given for the statements made by the zamindar, and it may be taken that the zamindar himself or one of his officials entered the zamindar's own claims, and that the Bissoyis made their own statements as to their mamuls, which were embodied in the zamindar's office without enquiry. They were certainly abstracted by the Deputy Tahsildar without further enquiry, and as the paper did not pass through my office it is obvious that the Principal Assistant Agent made no enquiry either. Appendix IV gives a comparative statement of the mamuls of the Bissoyis as found in the zamindar's, Deputy Tahsildar's, and Mr. Rutherford's reports, and in Taylor's Manual. The difference between Mr. Taylor's list and the Deputy Tahsildar's list is not easily explicable in view of the fact that no independent enquiries were made.

It will be noticed that there is a great discrepancy in quantity between the mamuls of the Saba Bissoyi, and those of the Dabarasingi Bissoyi. The former receives 8 addas of dry grains (5 manos Mr. Taylor) from the whole *mutta*, whereas according to Mr. Taylor the Dabarasingi Bissoyi should receive 10 manos from each house and according to the Deputy Tahsildar 15 manos. A mano is a much larger quantity than an adda, yet in the place of 8 addas (5 manos Mr. Taylor) from the whole Agency, as in Saba, 10 manos should be levied from each house in Dabarasingi. The mistake is due to a misreading of the zamindar's vernacular letter, which I have consulted, and from which it is clear that while four annas are to be levied from each house, the grain is to be collected from the eleven villages specified, that is from the whole *mutta*. The vernacular might also mean from each of the eleven villages but this is less probable in view of the phrasing. It is not clear either whether the four kunchams of korra, cumbu and red gram, are in the alternative or whether four kunchams of each crop should be furnished. At any rate the mamuls referred to by Mr. Taylor are not only unauthorized but inaccurate in main particulars.

10. The order of the Agent, dated 2nd July 1913, that the mamuls referred to in Taylor's Manual should be collected and paid to the Dabarasingi Bissoyi, was followed by the issue of No. I demand notices from this office.

On the 1st December the Deputy Tahsildar reported that the Savaras declined to pay and I thereupon informed him that I would dispose of the matter during my Agency tour. I have not done so, as I find that the mamuls noted in Mr. Taylor's Manual are not only incorrect but quite unsuitable, and also because I consider that the unification of the *mutta* should be effected.

11. In appendices V and VI I have dealt with the karnams, ugranis, and paiks who have or profess to have some status in the agency. No orders need be passed with regard to them, but the information may prove of use on future occasions if embodied in a permanent record.

12. *Schools*.—Two schools were opened at Thumba and Saba in June 1913 and teachers were appointed with a salary of Rs. 10. At the time of my inspection the teachers were undergoing training at Berhampur and their places were occupied by acting substitutes. The acting teacher at Thumba is quite a capable master.

There is no suitable accommodation for the schools, and buildings must be constructed as soon as the movement is proved to be a definite success, as I think that it will be. At Thumba the strength was 28 and at Saba 16 at the end of January. Necessary proposals for construction will be submitted in the budget.

13. *Criminal and civil justice*.—Statement No. V shows the disposal of criminal cases. No civil suits have been filed during the year.

14. There were no hospitals or dispensaries in the agency.

15. *Vaccination*.—One thousand and two hundred cases were vaccinated during the year. Of these 1,089 are reported to have been successful.

16. *Agency works*.—Statement No. X gives the details of works done during the year.

A sum of Rs. 5,400 was sanctioned, out of which Rs. 3,572-7-10 were spent and Rs. 1,831-8-2 were surrendered. This is not satisfactory.

17. *Wild animals*.—No rewards were sanctioned during the year for killing wild animals.

(iii)

Letter— from A. J. KING, Esq., I.C.S., Special Assistant Agent, Chicacole Division.

To—the Agent to the Governor in Ganjam, Chatrapur.

Dated—Chicacole, the 12th May 1914.

I have the honour to submit the following report on the administration of the Parlākimedi Agency for 1913-1914.

2. *Administrative staff*.—Mr. J. W. Bhore, I.C.S., held the office of the Special Assistant Agent until the 25th February 1914 and Mr. L. H. Arndt, I.C.S., was in charge of the division till the 7th March when I took charge from him. M.R.Ry. K. Janaki Rao Pantulu was in charge of the office of the Deputy Tahsildar, Parlākimedi, till 6th June 1913. M.R.Ry. K. V. Subbarao Pantulu from 7th June 1913 to 7th July 1913 and M.R.Ry. Y. Suryanarayana Pantulu from 8th July 1913 till the end of the official year.

3. *Touring*.—My predecessor Mr. Bhore made three tours in the Agency in November 1913, January and February 1914. The Deputy Tahsildar spent seventy days in the Agency in the year. A statement showing the number of days spent by each officer is hereto attached.

4. Mr. Bhore has sent to me his notes on the Agency for 1914 containing his remarks about the touring of the Deputy Tahsildar, Parlākimedi, the elephant establishment, season, Police, Bissoyis, and disputes, Education, Medical and Forest. I enclose a copy of his notes.

5. *Civil and criminal justice*.—Statements are enclosed showing the number of suits and cases received and disposed of and also the number of persons involved in criminal cases. The case under section 110, Criminal Procedure Code, pending at the end of 31st March 1913 ended in the acquittal of the accused. The majority of the suits pending are those filed by the Bissoyi of Namanagaram against his tenants who, it is alleged, have not been paying him rents since fasli 1319.

6. *Vaccination*.—The number of cases vaccinated during the year is 1,488 against 1,404 of last year showing a slight increase over last year's figures.

7. *Abkari*.—There were three stills for distillation of Ippa arrack in the Agency tracts. These fetched a rental of Rs. 1,175 against Rs. 2,170 for four stills last year. The decrease is due to the still at Busalo having been abolished.

8. *Wild animals*.—A sum of Rs. 30 is reported to have been spent on account of rewards for the destruction of wild animals.

9. *Agency civil works*.—I have not been in receipt from the Deputy Tahsildar, Parlākimedi, of the enclosure to the administration report showing the expenditure of Agency civil works—original and repairs—I wired to the Deputy Tahsildar to submit the same to you and send a copy of it to me.

10. The other usual enclosures are attached.

SUB-ENCLOSURE.

Mr. Bhore's notes on the Agency (1914).

(Parlākimedi.)

M.R.Ry. Y. Suryanarayana's touring has been poor. I must not be understood as making any special reference to this officer but it has been more strongly borne in upon me than ever that so long as we have subordinate officers whose jurisdiction lies partly in the plains and

partly in the Agency tracts, the latter will be neglected. The Agency is looked upon as a necessary evil and only the minimum touring necessary to avoid adverse remarks is done by the officer in charge. The plains afford an excuse. This in my opinion is the cause of the present state of the Agency roads. Some of them, as for instance the Ojjaigodo Serango road and parts of the Gyba Gumma road require only nominal attention. Their condition does not reflect any particular credit on any one. The other roads are distinctly poor. Personal attention is needed and this is only possible from an officer who does not look upon the agency as a place to flee from at the first opportunity. There are few roads that cannot be bettered. A deviation here, and a change in gradients there are always possible and this can only be done by personal direction and supervision while the roads are in progress. I have little doubt that such personal attention is never or very seldom paid. The present practice appears to be for muttah heads or maistris to start the annual repairs. The roads are then left to themselves until a final rapid journey generally in a palanquin is made over them by the Deputy Tahsildar and the bills are passed for payment.

2. *Elephant establishment.*—The elephant Chilka was under the orders of Government destroyed during the year. A new elephant was bought by Mr. Welchman, the special Forest officer, and she accompanied me on my last tour. She is still young and will not, for two or three years more, be able to carry a full load but she is a promising bargain and likely to prove very useful.

3. *Season.*—On the whole, the wet crops were poorer this year than the last but, while there was a diminution in the outturn of the paddy crop there was no appreciable loss anywhere. The dry crops on the other hand were exceptionally good.

4. *Police.*—I have few remarks to make on the conduct of the police during the current year. It is very seldom that their work came directly to my notice, the number of police cases being extremely few. I must however note that their conduct was not entirely free from complaint. I noticed recently that police officers were making frequent remarks about the difficulty in obtaining coolies especially in the muttahs of Rayagada and Jerangi. The bissoyi of Jerangi whom I questioned carefully about the matter explained to me that the complaints were due to his action in refusing and directing his savaras not to pay the customary mamuls to the police subordinates. The District Superintendent of Police recently issued an order that any police subordinate who was found to have taken mamuls at Dasarah would be severely dealt with. Apparently this direction was sought to be avoided and the subordinates tried to continue to exact their old dues. I have no reason to doubt the Jerangi bissoyi, for he has proved a most trustworthy officer and in my letter to the Assistant Superintendent of Police I explained this aspect of the question asking him to verify the allegation as far as possible. There were, however, no complaints of actual extortion.

5. *Bissoyis and disputes.*—I settled two boundary disputes, one of which was an intermuttah dispute and the other a difference between two villagers in the same muttah. The first of these, nominally a difference between the villages of Balimundo and Colambasingi was really a dispute between the bissoyis of Ojjaigodo and Namanagaram. I find that Mr. Partridge had practically the same question to deal with when he was Special Assistant Agent and I have merely reiterated the conclusion at which he arrived, as there can be no doubt it was the correct one. The other dispute between the villages of Dokkaisingi and Okkra, I settled to the satisfaction of both parties. The bissoyis of Lavanyakota and Narayanapuram have as usual maintained the customary peacefulness of their muttahs. In Jerangi, there were less disputes than usual and such as there were, were of trivial nature not reflecting on the conduct of the bissoyi and his treatment of his savaras. In Ojjaigodo, the dispute between the bissoyi and the two bissoyanis about the maintenance allowance sanctioned to them once more occupied my attention when I visited the fort. I submitted a separate report containing my recommendations as to the future settlement between the parties. In Jerangi, the only point of interest was the complaints by the bissoyi of the treatment he has received from the villagers of Luaba and Engaroginji. These villages contended that they have nothing to do with the bissoyi but are directly under the zamindar of Parlakimedi to whom they pay their mamuls. It is a fact that no mamul is paid by these villagers to the bissoyi and no vetti service is done by them. The reason for the existence of this unusual practice should be enquired into. In view of my hurried departure from the division, I had no opportunity of doing so myself. In Koipuram, for the first time, complaints were made to me about the acting bissoyi. I looked into them carefully and came to the conclusion that they were groundless and were engineered by the Hoddadar whom I had recently dismissed on finding that he was a non-resident who spent all his time in Parlakimedi merely putting in an appearance at Koipuram on the occasion of the visit of any Agency officer and to collect the rents of his inam lands. He had succeeded in enlisting the mother of the minor bissoyi in favour of his case and she added her complaints to swell those made by others against the bissoyi. I would bring to notice for your special attention the procedure which is now adopted in regard to the collection of kattubadi from the bissoyis. The present practice which is a relic of the old days when the Parlakimedi Agency was prior to the decision of the Privy Council under the zamindar of Parlakimedi is for the zamindar to collect the kattubadi from the bissoyis and to pay it with his peishush to Government. In my opinion, there is no reason or justification for such a practice. The perpetuation of a practice which obtained when the zamindars' suzerainty over the agency muttahs was admitted should not be allowed

to continue when that suzerainty has come to an end. The present practice has nothing to recommend it and is only calculated to raise false claims and induce false ideas in the muttah people. I would recommend for consideration the cancellation of this old procedure and the collection of kattubadi direct from the bissoyis. I am of opinion that the zamindar himself would welcome such a step for, to the best of my experience it seems to be a point of honour with bissoyis not to pay him the kattubadi until he has filed a civil suit for its recovery in special Assistant Agent's Court.

6. *Education.*—I have little to add to the general principles that have been affirmed by the Agent and other Agency officers in regard to Savara education. Our Agency schools are so far as Savaras are concerned a lamentable failure. The school at Koipuram and to a lesser extent that at Jerangi alone contain a few Savaras and this state of things will continue until the Government pass orders upon the proposals already made for obtaining a supply of trained Savara teachers. I need not elaborate my remarks on this point as the matter is under the consideration of Government. All I would say is that I trust that the mistake which is being committed by the missionaries in the Udayagiri Agency will not be perpetrated here. In my opinion, the reduction of the Savara language to writing in Roman characters has nothing practical to recommend it. It must be recognised that the Savara cannot get away from his environment and that if education is to be of any use to him, he must sooner or later be taught Uriya or Telugu as the case may be. To require him to study Roman characters from the wholly unnecessary purpose of studying his own language and then to go on to the Uriya or Telugu character is an utter waste of the small stock of mental energy he possesses.

7. *Medical.*—The Government were pleased to approve of my suggestion that a permanent itinerating medical officer might be tried in the Agency tracts. This proposal has not yet been reduced to any definite shape. The medical aid which the sub-assistant surgeon attached to my camp was able this year to render was poor in the extreme. The medical officer was in feeble health and spent much of his time in attending on himself.

8. *Forests.*—Last year, I remarked upon the condition of the Agency forests. It might seem as if I were extravagant in my comments on the work done by the Special Forest officer but to one who knows the country and its people, the results that have been obtained in the short space of five or six years are little short of marvellous. The forests around and about Narayanapur are really worth the name and in a very few years time by reason of their accessibility should prove a valuable asset. I had no complaint in regard to reservation except from the bissoyi of Rayagada. To one who knows the bissoyi his sudden solicitude for his savaras was a little surprising. I went over the boundaries of each of the villages mentioned by the bissoyi as having been unfairly dealt with by the Forest officer. In no case was the complaint even remotely justified. In some instances the Savaras having had too much land had even leased what they could not cultivate to low country tenants. In one instance the reserve had taken in a small piece of semi-permanent cultivation. This was excluded by the Forest officer and the forest boundary was taken round it.

(iv)

Letter—from T. G. RUTHERFORD, Esq., I.C.S., Special Assistant Agent, Balliguda division.

To—the Agent to the Governor in Ganjam.

Dated—Camp Gangupur, 25th April 1914.

No.—Dis. 23-R./Ag.

I have the honour to submit my report on the administration of the Balliguda division for the year 1913-14.

2. Mr. E. Graham, I.C.S., was in charge from 1st April to 31st October. Mr. Bles, posted as his successor was unable to take charge, owing to an accident and the Special Assistant Agent, Berhampur, held charge till 5th January 1914 when I assumed charge. Mr. Green, Assistant Agent, Goomsur, disposed of magisterial work from 3rd December 1913 to 5th January 1914. M.R.Ry. K. Kumaraswami Ayyar held charge of Balliguda taluk throughout the year, as did M.R.Ry. Deenabandhu Panda of Ramagiri taluk. M.R.Ry. R. Jagannadha Rao held charge of Udayagiri taluk till 25th August 1913 when he was relieved by M.R.Ry. N. Gopala Krishnamma Patnaik, who continued in charge till the end of the year.

3. *Touring.*—The usual sketch map is enclosed, showing the tours made by Mr. Graham and myself. Mr. Graham made two tours, the first from 1st April to 30th June, the second, 19th September to 3rd October. In the first tour starting from G. Udayagiri, he proceeded *via* Raikia to the eastern side of Balliguda taluk and followed the military road down to Baminigam; from there to Kattingia and then south through Panigonda into Ramagiri taluk, the whole of which he covered before returning to Russellkonda *via* Merikot and Surada. At Kattingia Mr. Graham had to enquire into the finances of the Kattingia minor's estate and the sufficiency of his allowance. He notes that the minor is "a nice looking well-mannered boy, but as yet he seems to have no opinions of his own." The minor is being married this year; he or his advisors wanted to spend the whole of the savings of the last few years on the ceremony. I cut the allotment down to Rs. 400 which seems ample. The people of Kattingia requested Mr. Graham to close the arrack shop. This has been done. In his second tour, Mr. Graham went *via* Udayagiri to Sarangodo,

to meet the Sub-Divisional officer Khondmals, for a joint supervision of the demarcation of the boundary between Sarangodo, and the Kondmals, and returned the same way to Russellkonda. After taking charge, I was in Chatrapur till the 16th January in charge for the Collector. I left Russellkonda on the 23rd and entered the agency at Neddiguda in Chokkapad khandam. I spent some days at Neddiguda and Chokkapad and then proceeded to Udayagiri via Tikkabali, meanwhile making enquiries and some house searches for illicit ganja, the traffic in which was alleged by the Orissa authorities to be still going on, but without result. In Chokkapad, I had general complaints from Khonds about the way in which they have been ousted from their lands by the Sowears. They also complained about having to do veti though they had no land and owing to the reservation of the forest could not do podu. I think we will have soon to raise the allotment for roads and bungalow work, in this part. One or two individuals came forward with definite petitions after I had left the khandam and it was impossible to make local inspection. In those I enquired into, the sowear always had sale documents and at least as good evidence as the vague statements of the Khonds. Mr. Todd, the Special Settlement officer, with whom I have discussed the subject, proposes a careful shroffing of these documents with regard to areas and the amount of sivoyijama land included in the sale. Matters are not improved by the growing practice of bringing Haddis and Bavaris from the plains to cultivate, instead of giving the lands for cultivation to the Khonds on the sharing system. While at Chokkapad nine Brahmanapad paiks handed in their resignations on the ground that they had too much to do. Two have subsequently withdrawn, but the other seven have been accepted. I suspect Trilochano bissoyi of instigating this, more especially, as it is mostly relations of the resigned paiks who have come forward for the vacant posts.

From Udayagiri I proceeded by the north road to Balliguda; from thence via Sirthiguda to Daringabadi, to meet the Agent; then on to Daringabadi on the military road, and after a halt there for some days, in an unsuccessful attempt to 'bag' the man-eater of those parts, cut across country to Sreerampur in the south of Balliguda taluk; from there I went via the western side of Balliguda taluk and the fringe of the Kutiakhond country to Balliguda again. From Balliguda, I marched to Khomankhole muttah to inspect the forests with reference to the question of further limiting the number of trees cut per annum and reducing the patro's commission. The muttah is the roughest I have yet seen, containing very little wet land. Returning to Balliguda, I followed the south or Kalipano road to Udayagiri and Russellkonda via Kalingia Ghat. Except for the Kuttia Khond country in the extreme west, a small portion of Udayagiri taluk and the centre of Balliguda taluk between Subarnagiri and Balliguda, the whole division has been toured through by Mr. Graham and myself during the year, notwithstanding the fact that the greater portion of the cold weather touring season was lost. The total number of days spent on tour within the agency was 104 plus 66=170. The touring of the Deputy Tahsildars has been satisfactory.

4. *Criminal Justice*.—Statement No. I gives the statistics for the year. In my own court, there have been two cases only a little out of the ordinary run. One, a charge of forgery against the Ronabha chief which is still pending, and a case of cultivation and sale of illicit ganja against a constable of the Balliguda reserve which ended in conviction. There has been an increase in my file this year, forty-five (includes two from last year) as against 39 last year, which is due to the Sub-Magistrates of Balliguda and G. Udayagiri sending up some cases for whipping punishment under section 389. Of the cases disposed of in my court 24 resulted in conviction and 21 in discharge or acquittal.

In the Sub-Magistrate's court there has been nothing noteworthy except the trial and conviction of some constables of Balliguda Reserve, which was confirmed on appeal, and is now up to the High Court, and a curious murder case which was committed to the sessions by the Balliguda Sub-Magistrate after the Police had refused to charge anybody on the ground of there being no evidence of any particular person's guilt. The four accused were convicted and sentenced to death by the Additional Sessions Judge, but the High Court on revision set aside the conviction and acquitted the accused. In the Sessions Court, one head-constable and two constables along with others, were convicted of torture and got six years transportation. There have been a number of sanctioned prosecutions for illicit distillation and sale of liquor by Uriyas and Sondis, mostly hailing from the Balliguda taluk, where the Deputy Tahsildar has done some good work in detection in out-of-the-way villages. A case of cultivation of ganja in Komankhole muttah and the evidence given before me in C.C. No. 19 of 1914 leads me to suspect that the cultivation of Ganja in small quantities is not wholly stopped yet. I think, however it is mainly for local consumption in Balliguda, where there are said to be hundred and fifty smokers. It might be as well to open a licensed shop there; there is already an opium shop, and though it is against the rules and practice in the plains, the two might be combined in Balliguda. The opium shop sells for about Rs. 300 only.

Cattle thefts have been few and credit may be given to the hide branding system. The Panos in and about Mohano have recently applied for a branding iron to be given to their muttah head, which shows at any rate that the brand is regarded as a useful guarantee.

5. *Civil Justice*.—Statement II gives the statistics. I have no remarks to make.

6. *Medical aid*.—Statement III gives the figures of the work done in the agency hospitals. The number of cases treated by the sub-assistant surgeon with me has gone up from 6,045 to 7,784. This is partly due to the fact that the sub-assistant surgeon has been taken round the villages to some extent, or been sent out from the camp to those where I found need for his services. The average number treated in camp per day is greater than that in the stationary hospitals. The sub-assistant surgeon M. Audinarayanaswami has also been visiting all villages on the line of march and has shown a gratifying keenness in his work. I would here put in a word for the present waterman attached to the medical establishment. He has done nearly 20 years' service in the agency and has picked up sufficient knowledge of preparing medicines so that he practically acts as compounder. Yet he draws the miserable pay of Rs. 5 with Rs 7-8-0 as allowance in lieu of travelling allowance. I think his pay ought to be raised as a special case at least.

I still continue to be supplied with medicine stock on the supposition that only the establishment requires to be treated. This has to be eked out with purchases from the grant under contingencies. It is true that little good can be done in serious cases when halts are so short, but burns, sores, wounds and attacks of fever can be successfully treated.

Mr. Graham in the notes left by him remarks that "altogether the agency hospitals are in a bad way." Since Mr. Graham left however, G. P. Sen has been got rid off from G. Udayagiri. His successor is D. Moses, a medallist, who seems to be a sensible fellow and a good doctor. Mitra has been transferred from Balliguda to Ramagiri-Udayagiri. I suppose on the supposition that he can do less harm there, and the man now at Balliguda seems competent. I am disappointed, however, with the attendance of patients there notwithstanding there is a reserve sub-assistant surgeon also; in order to try and increase attendance somewhat, I ordered the reserve sub-assistant surgeon, much to his disgust I suspect, to visit the villages lying around Balliguda, four or five times in the month. The present sub-assistant surgeon was discouraging in-patients on account of some uncalled-for remarks in the visitor's book by the Deputy Tahsildar. I have put that right.

In G. Udayagiri, the new venereal wards were completed in the year and opened this month, with a goodly number of patients. Instead of trying to keep a patient three months under treatment with the ordinary methods, I would advocate the introduction of the new treatment with salversan or abo-salversan, which I understand requires detention in hospital for a month only and not at all if the patient can be kept under observation. The cost to Government would be no more than that of the present treatment. In some muttas syphilis is particularly bad and a campaign against this disease would in my opinion be well worth Government spending money on. An itinerating hospital to camp in each mutta for a month or so would be the best method. The Khonds have no hesitation in coming forward for treatment when the doctor is on the spot.

7. *Vaccination*.—On the whole, the vaccination work is good, though one vaccinator has had to be dismissed and another suspended for a long period. Fourteen thousand six hundred and forty-two persons were vaccinated in the year, a considerable increase on last year. In the southern parts of Balliguda taluk I found more children than ought to be unvaccinated. The range in which they are situated, however, is a very extensive one. The present Deputy Inspector is a considerable improvement on the last.

8. *Small-pox*.—There have been one or two small outbreaks of small-pox on Daringabadi and Surada side. There have not been many deaths.

9. *Education*.—Statement IV shows the statistics for agency schools. On the main lines of communication, the work of schools is on the whole fair. But generally from the result of my inspections, I consider that the supervisors do not do enough model teaching. The Assistant Inspector of Schools urges the greater need of this rather than mere inspection and I agree with him. The work in G. Udayagiri range suffers from the frequent transfers of teachers; most of them come from about G. Udayagiri and seem to have hordes of relations dying or giving birth to children or being married. If one punishes them all severely for taking French leave the whole service will be disorganised. Posting them in their own villages seems to make their work worse instead of better.

New schools have been opened at Lujaramunda and Bodogam and additional teachers sanctioned for Linipada school which has grown rapidly, and is one of the best in the agency.

Raghuadha Mahapatro, who acted for a short time in both ranges as supervisor, proved so incompetent that I had to cut his allowance for two months altogether. In Mr. Graham's time, there were numerous petitions against him for corrupt practices.

10. *Civil works*.—The sanctioned budget for 1913-14 amounted to Rs. 31,734 and of this Rs. 30,474-12-9 was spent. The lapses are unimportant.

11. *Communications*.—In Udayagiri and Balliguda the road works were good. Personally I have been agreeably surprised at their goodness. The Deputy Tahsildar, Balliguda, takes a great deal of interest in this branch of his work. I have not seen Ramagiri roads, but Mr. Graham leaves a note regarding their badness. It may be admitted that the Deputy Tahsildar has a much more refractory people to deal with, but from what I have seen of his other work I should say that a great deal of the badness is due to his lack of energy.

12. *Abkari and opium.*—There has been an increase of Rs. 310 on last year's rentals. The question of closing down a further number of shops is at present under consideration. Reference has already been made to illicit distillation in the paragraph headed criminal justice. I believe it is ripe in G. Udayagiri taluk and if the Police and Deputy Tahsildar were more energetic and wily, many more cases suitable for prosecution would be detected. The present Sub-Magistrate, G. Udayagiri, seems to have only recently grasped what is our policy and the rules actually in force. A special report has been submitted by me on the cultivation of ganja which has not yet entirely died out.

13. *Forests.*—This year, the right of collecting minor produce in Chandragiri forests was leased out. The contractor was found to be charging excessive rates for certain things to the local inhabitants but the matter has been set right by the Special Forest officer.

Khomankhole forests were visited by me in March and proposals sent in for reducing the number of trees to be cut, raising the seigniorage per tree, cutting down the Patro's commission and abolishing separate fees for the sleepers. I also proposed that the same system should be extended for Barakhama muttah. The Patro of Khomankhole was obviously making too much out of the previous system.

14. *Markets.*—The Balliguda market is moribund, the alleged reason being that people get no sale for articles and the reserve police take things without paying for them. An effort is being made to resuscitate it, but I have little hope of its succeeding. A shandy started at Barakhama, eight miles out on the way to Kalahandi, has proved a great success and the place is fast becoming a trade centre. I found a Marwari from Rajputana buying turmeric there.

15. *Police.*—Mr. Graham in the notes left by him remarks that the year has been a black one for the police. First, there is the suspension of Jagannadhajenna, Sub-Inspector of Udayagiri, who has been the object of at least four prosecutions in one of which he was convicted by the additional Agency Sessions Judge. The way in which these prosecutions have been launched one after the other and usually considerably after the offence suggests some body working in the background against him.

Bevarta Patnaik, his predecessor and late Inspector at Balliguda against whom there were vague allegations of forcible methods in crime detection, resigned his post. In May, a recusant witness died under the ministrations of the Udayagiri Police and one head constable and two constables were convicted along with some others and sentenced to six years' transportation. Mr. Graham speaks unfavourably of the former Sub-Inspector at Daringabadi, S. Mahapatro. He has tendered his resignation. In a theft case, I had some interesting side-lights from the accused on the methods prevailing in Daringabadi station regarding petty cases. His statements sounded true. There is no Patro there, and apparently the Sub-Inspector or head constable in charge constituted himself a petty court and inflicted small fines which go to his own pocket.

There has been an unfortunate outbreak of bad feeling between the reserve at Balliguda and the Sub-Magistrate, mainly I think due to his convicting some of their number. The matter has been complicated by trouble about the rice supply arising from the police wanting to cut the profits of the Mahajans over much, while the Mahajans retaliated by not keeping any supply. I cannot help feeling, however, that the trouble about the rice supply has been made a stalking-horse against the Sub-Magistrate. Similarly, they have taken up the dropping of the construction of a new tank. From what I know of the Sub-Magistrate, I have no doubt he has been indiscreet with his tongue and has not disguised his prejudice against the police and Uriya generally, but I have found on enquiry the allegations made against him in various insubordinate petitions from the reserve to be quite baseless. I am not at all sure that the present head clerk there is not partly responsible for the ill-feeling. At date of writing, things seem to have quieted down. There has also been trouble over the rice supply at Baminigam and Daringbadi stations. I think Government will itself have to take up the business of supplying the police needs. It might be combined with a system of grain takkavi to the Khonds who at present have to pay 100 per cent. for seed advances to the sowcar.

16. *Condition and relation of zamindars and other land-owners, hill chiefs, patros, bissoyis and cultivating class.*—The chief of Ranabha is hopelessly in debt and hardly knows where to turn in order to "raise the wind." He was convicted during the year by the Sub-Magistrate, Udayagiri, for theft; an execution warrant for Rs. 1,100 is out against him for execution and he is accused of forgery in connection with the same. A maintenance petition has also been filed against him. He figures as defendant in another civil suit.

Chandragiri minor Patro was put in charge during the year. There have been various complaints against Konnai Patro of Godapur by the Baminigam Police this year, but though I think he is a plausible rogue, no grounds for punishing him have been discoverable.

I had to hold an enquiry into the conduct of Pussangia Patro, who was accused by some of his Khonds of extorting paddy from them at ridiculously low rates for supply to Balliguda reserve in connection with an arrangement made with the Patros by the Assistant Superintendent of Police. He admitted to asking for the paddy at a higher rate than he had arranged to supply it, but denied ever receiving any. I found the Khonds very indefinite in their

measures, but as they produced the money given for the paddy, I made the Patro give them paddy for the money at the admitted rate. He has always hitherto borne a good character. Complaints of excessive vetti for himself were also made and also of his son beating a man. I found the man thoroughly deserved what he got and the allegations regarding excessive vetti not proved.

One or two disputes about succession are pending in Ramagiri and are to be enquired into shortly by me. I would, following my predecessor, again urge the necessity of adopting some method of making the Uriya bear his fair share of vetti or its equivalent taxation. I believe it has been proposed to introduce the income-tax. I do not think this is sufficient. Numbers will escape who ought to bear some share and income derived from land is exempt. Now, many of the Uriya sowcars hold a lot of land gradually filched from Khond and lesser Uriya, and unless a special road or vetti tax covering all kinds of income is introduced, they will escape lightly.

17. *Boundary disputes and settlements.*—The boundary between Ramagiri and Thumba was demarcated by Mr. Graham in conjunction with the Special Forest officer, Parlākimedi Maliahs.

The Zamindar of Surangi, though the boundary was inspected by Mr. Graham and found correct, is apparently still discontented at the demarcation between Surangi and Ramagiri, as I have received reports of demarcation stones being cut down, and forcible issue of sadhis to village heads in Ramagiri taluk. The matter is under enquiry.

A dispute arose during the year between the people of Keradango muttah in Ramagiri and some people of Gunupur in the Parvatipur Agency. As Mr. Graham and Parvatipur Special Assistant Agent were unable to meet last year the matter is still pending.

18. *Elephants.*—All have been well except for slight ulcers once or twice.

19. *Wild animals.*—There were 184 deaths by tiger and 9 by other animals reported. The Dasingabadi man-eater is still at large and has many deaths to his credit and is a terror to the neighbourhood. Rs. 572 has been paid as rewards for the skins of tigers and panthers.

20. *Season.*—The season on the whole was a good one, though in Balliguda taluk floods

|              |    |    |    | INCHES. |
|--------------|----|----|----|---------|
| G. Udayagiri | .. | .. | .. | 66.34   |
| Balliguda    | .. | .. | .. | 69.49   |
| Daringabadi  | .. | .. | .. | 71.97   |
| R. Udayagiri | .. | .. | .. | 52.55   |

did damage to crops; many of the bridges in Balliguda and Ramagiri were damaged or washed away. Rainfall as recorded at the three taluk head-quarters and Daringabadi is noted in the margin.

## No. V.—STATEMENT of criminal justice for the Ganjam Agency for the year 1913-14.

| Name of court.                      | Trials or enquiries.        |                           |                         |        |                        |            |            |                        |        |                             | Appeals.                    |                           |                         |          |                             |                             |

| 15,965 ..               | 2,840 ..                        | 12,150  | 14,990 |

Order—No. 2307, Judicial, dated 27th October 1914.

Recorded.

2. *Touring*.—Of the Assistant Agents, the Special Assistant Agent, Chicacole, alone toured for the prescribed minimum period. The deficiency is explained by the Agent in the case of Balliguda, but in the case of Goomsur and Berhampur, although the Agent expresses the general opinion that the touring of his Divisional officers was satisfactory, no reason is given for the failure to tour for the minimum period of one month. The Government do not suppose that the considerations referred to by Mr. Bhore in paragraph 1 of his notes are responsible for the short touring of the Assistant Agents themselves; they however desire to emphasise the danger, in mixed charges, of apportioning to the Agency only such time as can be spared after the growing work in the plains has been attended to.

3. *Medical*.—In G.O. No. 1227, Public, dated the 25th September 1914, the Government have sanctioned the establishment of an itinerating dispensary in place of the dispensary sanctioned for location at Serango. These itinerating dispensaries are still on their trial and the Agent will no doubt see that they are given every opportunity for doing substantial and properly directed work.

The attention of the Surgeon-General will be invited to the recommendations of the Special Assistant Agent, Balliguda, in paragraph 6 of his report regarding the prevalence of venereal disease in certain muttas of his Agency. He will be requested to report whether any special measures to combat the evil are practicable.

The Agent compares vaccination work in the Agency favourably with that in the plains; it is however evident that the staff is in some places far from satisfactory. The Agent should consider whether, as has been found necessary in the Gōdāvari Agency, the position of the staff requires to be improved.

4. *Education*.—Orders regarding the continuance of the sessional school at Russellkonda for another year will issue in the Educational department.

The special attention of the Director of Public Instruction will be drawn to paragraph 4 of G.O. No. 39, Judicial, dated the 9th January 1911. The Government observe, from paragraph 6 of Mr. Bhore's report, the unsatisfactory condition of Savara education and they will be glad to learn when the necessary steps will be taken in this important matter.

5. *Forests.*—The Government have noted with much gratification the testimony borne by the Agent to the technical results achieved by Mr. Welchman, Special Forest Officer, Paralakimedi Maliahs. That the work of reservation has at the same time been carried out with so little friction is proof of the care and understanding brought by Mr. Welchman to this task.

6. *Police.*—The Government note with regret the unsatisfactory condition of the police force in the Ganjam Agency. The attention of the Inspector-General of Police was invited to this matter in paragraph 9 of G.O. No. 2246, Judicial, dated the 8th November 1913, and he will now be requested to report, without delay, after consultation with the Agent, what steps he proposes to take to improve matters.

Station M A D R A S, Dated the 1<sup>st</sup> A P R I L 1915.

From (Name) The Honourable Mr. H. S. Duncan, M. A.  
(Designation) Ag. Director of Public Instruction.

To The Secretary to the Government of Madras,  
EDUCATIONAL Department.

Sir,

p. 37 supra

With reference to Government memo, No. 3729-1 Edl., dated 10th December 1914, I have the honour to state that the inspecting officers whom I have consulted in the matter recommending the continuance of the sessional school at Russelkonda for another year but suggest that the session be extended from six months to one full year as it has been found from experience that the teacher pupils who are drawn from the agency tracts are unable to grasp thoroughly the subjects taught in training schools during the six months course. They further propose that as Education in the Agency is very backward and suitable teachers are not available, the full number of students hitherto trained in two batches, viz., 16 should be admitted for the extended course

of training. The proposal commends itself to me and I beg accordingly to request that Government will be pleased to sanction the retention of the sessional school at Russelkonda for another year from 1st March 1915 and the extension of the course from six months to ~~one~~ one year.

T 2. The proposal will involve an increase in the total expenditure under stipends from Rs. 960/- to Rs. 1,920/- per annum while the expenditure on other items will remain unchanged. To meet the extra cost of Rs. 960/- I shall submit the necessary reappropriation statement for sanction on receipt of the Civil Budget Estimate for 1915-16.

Extra provision required 9603.  
Total capex in 1915-16. 2484

I request the favour of early orders.

I have the honour to be,  
Sir,

Your most obedient servant,

*Ch. S. Srinivasulu*

For Director of Public Instruction.

EDUCATIONAL DEPARTMENT.

Education is dealt with in paragraphs 16 to 19 of the Agent's report and in paragraph 23 of the report of the Assistant Agent, Goomsūr division, paragraph 12 of the report of the Special Assistant Agent, Berhampur division, paragraph 6 of Mr. Bhore's notes on the Agency and paragraph 9 of the report of the Special Assistant Agent, Balliguda division. Statement IX furnishes the statistics of the Agency Schools.

2. There was a general increase in the number of Government and other schools, in the strength of the schools and in the number of children of the aboriginal tribes attending the schools. With reference to the education of Savaras adverted to in paragraph 6 of Mr. Bhore's notes, the Director of Public Instruction has promised to submit separate proposals on this and other similar subjects in connection with the notes of His Excellency the Governor's conference with the educational officers of the Ganjam and Vizagapatam districts.

P. RAJAGOPALA ACHARIYAR.

No special action is therefore necessary at present.

3. The Director has not yet submitted the reports referred to in paragraph 5 of G.O. No. 2246, Judicial, dated 8th November 1913. Apparently he will submit them along with the proposals referred to in paragraph 2 *supra*.

4. No other remarks seem called for.

#### PUBLIC DEPARTMENT.

Under Secretary—

This department is concerned with the question of emigration from the Agency tracts to the tea districts of Assam. Recruitment to Assam from the Agency is at present entirely prohibited, mainly, on account of the backward nature of the people who are, on that account, liable to be imposed upon by recruiters. At the instance of the Indian Tea Association the Government of India recently suggested to this Government, however, that a portion of the Agency may be opened for recruitment for Assam, as an experimental measure, especially in view of the fact that the whole system of recruitment to Assam is to be entirely changed \* in the near future, as the result of which, it is expected, that the abuses which attend the present system of recruitment will be greatly minimised, if not altogether vanish. The Government agreed with the suggestion of the Government of India and proposals were called for from the Agent as to the portions of the Agency which may safely be thrown open to recruitment, having regard to excess of population, etc., and the conditions under which such recruitment should be allowed. These proposals were recently received and the notifications giving effect to them have been sent to the Advocate-General for scrutiny before submission to the Government of India. It is to these proposals that the Agent refers in paragraph 38 of his report.

\* The abolition of the contractor system of recruitment and the establishment of a central bureau with a full-timed Government officer as its President to supervise recruitment, are to be the two important features of the new system—*vide* correspondence in G.O. 904-5, Public, 19th July 1913.

system of recruitment to Assam is to be entirely changed \* in the near future, as the result of which, it is expected, that the abuses which attend the present system of recruitment will be greatly minimised, if not altogether vanish. The Government agreed with the suggestion of the Government of India and proposals were called for from the Agent as to the portions of the Agency which may safely be thrown open to recruitment, having regard to excess of population, etc., and the conditions under which such recruitment should be allowed. These proposals were recently received and the notifications giving effect to them have been sent to the Advocate-General for scrutiny before submission to the Government of India. H. A. WATSON—5-9-14.

#### PUBLIC (MEDICAL) DEPARTMENT.

Under Secretary—

Medical relief is dealt with on pages 2, 14 and 16 of the report and in statement VII on page 20.

2. The Agent's proposal to open an itinerating dispensary in the Parlākīmedi maliahs is being separately dealt with and orders will issue in due course.

Para. 3 of G.O. 2246, 8th November 1913.

3. The Agent does not say anything about Mr. Rutherford's proposal to initiate a campaign against syphilis in G. Udayagiri. The Surgeon-General may perhaps be asked to consider the point.

W. FRANCIS.

4. No further remarks appear to be called for. The file may be returned to Judicial.

K.N.—2-9-14.

H.T.—4-9-14.

Secretary—

C. S. ANANTARAMA AYYAR—4-9-14.

Yes.

W. FRANCIS—5-9-14.

LOCAL AND MUNICIPAL DEPARTMENT.

This department is concerned with paragraphs 15 and 22 of the Agent's report relating to vaccination and sanitation.

2. *Vaccination*.—There was a marked increase both in the total number of vaccine operations performed and of successful cases.

3. *Sanitation*.—No remarks seem called for. Submitted that the file may be returned u.o. to the Judicial department.

S.A.M.—8-9-14.

K.V.V.—8-9-14.

C.S.A.—10-9-14.

JUDICIAL DEPARTMENT.

Under Secretary—

The departments to which the report was referred have all replied.

Attention is invited to the following points noticeable in the report:—

*Paragraph 12 of the report*.—Orders have not yet been passed on the establishment of an itinerating dispensary in the Parlākimedi maliahs referred to in paragraph 3 of G.O. No. 2246, Judicial, dated 8th November 1913. The Public department state that it is being separately dealt with and orders will issue in due course.

As suggested by the Public department the Surgeon-General may be requested to consider the proposal of the Special Assistant, Balliguda, to initiate a campaign against syphilis in G. Udayagiri and submit his views to Government.

*Paragraph 15 of the report*.—The Agent has submitted with the report the statements on vaccination called for in paragraph 4 of G.O. No. 2246, Judicial, dated 8th November 1913. The statements reveal, it is submitted, a noticeable increase both in the total number of vaccine operations performed and of successful cases.

*Paragraph 18 of the report*.—The attention of the Educational department may be invited to the proposal of the Agent for the continuance of the sessional school at Russellkonda with the present staff for another year.

The Director of Public Instruction may again be asked to expedite the special

*Vide G.O. 39, 9th January 1911.*

report regarding the improvement of education among the hill tribes, pending since 1911 and submit it along with his proposals regarding education of Savaras referred to in paragraph 6 of Mr. Bhole's note.

*Paragraph 29 of the report*.—Submitted that orders on this point have since been passed in G.O. No. 1927, Revenue (Confidential), dated 4th July 1914.

*Paragraphs 30 and 31 of the report*.—The Revenue department suggest that Government may express their satisfaction at the good work done by Mr. Welchman. Perhaps this may be done.

With reference to paragraph 8 of G.O. No. 2245, Judicial, dated 8th November 1913, the Agent states that his recommendation regarding closing of arrack shops in market towns as an experimental measure will be embodied in the proposal for the administration of arrack revenue for 1915-16 directed by the Board.

*Paragraph 37 of the report*.—The attention of the Inspector-General of Police may, it is submitted, be again drawn to the remarks of the Agent on the conduct and recruitment of the police in the Agency.

*Vide para. 9 of G.O. 2246, 8th November 1913.*

*Paragraph 38 of the report*.—Regarding the opening up of a portion of the Maliahs for recruitment to Assam the proposals of the Agent are now under consideration in Public (Minor).

A draft order is submitted for consideration.

A.S.M.—18-9-14.

C.V.—25-9-14.

Secretary—

The most important feature of this year's report is the renewed testimony to the badness of the Agency police. Attention is invited to the following passages:—

Paragraph 37, page 7; paragraph 4, page 13; paragraph 4, pages 15-16; paragraph 15, page 17. The only favourable remark is at paragraph 7, page 7.

The attention of the Inspector-General of Police was drawn to the matter last year (paragraph 9 of G.O. No. 2246, Judicial, dated 8th November 1913) and I now propose something more forcible (*vide draft*).

2. *Medical, etc.*—Vaccination is well spoken of by the Agent (paragraph 15, page 3), but from paragraph 21, page 8 and paragraph 7, page 16, it would appear that the staff is not much better than that in Gōdāvari whose pay has recently had to be revised.

3. *Touring and personnel*.—The short touring in Goomsūr and Berhampur is not explained. I would also invite attention to Mr. Davies' remarks at paragraph 3, page 9: after the Government Order has issued this point may be brought to the notice of Public (X).

Draft for approval.

P.D.R.—5-10-14.

E. A. HARVEY—6-10-14.

PUBLIC (MEDICAL) DEPARTMENT.

Under Secretary—

Orders have already been issued in G.O. No. 1227, Public, dated 25th September 1914, regarding the establishment of an itinerating dispensary in the Parlākimedi maliahs. The portion marked A in paragraph 3 of the draft should therefore be omitted. The file may be passed on to Educational department.

H.T.—8-10-14.

C.S.A.—9-10-14.

EDUCATIONAL DEPARTMENT.

Please see this department's note on page 2 *supra*, and the Judicial note on page 4 above. No proposals have yet been received for the continuance of the sessional school at Russellkonda. On receipt of the Judicial Government Order, the

attention of the Director of Public Instruction may be drawn to the Agent's recommendation. The draft order in Judicial may be accepted and the file may be returned to Judicial.

C.R.—9-10-14.

P.R.—10-10-14.

JUDICIAL DEPARTMENT.

Under Secretary—

For orders as to circulation. Paragraph 3 of the draft has been modified with reference to the Public department note at page 5 *ante*.

C.V.—12-10-14.

Secretary—

I have enlarged the draft with reference to Honourable Member's remarks on the other Agency reviews. It may go direct to Honourable Member.

T.J.T.—22-10-14.

Honourable Member—

P.R.—22-10-14.

I have struck out the last paragraph but the subject of it should be brought to the notice of Public (X). It is most important to keep an officer in these Agency appointments for two years at least. Mr. Bles has just gone there and as he is quite a junior I hope he will stay.

H. A. S[TUART]—24-10-14

Issue: and send Honourable Member's note at A to Public (X) in due course.

P.R.—26-10-14.

# Educational Department

[Memorandum no 3729-1 Ed. & 10.12.14].

Cur. no. 1257 Ed., from the D.P.I., no. 1417 & 1.4.15

The Director recommends the continuance of the seasonal school at Rusalkowa for another year from the 1<sup>st</sup> March 1915 and the extension of the course from six months to one year.

2. A draft order sanctioning the proposal is submitted for approval. It may be sent to Financial and Judicial departments for acceptance.

Financial Department

Please see Financial notes on pages 7-8 of G.O. 1237 Vol 8 23.12.13. The expenditure involved in the present proposal to continue the Sessional School at Russelkonda for 1 year from 1-3-15 is shown below:—

| Notified arrangement in force since 1894 upto 1st March 1914.                                                | Arrangement proposed for 1915-16 in lieu of that in Column (1). (Pages 38-39 CF.)                                                          |
|--------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| One sessional class for 2 months in each year at<br>(a) Parlatimeti<br>(b) Russelkonda<br>Cost Rs <u>120</u> | 1 teacher (35) for 1 year 420<br>Stipends for 16 teachers for 1 year at Rs 10 each Rs <u>160</u><br>Contingencies.. 144<br>Rs. <u>2484</u> |

2. Against the proposed expenditure of Rs 2,484 in 1915-16 shown above, a sum of Rs 1,524 has been included in the B.E. for 1915-16 and it is intended that this latter sum should be adjusted against the unspent balance of the Imperial non-recurring grant of 49 lakhs for education. For the remainder viz (2484 minus 1524) 960 the D.P.I. proposes to forward a reapp<sup>n</sup>. statement later on. ~~the proposal may be accepted in financial~~

Para: 18 page 4 of G.O. 2307 Vol 8 27.1.14 in the current file, and para: 4 G.O. 1112

cf. page 1+3 of G.O. 1237 Vol 8 23.12.13 - T.

This has been practically settled by the Sessional School. Sessional classes have not exactly a success

Para: 2 group

\* Submitted by the D.P.I. in connection with the budget for 1915-16.

The expenditure on account of the above school was included by the D.P.I. in the Statement of Charges against the Imperial grant of 49 lakhs. He will, of course, include the additional expenditure now proposed in the list of those charges; and no special instructions to him in this respect seem necessary.

3. The sanction accorded for the employment of the temporary teacher on Rs 35 expired on the 28<sup>th</sup> Feb. 1915, but the D.P.I. has applied for the further retention only on the 1<sup>st</sup> April 1915. Submitted that Educational may be requested to invite the attention of the D.P.I. to the ruling in Note 2 under Art: 80 C.S.R. on page 20 of the Madras Supplement to the C.S.R. according to which applications for sanction to the continuance of temporary appointments should be ~~submitted~~ made in sufficient time to admit of orders of superior authority being obtained before the termination of the existing sanction.

4. The draft order may, it is submitted, be accepted in Financial subject to the remarks in para 3 ante.

I think this should be done as a matter of principle. It is very desirable that proposals for the continuance of temporary appointments should reach Govt. as early as possible so that they may be considered before the termination of the existing sanction.

CMH  
14.4.15  
16.4.15

Recd 15/4

Expenditure in connection with this scheme is growing, but it is expenditure on a disorganizing object. The continuance of a Session at School, as apart from Session at classes, was foreshadowed in the letter from the Director of Public Instruction of the 17 November 1912.

There is nothing to cavil at in the present for and the draft order may issue with the addition suggested in para 3 of our office note.
