[Despatch Abstract.]

Conference

The conding copy of
Resolutions relating to educational
matters passed at the 23rd
Kishna District —

Eol CN: 863 V

8/3/15

To

The Secretary,

to the Government,

Educational Department,

M A D R A S.

Sir,

In forwarding herewith a copy of the Resolutions passed at the 23rd Kistna District Conference, I request to bring to your kind notice Resolutions 14, 18 (b), 21 (4), and 23 for such action as you may deem proper. The Conference felt that the proposals are urgently necessary for the progress of the District, and I hope you will be so kind as to pay early attention to them.

I have the honour to be,

Sir,

Your most obedient Servant.

W. S. S. S.

Secretary, Kistna District Association.

M A S U L I P A T A M.

5th March 1915.

Acting Secy

Twenty Third Kistna District Conference. 1914.

Resolution I.

War and Arms Act.

- (1) This Conference begs to give expression, on behalf of the people of this District, to the profound feelings of loyal attachment and devotion to His Majesty the King Emperor's throne and person, and prays for early and complete success of our arms, and requests His Excellency the Governor of Madras to convey the same to His Majesty.
- (2) This Conference further expresses the grateful thanks of the people of this District to His Excellency the Viceroy for the advocacy of the claims of the Indian people to take their place side by side with British troops in the present war, and urges the necessity of repealing the Arms Act and encouraging the promotion of our Indian Volunteer corps.

Resolution II.

Kistna and Tammileru Floods.

- (a) This Conference urges on the Government to under take an enquiry into the circumstances that led to the collapse of the Head Sluices of the Kistna Delta system at Bezwada.
- (b) This Conference also begs to invite the attention of the Government to the urgent necessity of affording protection against floods of the Kistna in the Divi and Kaikalur Taluks and also of the necessity of similarly protecting the villages of Ellore and Kaikalur Taluks from the floods of the Tammileru.
- (c) This Conference farther prays that His Excellency, when visiting this District, will be pleased to personally examine the breach in the Kistna Eastern bank and observe the condition of the Divi and Ellore Taluks brought about by the havoc caused by the floods.

Resolution III.

Delta Drainage.

- (a) That, in view of the great loss to the crops on account of the defective arrangements about drainage of the Kistna and Golavari Deltas, this Conference urges on the Government to undertake a systematic investigation of the drainage of both the Delta systems and to order the incurring of adequate expenditure on the improvement of drainage under both the systems.
- (b) This Conference further begs that the Government will be pleased to widen the Vuppuneru, to raise the height of both of its banks, and to improve Perantalu Kanama, all to save the villages of Bheemavaram and Kaikalur Taluks from floods.

Resolution IV.

Village Sanitation.

That, in view of the great expenditure thrown on the Local Boards in the District, on account of the serious Sanitary evils brought about by the introduction of Delta irrigation and in view of the difficulties that have been caused to the effective maintenance of village communications, this Conference urges on the Government the necessity of allocating definite and reasonable proportion of the Irrigation revenue for the gradual removal of these evils.

Resolution V.

Improvement of Village Conditions.

That, in view of the congested condition of the villages in this Delta portion of the District, this Conference prays the Government :—

- (1) To extend village site in all congested villages and to undertake an immediate enquiry into this matter, with a view to ascertain the need for extension for habitations, for standing ground for cattle, and for other communal purposes.
- (2) That cheap model villages on Sanitary principles should be laid out in the vicinity of Taluk Head Quarters.
- (3) That a systematic survey of under-ground water supplies in the District should be undertaken and the results should be made available to the public.
- (4) That, when the people are dependent on tanks for drinking water, separate provision should be made for water for cattle.

Resolution VI.

Municipalities.

This Conference prays that the Government will be pleased :—

- (1) To raise the number of elected members in the Municipal Councils of the District to the maximum limit permitted by the Act.
- (2) To allow the Chairmen to be elected by the Municipal Councils of Bezvada and Ellore.
- (3) To modify the Act so as to confer the right of electing the Chairmen on all those who are eligible to be Councillors.

Resolution VII.

Local Boards.

This Conference is of opinion :—

- (1) That the number of elected members in the Taluk and District Boards is very low, that $\frac{2}{3}$ of the strength of the Taluk Boards should be elected, and that $\frac{2}{3}$ of the members for the District Boards should also be elected by the non-official members of the Taluk Board.
- (2) That Village Munsiffs and Government servants should be ineligible for election both for Municipal Councils and Local Boards.
- (3) That there should be no distinction in qualifications for membership between voters and candidates for Taluk Boards, and that graduates, all incometax payers, and also those who pay an assessment of not less than Rs. 50 should be equally eligible as both voters and candidates.
- (4) That the principle of election should be introduced into Union Panchayats and that all important Unions should have the power to elect their Chairmen.
- (5) This Conference prays that the Government will be pleased to grant, to all Taluk Boards in the District, power to elect their own Presidents.
- (6) That list of voters and candidates may be prepared after publishing the same in the villages.

Resolution VIII.

District Communications.

This Conference solicits the authorities to order :—

- (a) the construction of bridges,
 - (1) on the main canal at Nidadavole,
 - (2) on the Vuyyur canal near Ganapavaram,
 - (3) on the Ellore canal near Gundugolanu and Pulla, Chebrole, and Kaikaram.
 - (4) on the Salt creek near Kalidindi.
 - (5) on the Kommuleru drainage channel near Venkatapuram.
 - (6) on Ramavaram canal near Rachapatnam.
 - (7) over Pedalanka drainage channel near Korukollu.
 - (8) on the Nakkalacodu between Palakollu and Ackanta.
- (b) the laying of metalled roads,
 - (1) from Madhira to Nandigama,
 - (2) from Pippara to Gollalakoderu,
 - (3) from Chittiyala to Kumaradevam,
 - (4) from Nidadavole to Yernagudem,
 - (5) from Mudinepalli to Kavataram Railway Station, from there to Challapalli, via Nidumolu,
 - (6) from Kaikalur to Ellore and
 - (7) from there via Venkatapuram to Kalidiandi, Bhogeswaram,
 - (8) from Vinjaram lock to Tummidi, via Korukollu.
 - (9) from Kaikalur to Kalidindi via Ellorepadu,
 - (10) from Kalidindi to Singarayyapalem,
 - (11) from Indupalli to Mustakhancodu,
 - (12) from Pulleru slope near Pasumarru to Bandar road,
- (c) the digging of a badi from Pedalanka channel to the villages of Potumarra and Venkatapuram &c.,
- (d) the change of Pedalanka channel into a navigation canal,
- (e) the digging of drainage channel in Lavela Badava near Kalidindi,

- (f) the digging of a drainage channel into Pamulakalva from Zakkampudi tank in the Bezvada Taluk.
- (g) the re-opening of the road along the Godavary between Kovvuru and Tallapudi.
- (h) the building of a bridge on the drainage channel near Chagallu.

Resolution IX.

Andhra Movement.

- (1) This Conference accords its general support to the Andhra Movement and is also of opinion that, for the more efficient administration of the Telugu speaking Districts and for the better progress of the Telugu speaking people, it is desirable to constitute the Telugu speaking Districts into a separate Province.
- (2) This Conference further requests the Government to establish an additional University in the Telugu country in accordance with the modern ideas.

Resolution X.

Bifurcation of Kistna.

This Conference is of opinion that this District, as constituted since the trifurcation of the Godavary and Kistna Districts in 1904, has become too unwieldy and urges that administrative efficiency and the convenience of the people would be promoted by a further bifurcation of the District into two Districts.

Resolution XI.

Land-Cess and Water-Tax.

- (a) This Conference is of opinion that it is unfair to levy water-cess on termieric, chili and other 'garden crops', on the same basis as on cocoanut gardens and that, as they require to be watered only once or twice during the whole year, the ordinary dry-crop rate of Rs. 2-8-0 per annum would be the proper rate in their case,
- (b) that in the case of irrigation of land with the help of pumping installations, the reduction should be to one half of the ordinary rate,
- (c) that no water cess should be levied on crops watered from standing water in pits on Porambokes and by the road side.
- (d) that no water rate should be levied when water is taken to cultivate crops raised in permanent cocoanut and other gardens which have been assessed with full water rate.
- (e) that no water rate should be levied for curry plots wetted by the moisture from wet fields after the crop is cut.
- (f) that no more than a single water rate be charged on unassessed waste lands near Kollair for unauthorized cultivation thereof.
- (g) that no land tax be levied for the said Kollair lands when seedlings are raised therein.
- (h) that only single water rate be levied for the above said lands when wet crop is raised therein to the water from drainage channels, but no sort of penal rate should be charged.
- (i) that there should be no water rate charged for plaintain trees raised on mounds between wet lands.
- (j) that, for standing gardens like the cocoanut, when no water be given during the second crop season or when the cultivator himself does not take it, tax should be charged only at Rs. 5 per acre, but no second crop water tax be levied.
- (k) and that permission be granted for wet cultivation by lift-irrigation, in the case of the lands at Gundla, Kanuru, Ramavarappadu and Prasadappadu of the Bezvada Taluk.

Resolution XII.

River Conservancy Act.

This Conference is of opinion :—

- (1) that parts of the charts drawn up according to section 3-7 of the River Conservancy Act, relating to each village, be hung up in the respective village chavadies,
- (2) that, as considerable loss is likely to result in case the jeerayathi lands of ryots are not brought under cultivation anew by virtue of section 11, the Act should be amended so as to permit of such cultivation,
- (3) that, in view of the serious disabilities entailed on the ryots by section 13, the right should be allowed to the ryots,
 - (a) to plant and to fell trees in patta lands,
 - (b) to raise plantains without their being classed under garden cultivation,
 - (c) to grow grass farms excepting Rellu (రెల్లు) where it may obstruct the flow of the River,
 - (d) to take earth and sand from, to dig pits and wells and to put up sheds in, their patta lands,

Resolution XIII

National Education.

This Conference is of opinion that :—

- (1) as the present system of education is far from conducive to the up-to-date needs of the Indians, it is necessary that they should bring into being, a system that would adequately serve those needs, and establish schools therefor ;
- (2) the work of the Andhra Jatheeya Kala Sala of Masulipatam, and Andra Girvana Vidyalaya of Kovvur should be encouraged by the people of this District both by rendering financial help and in other ways.
- (3) as the former being the only Technical Educational institution in the District and the latter being the only institution imparting instruction through the medium of Vernacular, the Local Boards and Municipalities should also render them adequate financial aid.

Resolution XIV.

Schools and Colleges.

This Conference is of opinion :—

- (a) that, with a view to efficiently meet the educational requirements of this District, a second grade college should be established at Ellore.
 - (b) that a training school for the training of Higher Elementary teachers should be established in the District.
 - (c) That a High School for the education of boys should be established at Gudivada and a High School for the education of girls should be established at a convenient centre in the District.
 - (d) That Lower Secondary schools for boys should be started at Kovvur, Ganapavaram, Kaikalur, Avanigadda and Uyyur.
 - (e) That Lower Secondary Schools for girls should be started at convenient centres in the District.
 - (f) That a carpet weaving school should be started at Ellore.
- and urges upon the Government, the District Board and the people of the District to take active steps in furtherance of the same.

Resolution XV.

Railway.

In the opinion of this Conference, it is necessary :—

- (1) that the railway rates between Bezvada to Bandar should be reduced, so as to bring them in conformity with the rates obtaining elsewhere in the District.
- (2) that there should be adequate supply of rolling stock for the speedy conveyance of goods from stations in the District.
- (3) that a third train, being a fast mail, should run at a convenient time between Bezvada and Bandar ;
- (4) that the Board Railway, intended to be constructed between Nidadavole, Narasapuram, Gudivada and Bhimavaram should be promptly taken on hand.
- (5) that it is necessary to re-introduce intermediate carriages into the Bandar-Bezvada train.
- (6) that the difficulties caused by not permitting the third class passengers into the mail trains within 75 miles be removed.
- (7) that, for the convenience of the students and of the boat passengers from Narsapur, Tanuku and Bhimavaram, it is necessary to open a special trains, as before, between Tadepalligudem and Rajahmundry, one to reach Rajahmundry by 10 A. M. and the other to start from Rajahmundry by 6 P. M.
- (8) that an over bridge be constructed near the Nidadavol Railway Station to avert the mishaps that may happen to the passengers crossing the Railway line between the boats and the station.
- (9) that, to avert mishaps happening to the passengers, owing to the Railway Station not having been constructed on the town side of the Railway line, it is necessary to construct an over bridge on the line, or even to remove the station-building to the town side thereof.
- (10) that it is indispensable to open a Railway Station at Denaluru between Ellore and Bheemadol.

- (11) that a platform be constructed for the Powerpet Station.
- and the Conference further desires that the District Association and the members of the Legislative Council do take steps to have the above defects duly remedied.

Resolution XVI.

Tirupathi Devasthanam Bill.

This Conference accords its hearty support to the principle of the Tirupathi Devasthanam Bill now before the local legislature.

Resolution XVII.

Irrigation Bill.

- (1) This Conference begs to record its opinion that the Irrigation Bill as now published for introduction into the Legislative Council is too wide in its scope and will cause unnecessary interference with private rights and works of irrigation.
- (2) That the provisions of the Bill relating to the powers to be exercised by the Irrigation Officers would confer much larger powers than is desirable, in as much as they possess enormous powers under present circumstances, and that Irrigation Boards may be constituted for consultation by the Collector or Irrigation Officer, as the case may be, in cases of distribution of water and regulation of watercourses, awarding compensation and imposing penalties,
- (3) That reasonable and sufficient provision is not made for all cases of compensation arising from damage caused to private owners and that the Bill will result in destroying private rights of individuals concerned.
- (4) That power should not be conferred as in clause 16 of the Bill, to recover penalties and damages from all occupiers of land irrespective of the fact whether such damage was caused by such occupier or not, and that the maximum damage fixed under that clause is under any circumstances too high.
- (5) That the bill also unnecessarily interferes with existing contracts and also places undue restrictions on the right of the people to resort to Civil Court.
- (6) That a committee be appointed consisting of :—
 - (1) Vemuri Subba Rao Pantulu Garu,
 - (2) Kopalli Krishna Rao " "
 - (3) P. Suryanarayana Raju Garu.
 to draw up a memorial to Government about the Bill.

Resolution XVIII

Free Libraries and Reading Rooms.

- (a) That, in view of the great importance of Free Reading rooms and Libraries as means of diffusing education among the people, this Conference urges the necessity of opening Free Reading Rooms and Libraries in all the towns and villages of the District.
- (b) This Conference further requests the Government to empower the Municipalities and Local Boards in the District to encourage Free Libraries and Reading Rooms and also to allot grants for the same from Provincial funds.

Resolution XIX.

Co-operative Movement.

This Conference suggests the formation of a central Bank, to encourage the co-operative movement in this District and prays that the Government may be pleased to render, therefor, sufficient help and encouragement.

Resolution XX.

Village Officers.

- (1) This Conference is of opinion that it is necessary that Batta and travelling expenses should be paid by Government to all the village officers, who may be ordered to Taluk headquarters and other villages, on Zamabandi or other Government business.
- (2) This Conference is further of opinion that it is absolutely unjust for the superior officers to compel village Karnams, who have already obtained Survey training certificates to undergo fresh training in Survey and that, hereafter the fact of their having passed the Surveying test should be made quite clear and unambiguous.

Resolution XXI.

Swadesi.

- (1) This Conference desires that a swadesi vow be taken by all, for encouraging literary artistic and industrial development in this country because "Swadesi spirit is the chief feeder of the National life".

- (2) As it is necessary to encourage the use of indigenous articles for the development of the Swadesi Industries, this Conference resolves that we should make a point of purchasing and using Swadesi articles alone, even at the risk of some loss.
- (3) In the opinion of this Conference, it is also indispensable that associations should be formed, the purpose of which is to purchase Swadesi articles and also to see that they are so extensively manufactured as to ensure more than adequate supply in the markets.
- (4) This Conference fully believes that without state aid the industries of this country cannot make any appreciable advance and resolves that for that purpose the Government might be requested to establish an Industrial school in this District.
- (5) That the Government be requested to co-operate with us in developing the industries of the country, by levying import duties permanently from goods coming to India from Germany and Austria.

Resolution XXII.

Village Panchayats.

- (a) This Conference while regretting that the Government have not yet passed any enactment for the establishment of Village Panchayats, in accordance with the recommendations of the Decentralization Commission, is of opinion that it is necessary to immediately establish in villages, Panchayats the members of which should be elected by the people, for the purpose of discharging all duties recommended by the Royal Commission on Decentralization.
- (b) This Conference is further of opinion that it should be made compulsory for the litigants to file, in the Panchayat Courts as above constituted, all suits of the nature mentioned in Act of 1889 (Madras), the value of which does not exceed Rs. 50.

Resolution XXIII.

Free and Compulsory Primary Education.

As Primary education will not spread in the country, unless it be made free and compulsory, this Conference prays that the Government be pleased to legislate in the matter soon, and establish Primary schools, immediately, in all the villages, the population of which is over 500.

Resolution XXIV.

Reorganization of the National Congress.

This Conference is of opinion that efforts should be made so to reorganise the work of the Indian National Congress as to embrace within its fold all the forces of constitutional progress in the country.

Educational DEPARTMENT.

FROM

THE SECRETARY TO GOVERNMENT,

Educational DEPARTMENT

To

The Secretary,
Kishna District Association

Fort St. George
DATED OCTACAMUND, 191 .

SIR,

I have the honour to acknowledge receipt of your letter _____, dated

the 5th instant, which will receive due attention.

I have the honour to be,

Sir,

Your most obedient Servant,

C.No.863 Edl., from the Secretary, Kistna District Association, dated 5th March 1915.

S U B J E C T.

Resolutions passed at the 23rd Kistna District Conference.

The resolutions on the subject of education in which the Conference requests the Government to take action are briefly noted on below:---

(1) Resolution No.IX(2).- Establishment of a separate university in the Andhra ^{Country} ~~country~~.

Please see paragraph 5 of the office note on page 5 of G.O.No.1072 dated the 11th September 1914 on a similar resolution passed by the fourth Kamma Conference. No action is necessary on this resolution.

(2) Resolution No.XIV(a) - Establishment of a second grade college at Ellore.- There is already a Government first grade college at Rajahmundry which is very near Ellore. Obviously no other college could be started at Ellore by the Government. The Government have been considering

considering for sometime the question of ^{the} opening of a college in the Ceded districts. If private agencies come forward to start one at Ellore, the question of aiding it will be duly considered.

(3) Resolution No. XIV(b) - Opening of a higher elementary training school in the district.-

There is already in the Kistna district an aided training school (Masulipatam C.M.S. Training school) which trains teachers of the higher elementary grade. The necessity for another school is not apparent. In the adjoining districts of Guntur and Godavari there are ^{altogether} eight training schools, six of which train teachers of the higher elementary grade. A separate school for Kistna under Government need not therefore be considered now.

(4) Resolution XIV (c), (d) and (e) regarding the opening of secondary schools.-

For boys.

In regard to secondary education the policy of the Government is to rely, as far as possible on private enterprise. The question of opening

opening secondary schools, complete and incomplete, in the district is therefore one for consideration primarily by local bodies or by private agency.

For girls.

The first request is that a high school for girls should be established at a convenient centre in the district. This question is already under the consideration of Government and a reference has been made to the D.P.I. on the subject - Vide G.O.No.1143 Educational, dated the 6th October 1914. As regards the opening of

Lower Secondary schools for girls at convenient centres, it may be mentioned ~~if~~ that funds are not available at present for the opening of

secondary schools. It may however, be observed that as many as fourteen elementary schools for girls with standards above the fourth^{exist} at the places noted in the margin. In these circum-

stances, no action is at present called for on the resolution in question.

Establishment of a carpet weaving school at Ellore. -Carpet weaving

of Arts and in the Anjumani-Masidi-Ahl-i-Islam at Madras which is an aided institution. It may not be possible at present to spare funds for the establishment of a Government school for carpet weaving in Ellore. Last year M.R.Ry. K.Sambasiva Rao of Rajahmundry applied to Govt. for assistance towards the development of the carpet-weaving industry which he had established at Rajahmundry. But the Government, after considering the reports received from the Superintendent of the School of Arts and the Director of Agriculture on the subject of rearing a breed of wool-bearing sheep and other questions connected with the industry, decided that no such help as was required by Mr.Sambasiva Rao could be granted. The Director of Industries has, however, recently addressed the Government in regard to the development of carpet-weaving industry by introducing improved methods of working up wool as a preliminary step. He anticipates an expenditure of about Rs.7,500 for the experiment. It does not appear that any separate action should now be taken on the resolution

resolution of the conference.

(6) Resolution No. XVIII(b) Allotment of grants for free public libraries.- Please see paragraph

4 of office note on page 5 of G.O.No.1210 Edl.,

dated the 29th October 1914. For the reasons *stated*

therein this resolution need not be considered now.

page 7 of cf.

22/4/15

(7) Resolution No. XXI(4). Establishment of an

industrial school in the Kistna District.- The

Government have decided to establish a mechani-

cal engineering school at Cocanada and to develop

the St. Aloysius' Industrial school, Vizagapatam.

It will not be possible to establish another

school for the ~~n~~orthern districts in Kistna. The

policy at present is to concentrate industrial

teaching at large centres for the sake of effi-

ciency.

22/4/15

(8) Resolution No. XXIII. Primary education.

In their Educational policy, the Government

of India have stated that it is not practicable

now to introduce free and compulsory elementary

education and the resolution of the conference

in this regard need not be considered.

Para. 10- page 5 of fr no 394 Edl
1.5.13

22/4/15

The conference also urges upon the Government to establish primary schools immediately in all the villages the population of which is over 500. With regard to this it is submitted that, on the 31st March 1914, 93 per cent. of the villages with a population of between 1000 and 2000 and 71 per cent. of those with a population of between 500 and 1000 were provided with elementary schools in the Kistna District - the Presidency averages for these two being 79 and

56. It is also observed that in this respect the district ~~the~~ ranks third and second respectively, among the districts of the Presidency.

From this it will appear that no special steps are necessary for the establishment of more elementary schools in the district. Further no funds are available at present for the purpose.
